VOPLLS V-15000L-WiFi-Bluetooth Projector

VOPLLS V-15000L-WiFi-Bluetooth Projector User Manual

Model: V-15000L-WiFi-Bluetooth Projector | Brand: VOPLLS

INTRODUCTION

Thank you for choosing the VOPLLS V-15000L-WiFi-Bluetooth Mini Projector. This portable projector is designed to provide a high-quality home theater experience with its 1080P Full HD support, 5G WiFi, and Bluetooth connectivity. Its compact size makes it ideal for both indoor and outdoor use. Please read this manual thoroughly to ensure proper setup and operation.

WHAT'S INCLUDED

The VOPLLS V-15000L-WiFi-Bluetooth Projector package typically includes the following items:

- VOPLLS Mini Projector
- HDMI Cable
- Power Cord
- AV Signal Cable
- Remote Control
- Mini Tripod
- Lens Cover

SETUP GUIDE

1. **Power Connection:** Connect the power cord to the projector and then to a power outlet.
2. **Lens Cover:** Remove the lens cover before operation. Replace it after use to protect the lens.
3. **Positioning:** Place the projector on a stable, flat surface. The included mini tripod can be attached to adjust the projection angle.
4. **Focus Adjustment:** Use the "FOCUS" knob on the side of the projector to achieve a clear image. Rotate until the image appears sharp.
5. **Keystone Correction:** The projector features a keystone adjustment knob (or digital correction via menu) to correct distorted images if the projector is not perfectly perpendicular to the screen.
6. **Connecting Devices:**
 - **HDMI:** Connect laptops, gaming consoles (e.g., PS5), or TV sticks (e.g., Roku, Fire TV) using the HDMI cable.
 - **USB:** Insert USB drives for media playback.
 - **AV:** Use the AV signal cable for older devices.
 - **Smartphone/Tablet:** For iOS devices, an additional Lightning to HDMI adapter is required (not included). For Android devices, ensure your device supports screen mirroring and follow the wireless mirroring instructions.

Bluetooth 5.1 Connection

OPERATING INSTRUCTIONS

Wireless Connectivity (WiFi & Bluetooth)

The projector supports both 2.4GHz and 5GHz dual-band WiFi for stable and fast screen mirroring, and Bluetooth for audio output.

- **WiFi Screen Mirroring:**

- Navigate to the "Screen Mirroring" or "WiFi Display" option in the projector's menu.
- Ensure your smartphone or tablet is connected to the same WiFi network as the projector.
- On your device, enable screen mirroring (e.g., "Smart View" on Android, "Screen Mirroring" on iOS) and select the projector from the list of available devices.
- *Note: Due to copyright restrictions, streaming services like Netflix, Prime Video, and Hulu cannot be mirrored*

directly from a smartphone. Please use a TV Stick (e.g., Fire TV Stick, Roku) connected via HDMI for these applications.

- **Bluetooth Connection:**

- Go to the "Bluetooth" settings in the projector's menu.
- Enable Bluetooth on the projector and your external Bluetooth speaker or headphones.
- Select your audio device from the list on the projector to pair.

Projection Size and Zoom Function

The projector offers a flexible projection size and a convenient zoom function.

- **Projection Size:** The recommended projection size ranges from 35 inches to 210 inches, with an optimal projection distance between 3.7 feet to 23.6 feet.
- **Zoom Function:** Use the remote control to adjust the image size from 100% down to 50% without physically moving the projector.

Mini Size with Powerful Performance

MAINTENANCE

- **Lens Cleaning:** Gently clean the projector lens with a soft, lint-free cloth. Avoid abrasive materials or harsh chemicals.
- **Ventilation:** Ensure the projector's ventilation ports are clear and unobstructed to prevent overheating. Do not block the air inlets or outlets.
- **Lamp Life:** The LED light source is designed for a long lifespan of up to 60,000 hours, minimizing the need for lamp replacement.
- **Storage:** When not in use, store the projector in a cool, dry place and replace the lens cover to protect it from dust.

TROUBLESHOOTING

Problem	Possible Cause / Solution
No image / Blurry image	Ensure power is connected and the projector is turned on. Adjust the "FOCUS" knob until the image is clear. Check input source (HDMI, USB, AV) is correctly selected. Verify cables are securely connected. Adjust keystone correction if the image is distorted.
No sound	Check projector volume and source device volume. Ensure Bluetooth speaker/headphones are properly paired if used. Verify audio settings on the source device.
Cannot screen mirror Netflix/Hulu	Due to copyright protection, these apps cannot be mirrored directly from a smartphone. Use a TV Stick (e.g., Fire TV Stick, Roku) connected via HDMI to access these services.
Remote control not working	Check and replace batteries. Ensure there are no obstructions between the remote and the projector's IR receiver.
