EIGIIS K22

EIGIIS Military Smart Watch User Manual

Model: K22 | Brand: EIGIIS

INTRODUCTION

The EIGIIS Military Smart Watch is a rugged and versatile tactical smartwatch designed for outdoor enthusiasts and daily use. It features a 1.32-inch HD full touch screen, Bluetooth call functionality, comprehensive health monitoring, and multiple sports modes. This manual provides detailed instructions for setting up, operating, and maintaining your smartwatch.

SETUP GUIDE

Follow these steps to set up your EIGIIS Military Smart Watch for the first time.

1. Initial Charging

Before first use, fully charge your smartwatch. Connect the provided magnetic charging cable to the charging points on the back of the watch and plug the USB end into a compatible power source (e.g., computer USB port, USB wall adapter).

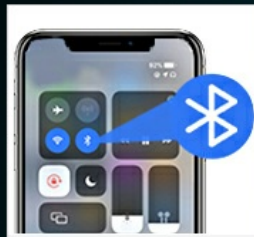

Image: A close-up of the magnetic charging cable, showing its design for connecting to the smartwatch's charging pins.

2. App Installation (Dafit App)

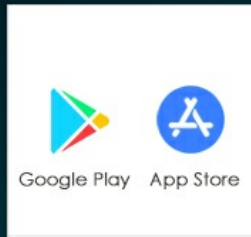

The EIGIIS Military Smart Watch requires the "Dafit" app for full functionality. You can download it from your phone's app store or by scanning the QR code displayed on the watch screen.

1. Turn on your phone's Bluetooth.
2. Open Google Play Store or App Store.
3. Search for and download "Dafit" app.
4. Enter the app and add a device, choosing "HM09" to pair it.

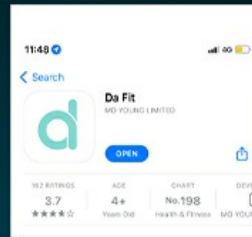

Step 1: First Connection Between Smartwatch & Your Phone

1 TURN ON YOUR PHONE'S BLUETOOTH

2 Open Google Play or App Store

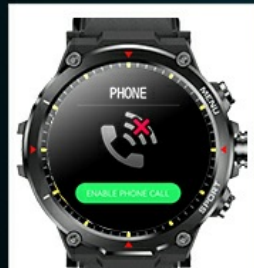

3 Search & Download FitCloudPro App

4 Enter App- Add Device- Choose HM09- Pair It

Step 2: Enable the Bluetooth Dial Answer Calls Function

1 Turn on the Call Bluetooth of Watch

2 Switch to the Bluetooth List of Phone

3 Find the "HM09"- Connect It

4 You Could Dial & Answer Calls Directly on Watch

Image: A visual guide illustrating the steps to connect the smartwatch to a smartphone using the Dafit application, including turning on Bluetooth, downloading the app, and pairing the device.

3. Enabling Bluetooth Dial/Answer Calls Function

To use the call functionality directly from your watch:

1. Turn on the Call Bluetooth feature on your watch.
2. On your phone, go to Bluetooth settings.
3. Find "HM09" (or "Audio_HM09") in the list of available devices and connect to it.
4. You can now dial and answer calls directly from your smartwatch.

Your browser does not support the video tag.

Additional Functions

The EIGIIS Smart Watch offers a variety of other useful features:

- **Music Control:** Manage your phone's music playback directly from the watch.
- **Weather Forecast:** Get real-time weather updates.
- **Stopwatch & Timer:** For precise timekeeping during activities.
- **Pedometer:** Track your daily steps.
- **Remote Camera Control:** Use your watch as a remote shutter for your phone's camera.
- **Alarm Clock & Sedentary Reminder.**
- **Casual Games:** Enjoy simple games directly on your watch.
- **Customizable Watch Faces:** Personalize your watch with over 200 styles.

MAINTENANCE

To ensure the longevity and optimal performance of your EIGIIS Military Smart Watch, please follow these maintenance guidelines:

- **Cleaning:** Regularly wipe the watch screen and band with a soft, dry cloth. For stubborn dirt, a slightly damp cloth can be used, followed by drying.
- **Water Resistance:** The watch is designed for rugged outdoor conditions but is **NOT suitable for swimming, diving, or showering**. Avoid prolonged exposure to water.
- **Charging:** Use only the provided charging cable. Ensure the charging contacts on the watch and cable are clean and dry before charging to prevent corrosion.
- **Temperature Exposure:** Avoid exposing the watch to extreme temperatures (e.g., direct sunlight in a car, very cold environments) as this can affect battery life and internal components.
- **Screen Protection:** Consider applying a screen protector to prevent scratches, as noted by some users.

TROUBLESHOOTING

If you encounter issues with your EIGIIS Military Smart Watch, refer to the following common solutions:

Problem	Possible Solution
Watch not turning on or charging	Ensure the charging cable is securely connected to both the watch and the power source. Check if the charging contacts on the watch and cable are clean and free of debris. Try a different USB port or power adapter. Allow the watch to charge for at least 30 minutes before attempting to turn it on.
Bluetooth connection issues	Ensure Bluetooth is enabled on both your phone and the watch. Restart both your phone and the watch. Forget the device in your phone's Bluetooth settings and re-pair it through the Dafit app. Ensure the Dafit app has necessary permissions (e.g., location, Bluetooth).
Notifications not appearing	Check notification settings within the Dafit app to ensure desired apps are enabled. Verify that your phone's notification settings allow the Dafit app to display alerts. Ensure the watch is properly connected via Bluetooth. Disable any power-saving modes on your phone that might restrict background app activity.
Inaccurate health data	Ensure the watch is worn snugly on your wrist, not too loose or too tight. Clean the sensor on the back of the watch regularly. Remember that the data is for reference only and not for medical diagnosis.

SPECIFICATIONS

Feature	Detail
Model Number	K22
Screen Size	1.32 Inches (360x360 HD full touch screen)
Product Dimensions	6.74 x 3.78 x 0.94 inches
