IMPORTANT SAFETY INFORMATION

WARNING: Failure to follow these warnings and instructions could result in serious injury or death.

- Always use the recommended mattress size and thickness to prevent falls. For the upper bunk, the mattress thickness should be 6 inches or less.
- Ensure all connections are tight before use and check periodically.
- Do not allow children under 6 years of age on the upper bunk.
- Use guardrails on both sides of the upper bunk.
- Do not attach or hang items to any part of the bunk bed that are not designed for use with the bed; for example, but not limited to, hooks, belts, and jump ropes.
- Always use the staircase for access to the upper bunk. Do not jump on the bed.
- The maximum weight capacity for the upper bunk is 200 lbs, for the lower bunk is 250 lbs, and for the trundle is 200 lbs.

PACKAGE CONTENTS

Before beginning assembly, verify that all parts listed below are present and undamaged. If any parts are missing or damaged, do not proceed with assembly. Contact customer support for assistance.

- Twin Over Full Bunk Bed Frame components
- Trundle Bed components
- Staircase with integrated storage shelves components
- Hardware pack (screws, bolts, nuts, etc.)
- Assembly tools (typically Allen wrench, not always included)

ASSEMBLY INSTRUCTIONS

Assembly requires two adults. Please follow the step-by-step diagrams provided in the separate assembly guide (if applicable) or refer to the general instructions below. Ensure you have adequate space for assembly.

1. **Unpack and Identify Parts:** Carefully unpack all components and lay them out on a soft, clean surface to prevent scratches. Identify each part using the provided parts list.
2. **Assemble the Lower Bed Frame:** Begin by assembling the headboard and footboard for the full-size lower bed, attaching the side rails.
3. **Assemble the Upper Bed Frame:** Assemble the headboard and footboard for the twin-size upper bed, attaching the side rails.
4. **Construct the Staircase:** Assemble the staircase unit, ensuring the storage shelves are correctly integrated. The staircase is not reversible.
5. **Attach Upper Bed to Lower Bed and Staircase:** Carefully lift and secure the upper bed frame onto the lower bed frame and attach it to the staircase unit. Ensure all connections are firm and secure.

6. **Assemble the Trundle Bed:** Assemble the trundle bed frame, including its wheels, for easy pull-out functionality.
7. **Install Slats:** Place and secure the bed slats for both the upper and lower bunks, and the trundle.
8. **Final Check:** Double-check all bolts and screws to ensure they are tightened securely. Do not overtighten.

OPERATING INSTRUCTIONS

Using the Trundle Bed

The trundle bed is designed for convenient extra sleeping space. It features four wheels for easy movement. To use, simply pull the trundle unit out from under the lower bunk. To store, push it back into place until it is fully under the bed.

Utilizing Storage Staircase

The integrated staircase provides safe access to the upper bunk and includes open shelves for storage. These shelves can be used to store books, toys, or other small items, helping to keep the room organized.

MAINTENANCE AND CARE

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the finish.
- **Hardware Check:** Periodically check all bolts, screws, and connections to ensure they remain tight. Retighten

as necessary to maintain stability and safety.

- **Wood Care:** Protect the wood from direct sunlight and extreme temperature changes to prevent warping or cracking.

TROUBLESHOOTING

Loose Connections / Instability

If the bed feels wobbly or unstable, re-check all assembly hardware. Ensure all bolts and screws are fully tightened. Do not overtighten, as this can strip the wood.

Squeaking Noises

Squeaking can often be resolved by tightening all hardware. If squeaking persists, disassemble the affected section, apply a small amount of paraffin wax or silicone spray to the joints, and reassemble.

Trundle Not Rolling Smoothly

Check the trundle wheels for any obstructions or debris. Ensure the wheels are properly installed and not damaged. Clean the floor area where the trundle operates.

SPECIFICATIONS

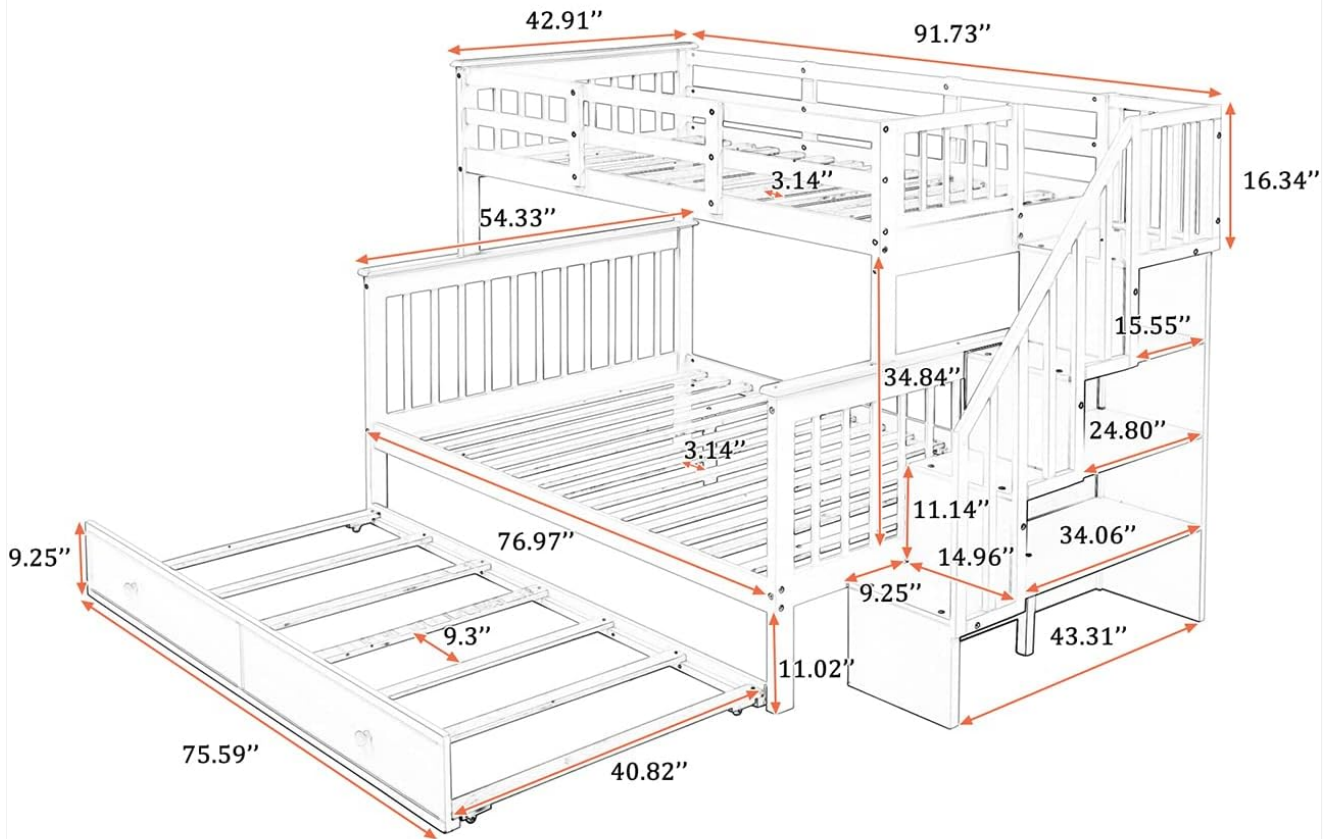

Feature	Detail
Model Number	Bunk Bed
Dimensions (L x W x H)	92"L x 54.5"W x 61.5"H
Material	Solid Pinewood & Composites
