6. Maintenance

Proper care will help maintain the appearance and structural integrity of your P'Kolino Casita Twin Floor Bed.

- **Cleaning:** For general cleaning, wipe the wood surfaces with a soft, damp cloth. Avoid using harsh chemicals, abrasive cleaners, or excessive moisture, as these can damage the wood finish.

- **Dusting:** Regularly dust the bed frame with a dry, soft cloth.
- **Inspections:** Periodically check all screws, bolts, and connections to ensure they remain tight. Retighten if necessary to maintain stability and safety.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause wood to fade or warp. Position the bed away from direct sunlight if possible.

7. Troubleshooting

If you encounter any issues with your P'Kolino Casita Twin Floor Bed, please refer to the following common solutions.

Problem	Possible Cause	Solution
Bed feels wobbly or unstable.	Loose hardware connections.	Check and tighten all screws and bolts securely. Ensure all parts are correctly aligned.
Difficulty during assembly.	Parts misalignment, incorrect hardware, or missing pre-drilled holes.	Refer to the detailed assembly guide. Ensure parts are oriented correctly. Do not force components. If holes are missing or misaligned, contact customer support.
Squeaking noises.	Loose connections or friction between wood parts.	Tighten all hardware. If squeaking persists, apply a small amount of furniture wax or silicone spray to contact points between wood components (avoiding areas that touch the mattress).

If the issue persists or is not listed here, please contact P'Kolino customer support for further assistance.
