› Perma Blend Perma Pen Makeup Application Tattoo Machine - Tattoo Pen with 2.7mm Stroke Length & Built-In Voice Control - Pink Icon
(1 Count)

Perma Blend 00764-00-RS

Perma Blend Perma Pen Instruction Manual

Model: 00764-00-RS

PRODUCT OVERVIEW

The Perma Blend Perma Pen is a state-of-the-art makeup application tattoo machine designed for precision and ease of use. It is engineered to be maintenance-free and optimized for microblading pigments, allowing artists to focus entirely on their craft.

Key features include:

- **Maintenance-Free Design:** Focus on your artistry without concerns about device upkeep.
- **Effortless Needle Depth Adjustment:** Features a locking "click" grip system for precise and easy adjustments.
- **Advanced Connectivity:** Offers built-in eGive and voice-control capabilities when paired with the AirBolt Mini (sold separately).
- **Versatile Stroke Length:** A 2.7mm stroke length accommodates various cosmetic tattooing styles.
- **Ergonomic Pen-Style Design:** Straightforward and easy to maneuver for artists of all skill levels.
- **Certified Vegan:** Designed for use with 100% certified vegan and cruelty-free pigments.

SAFETY INFORMATION

For experienced or professional tattoo use only. Ensure the area has been thoroughly sterilized before beginning any tattoo procedure.

This product is for external use only.

Ingredients (for associated pigments, not the machine itself): Aqua, Glycerin, Modified Acrylic Polymer, Hamamelis Virginiana, Isopropyl Alcohol, Benzyl Alcohol.

SETUP GUIDE

1. **Unpack the Perma Pen:** Carefully remove the Perma Pen from its packaging. Inspect for any visible damage.
2. **Prepare Your Workspace:** Ensure your workspace is clean, sterile, and well-lit.
3. **Attach Needle Cartridge:** Select the appropriate needle cartridge for your procedure. Insert the needle cartridge into the Perma Pen's grip until it clicks securely into place. *Note: Needles are sold separately.*

4. **Connect Power (Optional):** If using with an AirBolt Mini (sold separately) for eGive and voice-control, connect the AirBolt Mini according to its instructions. The Perma Pen is designed for up to 10 hours of charging with compatible power sources.
5. **Sterilization:** Always ensure all equipment, including the Perma Pen and any accessories, is properly sterilized before each use to maintain hygiene and safety standards.

OPERATING INSTRUCTIONS

1. **Power On:** Activate the Perma Pen according to the instructions of your connected power supply (e.g., AirBolt Mini).
2. **Adjust Needle Depth:** The Perma Pen features a locking "click" grip for needle depth adjustment. Rotate the grip to achieve the desired needle protrusion. Each click provides a precise adjustment, ensuring consistent depth during application.
3. **Begin Application:** With the needle depth set and pigment loaded (if applicable), begin your makeup application procedure. The pen-style design allows for easy maneuvering and precise control.
4. **Voice Control (with AirBolt Mini):** If paired with the AirBolt Mini, utilize voice commands for hands-free

adjustments and control during your work. Refer to the AirBolt Mini manual for specific voice commands.

5. **eGive Function (with AirBolt Mini):** The built-in eGive feature, when used with the AirBolt Mini, provides a softer hit and allows for more flexibility, adapting to different skin types and techniques.

MAINTENANCE AND CARE

The Perma Pen is designed to be largely maintenance-free. However, proper cleaning and storage are essential to ensure its longevity and hygienic operation.

- **Cleaning:** After each use, disconnect the needle cartridge and dispose of it safely. Wipe down the exterior of the Perma Pen with a suitable disinfectant solution. Ensure no liquids enter the internal components.
- **Sterilization:** Follow standard professional sterilization protocols for all reusable components that come into contact with skin or pigments.
- **Storage:** Store the Perma Pen in a clean, dry, and safe place away from direct sunlight and extreme temperatures.
- **Inspection:** Periodically inspect the device for any signs of wear or damage. If any issues are observed, discontinue use and contact customer support.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Pen not turning on/no power.	Disconnected power source; low battery (if using AirBolt Mini); faulty connection.	Ensure power source is securely connected. Charge AirBolt Mini if applicable. Check for damaged cables.
Needle not moving/stuck.	Improperly inserted needle cartridge; damaged needle cartridge; internal obstruction.	Re-insert needle cartridge firmly. Replace with a new needle cartridge. If problem persists, contact support.
Inconsistent needle depth.	Grip not locked securely; worn grip mechanism.	Ensure the "click" grip is fully engaged and locked. If the mechanism feels loose, contact support.
Excessive vibration or noise.	Loose components; internal issue.	Ensure all external parts are secure. If unusual noise or vibration continues, cease use and contact support.
