## Cooler Master CMI-GCX2-LUKE

# Cooler Master Caliber X2 Street Fighter 6 Luke Edition Ergonomic Gaming Chair User Manual

Model: CMI-GCX2-LUKE

## INTRODUCTION

Welcome to the user manual for your Cooler Master Caliber X2 Street Fighter 6 Luke Edition Ergonomic Gaming Chair. This chair is designed for extended periods of seated work and play, combining a clean aesthetic with advanced ergonomic features to provide superior comfort and support. It features a unique Street Fighter 6 Luke Edition design, making it a distinctive addition to any gaming setup or office environment.

Key features include adaptable ergonomics with an enlarged headrest and lumbar support, an upgraded seat base with thicker, denser foam for enhanced comfort, ultra-soft dense memory foam that dynamically contours to your body, and unibody cold-molded foam for superior shape retention and even support.

## **SAFETY INFORMATION**

Please read all instructions carefully before assembly and use. Keep this manual for future reference.

- Ensure all components are present and undamaged before assembly.
- Do not stand on the chair.
- Do not use the chair if any parts are missing, damaged, or worn.
- Keep small parts away from children.
- Use the chair only for its intended purpose.
- Maximum weight recommendation: 136 Kilograms (approximately 300 lbs). Do not exceed this limit.
- Avoid exposing the chair to direct sunlight or extreme temperatures.

## PACKAGE CONTENTS

Before beginning assembly, please verify that all the following components are included in your package:

- Backrest
- Seat Base
- Armrests (pre-attached to seat base or separate)
- Star Base
- Casters (5 pieces)
- Gas Lift Cylinder
- Gas Lift Cover
- Multi-functional Tilt Mechanism
- Lumbar Support Pillow
- Headrest Pillow
- Side Covers (2 pieces)
- Assembly Screws and Tools (Allen Key)

## SETUP AND ASSEMBLY

Follow these general steps to assemble your gaming chair. Specific instructions may vary slightly, but the core process remains consistent.

1. **Attach Casters to Star Base:** Insert the five casters into the holes at the end of each leg of the star base. Push firmly until they click into place.
2. **Install Gas Lift:** Place the gas lift cylinder into the center hole of the star base. Cover it with the gas lift cover.
3. **Attach Tilt Mechanism to Seat Base:** Secure the multi-functional tilt mechanism to the underside of the seat base using the provided screws. Ensure the front of the mechanism faces the front of the seat.
4. **Connect Seat to Gas Lift:** Carefully place the assembled seat base onto the gas lift cylinder. The tapered end of the gas lift should fit securely into the mechanism.
5. **Attach Backrest to Seat Base:** Align the metal brackets on the backrest with the mounting points on the seat base. Secure with screws, then attach the side covers.
6. **Attach Pillows:** Position the lumbar support pillow and headrest pillow as desired for optimal comfort. The lumbar pillow typically straps around the backrest, and the headrest pillow can be placed at the top.

## OPERATING INSTRUCTIONS

Your Cooler Master Caliber X2 chair offers several adjustment options to customize your seating experience:

- **Height Adjustment:** Locate the lever on the right side, beneath the seat. Pull the lever up to raise the chair. To lower, sit on the chair and pull the lever up. Release the lever at your desired height.
- **Recline Function:** The chair features a 180-degree reclining backrest. Pull the lever on the left side of the seat to adjust the backrest angle. Lean back to recline and release the lever to lock the position. To bring the backrest forward, pull the lever and lean forward.
- **Tilt Lock and Tension:** A knob beneath the seat (usually at the front) controls tilt tension. Turn it clockwise to increase tension (making it harder to tilt) or counter-clockwise to decrease tension. A separate lever (often the same as the height adjustment lever, pushed inwards) can lock the chair in an upright position or allow for rocking.

- **4D Armrests:** The armrests can be adjusted in four directions:
  - **Height:** Press the button on the side of the armrest and move it up or down.
  - **Forward/Backward:** Slide the armrest pad forward or backward.
  - **Left/Right:** Slide the armrest pad left or right.
  - **Pivot:** Rotate the armrest pad inwards or outwards.
- **Lumbar and Headrest Pillows:** Adjust the position of the lumbar and headrest pillows to best support your lower back and neck. The lumbar pillow is designed to provide enhanced ergonomic comfort.

### MAINTENANCE

Proper care will extend the life and appearance of your gaming chair:

- **Cleaning:** Wipe clean with a damp cloth. For tougher spots, use a mild soap solution and wipe dry immediately. Avoid harsh chemicals or abrasive cleaners.
- **Regular Checks:** Periodically check all screws and bolts to ensure they are tight. Re-tighten if necessary.
- **Caster Care:** Keep casters free of hair and debris to ensure smooth rolling.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause the material to fade or crack.

## TROUBLESHOOTING

If you encounter any issues with your chair, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Chair does not raise/lower	Gas lift malfunction or lever not engaged properly.	Ensure the lever is fully pulled. If the issue persists, the gas lift may need replacement. Contact support.
Chair squeaks	Loose bolts or friction between parts.	Tighten all assembly bolts. Apply a small amount of silicone lubricant to moving parts if necessary.
Casters not rolling smoothly	Debris caught in casters or damaged casters.	Remove any hair or debris from the caster wheels. If damaged, casters may need replacement.
Backrest does not recline/lock	Recline mechanism issue or lever not engaged.	Ensure the recline lever is fully pulled. Check for any obstructions in the mechanism.

## SPECIFICATIONS

Image: The Cooler Master Caliber X2 Gaming Chair with key dimensions labeled: 54.3 inches height, 28.3 inches width, and 27.6 inches depth.

Feature	Detail
Brand	Cooler Master
