Mabe 4 cu. ft. Two-Door Mini-Fridge

MODEL: RMF032PYMXB USER MANUAL

1. Important Safety Information

Please read all instructions carefully before using your new mini-fridge. Keep this manual for future reference. Failure to follow these instructions could result in electric shock, fire, or damage to the product.

- Ensure the appliance is properly grounded.
- Do not use extension cords or ungrounded adapters.
- Unplug the refrigerator before cleaning or performing any maintenance.
- Keep ventilation openings clear of obstruction.
- Do not store explosive substances such as aerosol cans with a flammable propellant in this appliance.
- This appliance is intended for household use only.

2. Product Overview

The Mabe RMF032PYMXB is a compact 4 cubic feet mini-fridge featuring a two-door design, providing separate compartments for refrigeration and freezing. It is ideal for small spaces, offices, or dorm rooms.

Figure 2.1: Front view of the Mabe RMF032PYMXB mini-fridge in white. This compact appliance features two distinct doors, one for the freezer compartment and one for the main refrigeration section, designed for efficient space utilization.

Key Components:

- **Freezer Compartment:** Located at the top, with a capacity of 1 cubic foot.

- **Main Refrigeration Compartment:** Lower section for general food storage.
- **Tempered Glass Shelf:** One durable glass shelf for organized storage.
- **Crisper Drawer with Glass Lid:** A dedicated drawer for vegetables and fruits, designed to maintain freshness.
- **Door Racks:** Multiple racks on both doors for bottles and smaller items.

Figure 2.2: Interior view of the Mabe RMF032PYMXB mini-fridge. This image shows the upper freezer compartment and the lower fresh food compartment, complete with a tempered glass shelf and a crisper drawer with a glass lid, along with door storage.

3. Setup and Installation

3.1 Unpacking

1. Remove all packaging materials, including foam and adhesive tape.
2. Inspect the refrigerator for any shipping damage. Report any damage to your retailer immediately.
3. Clean the interior and exterior of the refrigerator with a soft cloth and mild detergent before use.

3.2 Placement

Choose a location that is level, stable, and well-ventilated. Avoid direct sunlight or heat sources. Ensure there is adequate space around the unit for proper air circulation (at least 10 cm on sides and back, 30 cm on top).

