UBeesize UB-ZD081BK

UBeesize 10-inch Ring Light with 62-inch Tripod User Manual

Model: UB-ZD081BK

1. INTRODUCTION

Thank you for choosing the UBeesize 10-inch Ring Light with 62-inch Tripod. This product is designed to provide optimal lighting for various applications, including photography, video recording, live streaming, and video conferencing. Its versatile design allows for use as a standalone ring light with a tripod or as a selfie stick. This manual provides detailed instructions for assembly, operation, maintenance, and troubleshooting to ensure you get the most out of your device.

2. PACKAGE CONTENTS

Please check the package contents upon unboxing to ensure all components are present:

- 1 x 10-inch LED Ring Light
- 1 x 62-inch Extendable Tripod Stand
- 1 x Adjustable Phone Holder
- 1 x Wireless Bluetooth Remote Control
- 1 x AC/DC Power Adapter (USB cable with wired control)

Image: A visual representation of the kit's components, including the USB plug, easy-to-use phone clip, wireless remote control, 240 light beads, 3 color temperature options, robust ABS plastic housing, improved light transmission, and high color rendering index.

3. SETUP GUIDE

3.1 Assembling the Tripod

1. Unfold the tripod legs until they are fully extended and stable.
2. Extend the telescopic sections of the tripod to your desired height. Secure each section by twisting the locking collars clockwise. The tripod can extend up to 62 inches (approximately 157.5 cm).

Image: A visual guide illustrating the extendable tripod stand, showing its compact size and various extended heights up to 63 inches.

3.2 Attaching the Ring Light

1. Locate the mounting screw on top of the tripod stand.
2. Align the ring light's mounting hole with the tripod screw and gently twist the ring light clockwise until it is securely fastened.

3.3 Installing the Phone Holder

1. Insert the phone holder into the cold shoe mount located in the center of the ring light.
2. Tighten the locking knob on the phone holder to secure it in place.
3. Adjust the phone holder's angle as needed. The holder supports smartphones with widths from 2.3 inches to 4.5 inches.

Image: Illustrations demonstrating the versatility of the tripod, showing its use with smartphones (up to 4.5 inches wide), the ring light itself, and various cameras.

3.4 Power Connection

1. Connect the USB cable from the ring light to the provided AC/DC power adapter.

2. Plug the power adapter into a standard wall outlet. Alternatively, the USB cable can be connected to any compatible USB power source (e.g., power bank, computer USB port).

4. OPERATING INSTRUCTIONS

4.1 Powering On/Off

The ring light features a redesigned touch-pad control on the front for easy operation.

- To turn on the ring light, press the **ON/OFF** button on the touch-pad.

- To turn off the ring light, press the **ON/OFF** button again.

Image: A detailed view of the ring light's touch-pad, highlighting the ON/OFF button, brightness adjustment buttons (+/-), and light color selection button.

4.2 Adjusting Brightness

The ring light offers 10 levels of brightness for each color mode.

- Press the **Brightness +** button to increase the light intensity.
- Press the **Brightness -** button to decrease the light intensity.

4.3 Changing Light Color

The ring light provides three distinct light color modes: Warm White, Cool White, and White Light.

- Press the **Light Color** button to cycle through the available color temperatures.

4.4 Using the Bluetooth Remote Control

The wireless Bluetooth remote control allows for convenient remote operation, compatible with both iOS and Android phones.
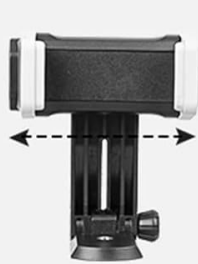

1. Ensure Bluetooth is enabled on your smartphone.
2. Turn on the Bluetooth remote control. It will enter pairing mode.
3. On your smartphone, search for Bluetooth devices and select "UBeesize Remote" (or similar) to pair.
4. Once paired, you can use the remote to trigger photos or start/stop video recording from a distance of up to 10 meters.
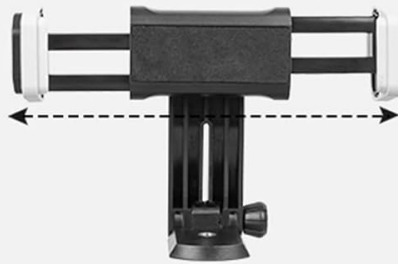

4.5 Using the Wired Control

The USB cable includes an inline wired control for quick adjustments.

- The wired control allows you to adjust brightness, switch light colors, and power the unit on/off.

5. RECOMMENDED USAGE SCENARIOS

The UBeesize Ring Light is highly versatile and suitable for a wide range of applications:

- **Live Streaming:** Provides consistent and flattering illumination for live broadcasts on various platforms.
- **Photography:** Ideal for portraits, product photography, and macro shots, eliminating harsh shadows.
- **Video Recording:** Ensures professional-quality lighting for vlogs, tutorials, and interviews.
- **Video Conferencing:** Enhances your appearance during online meetings, making you look clear and well-lit.
- **Makeup Application:** Offers bright, even light for precise makeup application.
- **Travel:** The compact design allows for easy portability, making it perfect for on-the-go content creation.

Vidéoconférences

Image: Two individuals engaged in a video conference, with the UBeesize ring light providing optimal illumination for their online communication.

6. CARE AND MAINTENANCE

Proper care and maintenance will extend the lifespan of your UBeesize Ring Light.

- **Cleaning:** Use a soft, dry cloth to wipe down the ring light and tripod. For stubborn marks, a slightly damp cloth can be used, but ensure the device is unplugged and completely dry before reconnecting power. Do not use abrasive cleaners or solvents.
- **Storage:** When not in use, collapse the tripod to its minimum height (20 inches) for easy storage. Store the device in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Avoid dropping the device or subjecting it to strong impacts. Do not attempt to disassemble the ring light or tripod, as this may void the warranty and cause damage.

7. TROUBLESHOOTING

If you encounter any issues with your UBeesize Ring Light, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Ring light does not turn on.	No power supply or loose connection.	Ensure the USB cable is securely connected to the power adapter and the adapter is plugged into a working outlet. Try a different USB port or power source.
Light is too dim or too bright.	Brightness level needs adjustment.	Use the Brightness + or - buttons on the touch-pad or wired control to adjust the intensity.
Bluetooth remote not pairing.	Remote not in pairing mode or Bluetooth is off on phone.	Ensure Bluetooth is enabled on your phone. Turn the remote off and on again to re-enter pairing mode. Check your phone's Bluetooth settings to forget previous pairings if necessary.
Phone holder not secure.	Locking knob is loose or phone is too wide/narrow.	Tighten the locking knob on the phone holder. Ensure your phone's width is within the supported range (2.3" to 4.5").

If the problem persists after trying these solutions, please contact UBeesize customer support for further assistance.
