SETUP

SIM Card and Battery Installation

1. **Open the Back Cover:** Gently pry open the back cover of the phone.
2. **Insert SIM Card:** Locate the SIM card slot(s). Insert your activated Nano-SIM card(s) into the designated slot(s) with the gold contacts facing down. Ensure it clicks into place.

3. **Insert MicroSD Card (Optional):** If using, insert a MicroSD card into its slot for expanded storage.
4. **Insert Battery:** Align the battery contacts with the phone's contacts and gently press the battery into its compartment.
5. **Close Back Cover:** Replace the back cover, ensuring it snaps securely into place.

Powering On/Off

- **To Power On:** Press and hold the Power/End Call button until the screen illuminates.
- **To Power Off:** Press and hold the Power/End Call button, then select 'Power off' from the options on the screen.

OPERATING INSTRUCTIONS

Basic Navigation

- Use the directional keypad (up, down, left, right) to navigate through menus and options.
- Press the center button (OK/Select) to confirm selections.
- Use the 'Back' button to return to the previous screen.
- The 'Menu' button typically accesses additional options within an application or screen.

Making and Receiving Calls

- **To Make a Call:** Enter the phone number using the keypad and press the 'Call' button (green handset icon).
- **To Answer a Call:** When the phone rings, press the 'Call' button.
- **To End a Call:** Press the 'End Call' button (red handset icon).

Messaging

- Navigate to the 'Messages' application from the main menu.
- Select 'New Message' to compose an SMS or MMS.
- Enter the recipient's number and type your message using the keypad.
- Press 'Send' to transmit the message.

Connecting to Wi-Fi

1. Go to 'Settings' from the main menu.
2. Select 'Network & Internet' or 'Wi-Fi'.
3. Turn Wi-Fi 'On'.
4. Select your desired Wi-Fi network from the list.
5. Enter the password if prompted and select 'Connect'.

Using Applications

The BLU Tank Flip T0100U comes with pre-installed applications such as Facebook and WhatsApp. Access these from the main menu. Navigation within these apps typically uses the directional keypad and select button.

MAINTENANCE

General Care

- Keep the device dry. Moisture can damage electronic circuits.
- Avoid extreme temperatures. High temperatures can shorten the life of electronic devices and damage batteries.
- Do not use harsh chemicals, cleaning solvents, or strong detergents to clean the phone. Wipe it with a soft, damp cloth.
- Handle the device with care. Avoid dropping or subjecting it to strong impacts.

Battery Care

- Use only BLU-approved batteries and chargers.
- Do not short-circuit the battery or dispose of it in fire.
- If the phone becomes excessively hot during use, especially during prolonged activities like video calls, allow it to cool down.

TROUBLESHOOTING

Common Issues and Solutions

- **Network Connectivity Issues:** If the phone does not reconnect to the network after losing service (e.g., after exiting a tunnel), try restarting the device. If the issue persists, verify SIM card installation and contact your service provider.
- **Slow Response/UI Lag:** The device may experience occasional delays in button response or user interface navigation. Ensure no excessive applications are running in the background. A restart can often resolve temporary performance issues.
- **WhatsApp Usage Difficulties:** Navigating WhatsApp with arrow keys can be challenging. For certain actions like agreeing to terms, you may need to experiment with button combinations (e.g., holding the middle button and pressing up) or linking WhatsApp to a PC for easier management. Prolonged video calls may cause the device to heat up.
- **Phone Not Powering On:** Ensure the battery is correctly installed and charged. Connect the phone to its charger and attempt to power it on.
- **Call Quality Issues:** Check your network signal strength. Move to an area with better reception if necessary.

SPECIFICATIONS

Feature	Detail
Model Name	Tank Flip T0100U
Dimensions	4.88 x 2.64 x 2.2 inches
