Edihome EDIH-0277

Edihome Double Garment Rack Instruction Manual

Brand: Edihome | Model: EDIH-0277

1. PRODUCT OVERVIEW

The Edihome Double Garment Rack is designed to provide a robust and versatile solution for organizing your clothes and footwear. Constructed from high-quality painted steel tubes, this rack offers excellent durability and resistance to corrosion, making it suitable for various indoor environments such as bedrooms, hallways, or laundry rooms. Its double-bar design maximizes hanging space, while the integrated bottom shelf provides convenient storage for shoes or storage boxes.

This image displays the Edihome Double Garment Rack in black, fully assembled and in use, holding various garments on hangers and shoes on the bottom shelf.

2. ASSEMBLY INSTRUCTIONS

The Edihome Double Garment Rack is designed for simple and straightforward assembly. All necessary tools are included in the package to facilitate the process. Please follow the step-by-step instructions provided in the included manual to ensure correct and secure assembly.

- Unpack all components and verify against the parts list.
- Assemble the base frame first, ensuring all connections are secure.
- Attach the vertical support bars to the base.
- Install the upper and lower hanging bars, ensuring they are firmly in place.
- Tighten all screws and connections to ensure stability before use.

3. OPERATING INSTRUCTIONS

Once assembled, the garment rack is ready for use. Hang your clothes on the two parallel bars. The rack features anti-slip beads on both sides of the hanging bars to prevent hangers from sliding off, ensuring your garments remain securely in place. The bottom shelf is ideal for storing shoes, bags, or other accessories.

- Distribute the weight evenly across the hanging bars to maintain stability.
- Do not exceed the maximum load capacity of 30 kg.
- Utilize the anti-slip beads by placing hangers between them to prevent accidental falls.

**Anti-slip bead design on both sides
Prevent hangers falling down to the floor**

4. MAINTENANCE

Maintaining your Edihome Double Garment Rack is simple. Regular cleaning will help preserve its appearance and extend its lifespan. The painted steel surface is easy to clean.

- Wipe the entire rack with a damp cloth to remove dust and dirt.
- For stubborn marks, use a mild soap solution and then wipe dry immediately.
- Avoid using abrasive cleaners or harsh chemicals, as these can damage the finish.
- Periodically check all connections and tighten any loose screws to ensure continued stability.

Bottom foot pad
Wear-resistant anti-slip, protect the floor

This image shows the wear-resistant anti-slip foot pad at the base of the garment rack, which protects the floor from scratches.

5. TROUBLESHOOTING

While the Edihome Double Garment Rack is designed for durability and stability, minor issues may arise. Below are general troubleshooting tips:

- **Instability/Wobbling:** Ensure all screws and connections are fully tightened. Check that the rack is placed on a flat, even surface.
- **Hangers Sliding:** Utilize the anti-slip beads on the hanging bars to secure hangers.
- **Difficulty Assembling:** Re-read the assembly instructions carefully. Ensure all parts are correctly oriented before tightening. Do not force parts together.

If you encounter persistent issues not covered here, please refer to the warranty and support section for further assistance.

6. SPECIFICATIONS

Feature	Detail
---------	--------

Model Number	EDIH-0277
