Moimhear 000212

Moimhear Twin Loft Bed with Slide

Model: 000212

INTRODUCTION

Thank you for choosing the Moimhear Twin Loft Bed with Slide. This multifunctional loft bed is designed to maximize space while providing an engaging and comfortable sleeping and play area for children. Featuring a sturdy construction of solid pine wood and MDF, a playful house design, and an integrated slide, this bed offers both practicality and entertainment. This manual provides essential information for safe assembly, operation, and maintenance of your new loft bed.

SAFETY INFORMATION

Your safety and the safety of your child are paramount. Please read and follow all safety instructions carefully before assembly and use.

General Safety Guidelines:

- **Adult Assembly Required:** This product requires adult assembly. Do not allow children to assist with assembly.
- **Weight Capacity:** The top loft bed is designed to hold up to 250 lbs (approximately 113 kg). Do not exceed this weight limit.
- **Guardrails:** Always ensure guardrails are properly installed and secured. The high guardrail design is intended to prevent falls.
- **Mattress Size:** Use only a standard twin-size mattress that fits snugly within the bed frame to prevent entrapment.
- **No Box Spring Needed:** This bed includes a slat kit, eliminating the need for a box spring.
- **Slide Safety:** Supervise children when using the slide. Ensure the area around the slide exit is clear. Only one child should use the slide at a time.
- **Ladder Safety:** Ensure the ladder is securely attached. Teach children to use the ladder safely, facing the ladder when climbing up or down.

- **Ventilation:** Ensure adequate ventilation around the bed.
- **Regular Checks:** Periodically check all bolts and connections to ensure they remain tight and secure. Tighten as necessary.
- **Avoid Jumping:** Do not allow jumping on the bed.
- **Flammable Materials:** Keep flammable materials away from the bed.

PARTS LIST

Before beginning assembly, please verify that all components listed below are present and undamaged. If any parts are missing or damaged, please contact customer support immediately.

This product comes in **2 separate packages**. Ensure both packages have arrived before starting assembly.

Part	Description	Quantity
A	Headboard/Footboard Panels	2
B	Side Rails	2
C	Ladder	1
D	Slide Assembly	1
E	Bed Slats	Set
F	House Frame Components	Set
G	Hardware Pack (bolts, nuts, washers, Allen wrench)	1

Note: The exact number and type of small components (screws, dowels, etc.) will be detailed in the included assembly diagram.

SETUP AND ASSEMBLY

Assembly is required for this product. It is recommended that two adults assemble the bed. Clear instructions and tools are provided in the hardware pack.

Before You Begin:

- Clear a spacious area for assembly.
- Lay out all parts and hardware.
- Do not fully tighten bolts until instructed to do so.

Assembly Steps:

1. **Assemble the Bed Frame:** Attach the side rails (B) to the headboard and footboard panels (A) using the provided bolts from the hardware pack (G). Hand-tighten all connections initially.
2. **Install Bed Slats:** Place the bed slats (E) across the side rails and secure them according to the instructions in the assembly diagram. Ensure slats are evenly spaced and firmly attached.
3. **Attach the Ladder:** Securely attach the ladder (C) to the designated side of the bed frame using the appropriate hardware. Ensure it is stable and does not wobble.
4. **Attach the Slide:** Connect the slide assembly (D) to the bed frame. Verify that the slide is firmly attached and stable.

for safe use.

5. **Assemble the House Frame:** Construct the house frame components (F) and attach them to the top of the bed frame. Ensure all connections are secure.
6. **Final Tightening:** Once all components are in place and aligned, fully tighten all bolts and screws using the provided Allen wrench. Do not overtighten.
7. **Final Check:** Before use, gently shake the assembled bed to ensure stability. Re-check all connections for tightness.

OPERATING INSTRUCTIONS

The Moimhear Twin Loft Bed is designed for comfortable sleeping and playful activity. Follow these guidelines for optimal use.

Bed Usage:

- **Sleeping Area:** The top bunk is suitable for a standard twin-size mattress. Ensure the mattress fits snugly to prevent gaps.
- **Under-Bed Space:** The area beneath the loft bed can be utilized for play, reading, or storage. This space is approximately 42.5 inches wide and 48.8 inches high (from floor to bottom of bed frame).

Slide Usage:

- **Supervision:** Always supervise children when they are using the slide.
- **One User at a Time:** Only one child should use the slide at any given time to prevent collisions.
- **Clear Landing Area:** Ensure the area at the bottom of the slide is clear of obstacles, toys, or other children.
- **Proper Sliding Posture:** Instruct children to slide down feet first, sitting upright or lying on their back.

Ladder Usage:

- **Face the Ladder:** Always instruct children to face the ladder when climbing up or down.
- **Use Both Hands:** Encourage children to use both hands to grip the ladder rungs.
- **One Person at a Time:** Only one person should be on the ladder at a time.

MAINTENANCE

Regular maintenance will help prolong the life and appearance of your Moimhear Twin Loft Bed.

Care and Cleaning:

- **Dusting:** Regularly dust the bed frame with a soft, dry cloth.
- **Cleaning:** For spills or marks, wipe with a damp cloth and mild soap. Dry immediately with a clean cloth. Avoid harsh chemicals or abrasive cleaners, as they may damage the wood finish.

- **Hardware Check:** Periodically (e.g., every 3-6 months) check all bolts, screws, and connections. Tighten any loose hardware to maintain stability and safety.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause the wood finish to fade or crack.
- **Humidity Control:** Maintain a stable humidity level in the room to prevent wood from warping or cracking.

TROUBLESHOOTING

If you encounter any issues with your Moimhear Twin Loft Bed, refer to the common problems and solutions below.

Problem	Possible Cause	Solution
Bed wobbles or feels unstable.	Loose hardware connections.	Check and tighten all bolts and screws. Ensure all components are properly aligned.
Missing parts during assembly.	Parts may be in the second package or an oversight during packing.	Verify both packages have arrived. Double-check the parts list against the contents. Contact customer support for missing parts.
Slide or ladder feels loose.	Improper attachment or loose bolts.	Ensure the slide and ladder are correctly attached according to assembly instructions. Tighten all connecting bolts.
Squeaking noises.	Loose connections or friction between wood parts.	Tighten all hardware. If squeaking persists, a small amount of wax or lubricant can be applied to contact points between wood pieces (avoiding areas that bear weight).

If you experience an issue not listed here, or if the suggested solutions do not resolve the problem, please contact Moimhear customer support.
