OPERATING (GAMEPLAY)

Verdant is played over several rounds, with each player taking turns to expand their home and care for their plants. The core gameplay loop involves:

- **Selecting a Set:** Choose a combination of a room card and a plant card from the central market.
- **Placing Cards:** Add the chosen room and plant cards to your personal home layout, strategically positioning them to meet plant lighting requirements and create desirable adjacencies.
- **Taking Tokens:** Collect associated tokens (e.g., nurture items, pot tokens) based on your card choices and placement.
- **Scoring:** Earn points throughout the game and at the end by fulfilling plant care conditions, completing goal cards, and arranging furniture and pets effectively.

The game concludes when a specific condition is met (e.g., a certain number of cards are placed), and final scores are tallied to determine the winner. The rulebook provides detailed explanations for all scoring conditions and turn phases, including a dedicated section for solo play.