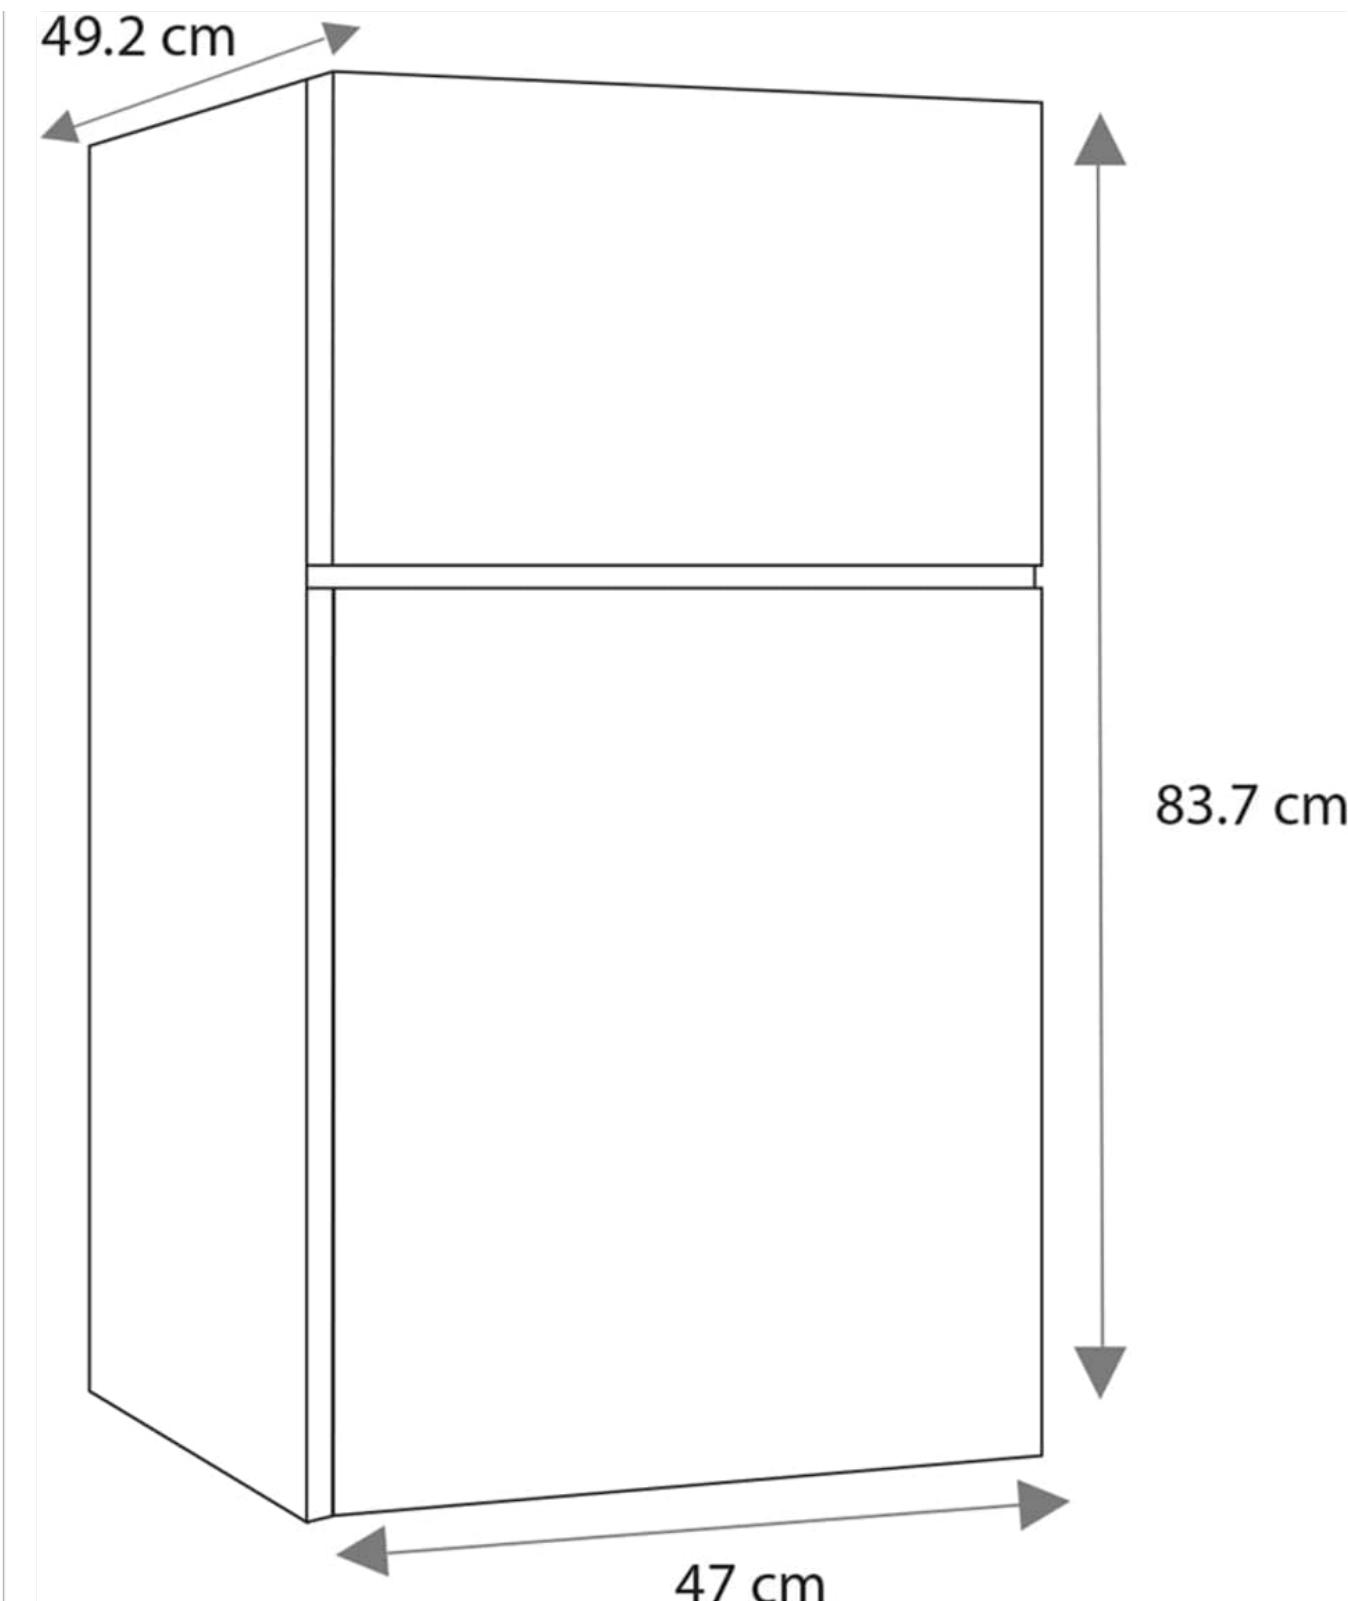

Figure 3.1: Dimensional diagram of the Mabe RMF032PYMXB mini-fridge. The diagram illustrates the height (83.7 cm), width (47 cm), and depth (49.2 cm) of the appliance, crucial for proper placement and installation planning.

