

## JOLT JPT95000R

# JOLT Tactical Stun Flashlight (Model: JPT95000R) Instruction Manual

Brand: JOLT | Model: JPT95000R

## 1. INTRODUCTION

Thank you for choosing the JOLT Tactical Stun Flashlight. This device is designed to provide both illumination and personal defense capabilities. Constructed from military-grade aluminum alloy, it offers durability and reliable performance. Please read this manual thoroughly before operating the device to ensure safe and effective use.

### IMPORTANT SAFETY WARNINGS

- This device is intended for self-defense purposes only.
- Keep out of reach of children.
- Do not use on individuals with heart conditions, pacemakers, or pregnant women.
- Avoid prolonged discharge of the stun function, as this may damage the unit.
- Check local laws and regulations regarding the possession and use of stun devices.
- Do not immerse in water.

## 2. PACKAGE CONTENTS

Please ensure all items are present in your package:

- JOLT Tactical Stun Flashlight
- Charging Cord

## 3. PRODUCT FEATURES

- **Powerful Protection:** Functions as a stun gun for self-defense. The crackling sound alone can deter

threats.

- **Shock Proof Exterior:** Made of military-grade aluminum alloy for durability.
- **Blinding Light:** LED flashlight illuminates areas and can temporarily blind an attacker.
- **Rechargeable:** Includes a charging cord for convenient recharging.
- **Heavy-Duty Belt Clip:** For easy and secure carrying.

## Feature Diagram

## 4. SETUP

---

### 4.1 Initial Charging

Before first use, fully charge your JOLT Tactical Stun Flashlight. The charging port is located at the base of the device.

1. Locate the charging port at the bottom of the flashlight.
2. Insert the provided charging cord into the port.

3. Plug the other end of the charging cord into a standard wall outlet.
4. A green indicator light will illuminate when charging. The light will turn off or change color (depending on the model) when fully charged.

*Figure 2: Charging port with indicator light.*

## 4.2 Power Safety Switch

At the base of the flashlight, there is a master ON/OFF safety switch. Ensure this switch is in the 'OFF' position when not in use or during charging to prevent accidental activation.

## 5. OPERATING INSTRUCTIONS

---

### 5.1 Flashlight Operation

To use the flashlight function:

1. Ensure the master safety switch at the base is in the 'ON' position.
2. Locate the function switch on the side of the flashlight body.
3. Slide the function switch upwards one click to activate the flashlight.
4. Continue sliding the switch to cycle through different light modes (e.g., high, low, strobe).

Figure 3: Holding the flashlight.

## 5.2 Stun Function Operation

To use the stun function:

1. Ensure the master safety switch at the base is in the 'ON' position.
2. Slide the function switch on the side of the flashlight body all the way down to the stun position.
3. Press the small, round activation button (often located near the function switch) to discharge the stun function. You will hear a crackling sound and see an arc of electricity between the stun probes.
4. Release the button to stop the discharge.

**Always exercise extreme caution when using the stun function. Only activate when necessary for self-defense.**

*Video 1: This video provides an unboxing experience and demonstrates the basic features and operation of the JOLT Tactical Stun Flashlight, including the charging process and activation of both flashlight and stun functions.*

## 6. MAINTENANCE

---

### 6.1 Cleaning

To maintain your stun flashlight:

- Wipe the exterior with a soft, dry cloth.
- Do not use abrasive cleaners or solvents.
- Ensure the device is powered off and unplugged before cleaning.

## 6.2 Storage

Store the device in a cool, dry place, away from direct sunlight and extreme temperatures. Keep it out of reach of children.

## 7. TROUBLESHOOTING

---

- **Device not turning on:**  
Ensure the master safety switch at the base is in the 'ON' position. Check if the battery is charged.
- **Stun function not activating:**  
Verify the master safety switch is 'ON' and the function switch is slid all the way down to the stun position. Ensure the activation button is pressed firmly.
- **Not charging:**  
Check if the charging cord is securely connected to both the device and the wall outlet. Ensure the wall outlet is functional.
