Polarlander QXS-001

Polarlander QXS-001 Bluetooth 5.3 Wireless Remote Controller User Manual

Model: QXS-001 | Brand: Polarlander

INTRODUCTION

The Polarlander QXS-001 is a versatile Bluetooth 5.3 wireless remote controller designed to enhance your multimedia experience and phone call management while driving or riding. It is compatible with various vehicles such as bicycles, electric vehicles, motorcycles, and automobiles that lack built-in multi-function music control. This device allows you to remotely control music playback, adjust volume, answer/hang up calls, and activate voice assistants on your smartphone, promoting safer operation by keeping your hands on the wheel or handlebars.

Note: This remote control does not include a speaker or microphone. For audio playback and calls, your mobile phone must be simultaneously connected to a Bluetooth headset, stereo, or car Bluetooth system.

IMPORTANT SAFETY INFORMATION

- Always prioritize safe driving/riding. Do not operate the device in a manner that distracts you from the road or your surroundings.
- Ensure the remote is securely mounted and does not obstruct your view of the dashboard or road.
- Keep the device away from extreme temperatures and direct sunlight for prolonged periods.
- Do not attempt to disassemble or modify the device, as this may void the warranty and pose safety risks.
- Dispose of the battery responsibly according to local regulations.

PACKAGE CONTENTS

Verify that all items are present in your package:

- Polarlander QXS-001 Wireless Bluetooth Remote Controller
- Mounting Strap/Bracket (for steering wheel/handlebar attachment)
- USB Charging Cable

- User Manual

PRODUCT OVERVIEW

The Polarlander QXS-001 features a compact, circular design with clearly labeled buttons for intuitive control. It is equipped with Bluetooth 5.3 technology for stable and low-power connectivity.

Key Features:

- **Bluetooth 5.3:** Ensures lower power consumption and faster response times.
- **IPX6 Waterproof:** Designed to withstand splashes and rain, suitable for various outdoor environments.
- **7 Function Buttons:** Includes controls for volume up/down, previous/next song, play/pause, answer/hang up calls, and activating intelligent voice assistants.
- **Long Standby:** Built-in 500mA battery provides 1-3 months of use on a single charge. Automatically shuts down after 8 minutes of disconnection to conserve power.
- **Wide Compatibility:** Compatible with both iPhone and Android smartphones.

3. Bluetooth Pairing

1. Activate the remote control by pressing the center button until the blue light flashes.
2. On your smartphone, navigate to the Bluetooth settings and ensure Bluetooth is enabled.
3. Scan for available devices. The remote controller will appear as "QXS-001" or "SmartRemote".
4. Select "QXS-001" or "SmartRemote" to pair. Once connected, the blue light on the remote will stop flashing or indicate a stable connection.

MAINTENANCE

- Clean the remote controller with a soft, damp cloth. Do not use harsh chemicals or abrasive cleaners.
- Although IPX6 waterproof, avoid prolonged submersion in water. Ensure the charging port cover is securely closed when not charging.
- Store the device in a cool, dry place when not in use.

TROUBLESHOOTING

Remote not connecting or functions incorrectly:

- **Check Battery:** Ensure the remote controller is charged.
- **Re-pair Bluetooth:** Disconnect and re-pair the device in your smartphone's Bluetooth settings.
- **Android Mode Switch:** For some Android phones, if functions are incorrect, disconnect Bluetooth and quickly press the center button 5 times in a row. If the blue light flashes 3 or 2 times quickly, the mode switch is successful. Reconnect your phone and try again.
- **Distance:** Ensure your phone is within close proximity to the remote controller for optimal performance.