3.3 Electrical Connection

- This appliance operates on 115 Volts. Ensure your power supply matches this requirement.
- Plug the refrigerator into a dedicated, grounded electrical outlet. Do not use multi-outlet adapters or extension cords.
- Allow the refrigerator to stand upright for at least 2-4 hours before plugging it in to allow refrigerants to settle.

4. Operating Instructions

4.1 Initial Operation

After plugging in the unit, allow it to cool down for approximately 2-3 hours before placing food inside. This ensures the compartments reach optimal temperatures.

4.2 Temperature Control

The temperature control dial is typically located inside the fresh food compartment. Adjust the dial to your desired setting. Higher numbers usually indicate colder temperatures. Start with a medium setting and adjust as needed based on food load and ambient temperature.

4.3 Food Storage Guidelines

- Store raw meat and poultry on the lowest shelf to prevent drips onto other foods.
- Use the crisper drawer for fresh fruits and vegetables.
- Ensure all food items are properly sealed to maintain freshness and prevent odors.
- Do not overload the refrigerator, as this can impede air circulation and cooling efficiency.

5. Maintenance and Care

5.1 Cleaning

1. Unplug the refrigerator before cleaning.
2. Clean the interior with a solution of mild detergent and warm water. Wipe dry with a soft cloth.
3. Remove shelves and drawers for thorough cleaning. They can be washed with warm soapy water.
4. Clean the exterior surfaces with a soft cloth and mild detergent.
5. Periodically vacuum the condenser coils at the back of the unit to ensure efficient operation.

5.2 Defrosting

This model features an automatic defrost system for the fresh food compartment. The freezer compartment may require manual defrosting if ice buildup becomes excessive. To manually defrost the freezer:

1. Turn off the refrigerator and unplug it from the power outlet.
2. Remove all food items from the freezer and place them in a cooler.
3. Leave the freezer door open to allow ice to melt naturally. Place towels at the bottom to absorb water.
4. Do not use sharp objects or heating devices to speed up defrosting, as this can damage the unit.
5. Once defrosted, clean and dry the interior thoroughly before plugging the unit back in.

5.3 Power Outages

In case of a power outage, keep the refrigerator doors closed to maintain internal temperature for as long as possible. Food should remain frozen for approximately 24 hours if the doors are kept closed.

6. Troubleshooting

Before contacting service, please check the following common issues and solutions:

Problem	Possible Cause	Solution
Refrigerator does not operate.	Not plugged in; circuit breaker tripped; power outage.	Check power cord connection; reset circuit breaker; check household power.

Problem	Possible Cause	Solution
Refrigerator is not cold enough.	Temperature control set too warm; door opened too frequently; warm food placed inside; poor air circulation.	Adjust temperature setting; minimize door openings; allow hot food to cool before storing; ensure proper ventilation.
Excessive noise.	Unit not level; objects vibrating against the unit; normal compressor operation.	Adjust leveling feet; move objects away from the unit; some noise is normal.
Water on floor/inside.	Drain tube clogged; door not sealing properly.	Clear drain tube; check door gasket for proper seal.

7. Specifications

Technical specifications for the Mabe RMF032PYMXB Mini-Fridge:

Feature	Specification
Brand	Mabe
Model Number	RMF032PYMXB
Color	White
Product Dimensions (D x W x H)	49.2 cm x 47 cm x 83.7 cm (19.4 in x 18.5 in x 33 in)
Product Weight	24 kg (52.9 lbs)
Total Capacity	4 cubic feet
Freezer Capacity	1 cubic foot
Voltage	115 Volts
Annual Energy Consumption	500 Kilowatt Hours Per Year
Defrost System	Automatic (fresh food compartment)
Number of Doors	2
Installation Type	Freestanding
BEE Rating	5 Star

8. Warranty and Customer Support

For warranty information or technical assistance, please refer to the warranty card included with your product or contact Mabe customer service directly. Keep your purchase receipt as proof of purchase for any warranty claims.

For further support, visit the official Mabe website or contact their customer service line. Contact details can typically be found on the manufacturer's website or on the product packaging.

Ficha Comercial de Producto

Especificaciones

Producto: Frigorífico
Nonventilada: RMF032PYMXB
EAN /UPC: 727037730964
Capacidad: 171
Categoría: Congelador

Principales **beneficios**

- Capacidad que se adapta a tus necesidades
- Ideal para espacios reducidos
- Ahorro de energía y mejor conservación gracias al sistema de enfriamiento R600a

Características

Especificaciones técnicas:

- Voltaje: 115 V - 60 H

En puerta

- Jarrería tipo pocket

En enfriador:

- 1 puerta de cristal templado
- Cajón lechero con tapa de cristal
- Cajón lechero para latas
- Anaquele especial para latas
- Anaquele medio en puerta

En congelador:

- Cacerola para helados
- Anaquele completo en puerta
