Sonitum SCH5C

Sonitum SCH5C Kids Wired On-Ear Headphones 5-Pack Instruction Manual

1. INTRODUCTION

This manual provides essential information for the proper use and care of your Sonitum SCH5C Kids Wired On-Ear Headphones 5-Pack. Please read these instructions carefully to ensure optimal performance and longevity of your product. These headphones are designed for educational environments, travel, and general listening for children.

Image 1.1: The Sonitum SCH5C Kids Wired On-Ear Headphones 5-Pack, showcasing the mixed color assortment (pink, green, purple, white, blue) and the product packaging indicating a 1-year warranty.

2. PACKAGE CONTENTS

Verify that all items are present in your package:

- 5 x Sonitum SCH5C Kids Wired On-Ear Headphones (Mixed Colors)

3. SETUP AND CONNECTION

3.1 Connecting to an Audio Device

1. Locate the 3.5mm audio jack on your device (e.g., tablet, computer, smartphone).
2. Insert the 3.5mm plug of the headphone cable firmly into the device's audio jack. Ensure a secure connection for clear audio.

Image 3.1: Detail of the 3.5mm aux plug, which is gold-plated for enhanced signal, and a user demonstrating the on-ear fit of the headphones. The image also highlights the durable integrated wire and over-ear cushion design.

3.2 Adjusting for Fit

The headphones feature an adjustable headband and swivel earcups to ensure a comfortable fit for various head sizes.

1. Gently slide the headband extenders up or down until the earcups comfortably cover the ears.
2. The earcups are designed to swivel, allowing them to conform to the shape of the head for a snug fit.

Image 3.3: An illustration of the Sonitum headphones' adjustable circumference and their ability to fold flat, which facilitates easy storage and travel. The image also indicates the dimensions of the comfy ear cushions.

4. OPERATING INSTRUCTIONS

4.1 Volume Control

These headphones do not feature an inline volume control. Volume adjustments must be made directly on the connected audio device (e.g., tablet, computer, smartphone).

Important: To protect hearing, especially for children, always set the volume to a moderate level before placing the headphones on the ears.

4.2 Sound Isolation

The on-ear cushions provide passive sound isolation, which helps to reduce ambient noise and improve audio clarity. This feature is beneficial in busy environments such as classrooms or libraries, allowing for better focus on audio content.

EASIER REMOTE LEARNING

Image 4.1: A student engaged in remote learning while wearing Sonitum headphones, illustrating how the headphones contribute to better sound clarity, extended wear comfort, and reduced ambient distractions for an improved learning experience.

5. MAINTENANCE AND CARE

5.1 Cleaning

- Wipe the earcups and headband with a soft, dry cloth.
- For stubborn dirt, lightly dampen the cloth with water and a mild soap solution, then wipe dry immediately.
- Do not use harsh chemicals or abrasive cleaners, as these can damage the headphone materials.
- Avoid getting moisture into the headphone drivers or the 3.5mm jack.

5.2 Storage

To prolong the life of your headphones:

- Store headphones in a clean, dry place away from extreme temperatures.

- The headphones are designed to fold flat, making them compact for storage and travel. Utilize this feature to prevent damage.
- Avoid wrapping the cable tightly around the headphones to prevent strain and damage to the wiring. The cable is designed to be tangle-resistant.

Image 5.1: A green Sonitum headphone held in hand, emphasizing its durable construction for daily use. The image also features a pink headphone cable, highlighting its tangle-resistant design, and students in a classroom setting using purple headphones.

6. TROUBLESHOOTING

If you encounter issues with your Sonitum headphones, refer to the following common problems and solutions:

6.1 No Sound or Low Volume

- **Check Connection:** Ensure the 3.5mm plug is fully inserted into the audio device's jack.
- **Volume Level:** Increase the volume on your connected audio device.
- **Test with Another Device:** Try the headphones with a different audio source to determine if the issue is with the

headphones or the original device.

- **Inspect Cable:** Check the headphone cable for any visible damage or kinks.

6.2 Distorted Sound

- **Volume Level:** Reduce the volume on your audio device if it is set too high, as this can cause distortion.
- **Clean Jack:** Ensure the 3.5mm jack on your device is clean and free of debris.
- **Test with Another Device:** Connect the headphones to a different device to isolate the problem.

6.3 Headphones Do Not Fit Comfortably

- **Adjust Headband:** Extend or retract the headband to find the most comfortable position.
- **Position Earcups:** Ensure the earcups are properly positioned over the ears, utilizing their swivel capability for a better fit.

7. PRODUCT SPECIFICATIONS
