2. SAFETY INFORMATION

To ensure safe use of your Anbuy Nightstand, please adhere to the following safety guidelines:

- **Placement:** Place the nightstand on a flat, stable, and level surface to prevent tipping. Avoid placing it in high-traffic areas where it might be easily bumped.
- **Children Safety:** Keep small parts and assembly hardware out of reach of children during assembly. Do not allow children to climb on or play with the nightstand.
- **Anti-Tip Device (if applicable):** If an anti-tip device is included, it is highly recommended to install it to secure the nightstand to a wall, especially in homes with children or pets.
- **Material Handling:** The nightstand is made of high-quality MDF wood. Avoid exposing it to excessive moisture or extreme temperature changes, which can cause warping or damage.

6. CARE AND MAINTENANCE

Proper care will help maintain the appearance and longevity of your nightstand.

- **Cleaning:** Wipe the surface with a dry, soft cloth. For stubborn marks, a slightly damp cloth can be used, followed immediately by a dry cloth to prevent moisture damage. Avoid abrasive cleaners or harsh chemicals.
- **Spills:** Promptly wipe up any spills to prevent liquid from penetrating the engineered wood and causing swelling or discoloration.
- **Sunlight Exposure:** Avoid prolonged direct sunlight exposure, which can cause fading or discoloration of the finish.
- **Heat Protection:** Use coasters or protective pads under hot items to prevent heat marks on the tabletop.
- **Hardware Check:** Periodically check all screws and fasteners to ensure they remain tight. Re-tighten if necessary to maintain stability.

7. TROUBLESHOOTING

If you encounter any issues with your Anbuy Nightstand, please refer to the following common solutions:

Problem	Possible Cause	Solution
Nightstand is wobbly or unstable.	Loose screws or uneven floor.	Ensure all assembly screws are tightened. Place on a level surface; use furniture pads if needed to level.
Drawers do not slide smoothly.	Misaligned slide rails or obstruction.	Check that slide rails are correctly installed and aligned on both the drawer and the frame. Remove any obstructions in the rail path.
Drawer does not close completely.	Overloaded drawer or obstruction.	Reduce contents in the drawer. Check for items blocking the back of the drawer or the rail mechanism.
Scratches or minor damage on surface.	Accidental impact or abrasive cleaning.	For minor scratches, a furniture repair pen matching the white finish may be used. Avoid abrasive materials for cleaning.
