Grelife 1.2L Multi-Function Baby Bottle Warmer & Water Kettle Instruction Manual

Model: B0BF9V8LR9

1. INTRODUCTION

Thank you for choosing the Grelife 1.2L Multi-Function Baby Bottle Warmer & Water Kettle. This versatile appliance is designed to simplify your daily routine by providing accurately heated water for baby formula, breast milk, tea, and coffee. Its advanced features ensure safety, convenience, and optimal temperature control for various needs.

2. IMPORTANT SAFETY INFORMATION

- Read all instructions before use.
- Do not immerse the base unit in water or other liquids.
- Ensure the voltage matches your power supply.
- Always supervise the appliance when in use, especially around children.
- Unplug from outlet when not in use and before cleaning.
- Do not operate with a damaged cord or plug.
- Use only manufacturer-recommended accessories.
- Avoid contact with hot surfaces. Use handles or knobs.
- Do not place on or near a hot gas or electric burner, or in a heated oven.
- Exercise extreme caution when moving an appliance containing hot water.
- Always ensure the lid is securely closed during operation.
- This appliance is for household use only.

3. PRODUCT FEATURES

- **Instantly Warm Formula:** Warming technology and 500W heating power warm milk in 2-6 minutes.
- **72H Keep Warm:** Quickly boils water and maintains a constant temperature for up to 72 hours. Features auto shut-off and boil-dry protection.

- **Precise Temperature Control:** Super precise temperature probe and adjustable range of 35-95°C (95-203°F). Smart touch screen and low decibel operation for quiet use.
- **9-in-1 Quick Mode Selection:** Functions include boiling water, sterilization, and dechlorination.
- **Easy to Use and Clean:** Large 1.2L (40oz) capacity with a wide opening. Made from high-quality BPA-free glass and stainless steel.

4. PACKAGE CONTENTS

- Grelife 1.2L Multi-Function Baby Bottle Warmer & Water Kettle Base Unit
- Glass Pitcher with Lid (1.2L capacity)
- Bottle Warming Basket (with holes)
- Bottle Warming Basket Lid (solid)
- User Manual

5. SETUP

1. **Unpack:** Carefully remove all components from the packaging.
2. **Initial Cleaning:** Wash the glass pitcher, lid, and bottle warming baskets with warm soapy water. Rinse thoroughly and dry. Wipe the base unit with a damp cloth.
3. **Placement:** Place the base unit on a stable, flat, heat-resistant surface away from water sources and direct heat.
4. **Power Connection:** Plug the power cord into a suitable electrical outlet. The LED screen will illuminate.

6. OPERATING INSTRUCTIONS

General Operation:

1. **Power On/Off:** Press the power button  to turn the unit on or off.
2. **Select Mode:** Press the 'M' button  to cycle through the available modes: Keep Warm, Warm Milk, Coffee, Tea, Sterilize, Boil, and Dechlorination (DCI). The selected mode will be highlighted on the LED screen.
3. **Adjust Temperature:** Use the '+' and '-' buttons  to set the desired temperature within the mode's range. The set temperature and current temperature will be displayed.

Specific Functions:

- **Boiling Water:** Fill the glass pitcher with water (up to 1.2L max). Select the 'Boil' mode. The unit will heat the water to 212°F (100°C). This is useful for preparing water for formula or other hot beverages.
- **Dechlorination (DCI):** After boiling, select the 'DCI' mode. This function helps remove chlorine from the water, providing safer and purer water for your baby.
- **Keep Warm:** After boiling or heating water to a desired temperature, select 'Keep Warm'. The unit will maintain the set temperature for up to 72 hours.
- **Warm Milk/Formula:** Fill the glass pitcher with water up to the 800ml mark. Place the bottle warming basket into the pitcher, then place the baby bottle inside the basket. Select 'Warm Milk' mode and adjust the temperature as needed (e.g., 98.6°F for body temperature). The unit will gently warm the

milk.

- **Thawing Breast Milk:** Use the bottle warming basket with water in the pitcher. Select a low temperature setting (e.g., 95-104°F) to gently thaw frozen breast milk, preserving its nutrients.
- **Sterilize:** Fill the glass pitcher with water. Place items to be sterilized (e.g., bottle nipples, small accessories) into the bottle warming basket and place it in the pitcher. Select 'Sterilize' mode. The unit will heat water to 212°F (100°C) to steam sterilize items.
- **Tea/Coffee:** Fill the glass pitcher with water. Select 'Tea' or 'Coffee' mode and adjust the temperature to your preference. The unit will heat the water to the optimal temperature for your beverage.

8. MAINTENANCE AND CLEANING

- **Daily Cleaning:** After each use, unplug the unit and allow it to cool. Wash the glass pitcher, lid, and warming baskets with warm soapy water. Rinse thoroughly and dry.
- **Base Unit:** Wipe the exterior of the base unit with a soft, damp cloth. Do not immerse the base unit in water.
- **Descaling:** Over time, mineral deposits may accumulate. To descale, fill the pitcher with a mixture of white vinegar and water (1:1 ratio). Let it sit for 30 minutes, then boil the mixture. Rinse thoroughly

several times with fresh water. Repeat if necessary.

9. TROUBLESHOOTING

- **Unit Not Turning On:** Ensure the power cord is securely plugged into both the unit and a working electrical outlet.
- **Water Not Heating:** Check if the correct mode is selected and the temperature is set appropriately. Ensure there is enough water in the pitcher.
- **Temperature Inaccurate:** Ensure the temperature probe at the bottom of the pitcher is clean and free from scale.
- **Boil-Dry Protection Activated:** If the unit automatically shuts off, it may be due to low water level. Refill the pitcher and restart the unit after it has cooled down.
- **Unusual Odor/Taste:** Perform a thorough cleaning and descaling cycle. Ensure all components are rinsed well.

10. SPECIFICATIONS

- **Brand:** Grelife
- **Model:** B0BF9V8LR9
- **Capacity:** 1.2 Liters (40oz)
- **Item Weight:** 1.86 Kilograms
- **Voltage:** 220 Volts (AC)
- **Wattage:** 500 watts
- **Color:** Gray
- **Material Type:** Glass, Stainless Steel
- **Temperature Range:** 35-95°C (95-203°F)
