Weiser SmartCode Keypad Door Lock User Manual

Model: 9GLA92600-003

INTRODUCTION

This manual provides comprehensive instructions for the installation, operation, and maintenance of your Weiser SmartCode Keypad Door Lock with San Clemente Handleset & Halifax Interior Door Handle. This electronic deadbolt system offers enhanced security and convenience for your home's exterior doors.

The SmartCode lock features a keypad for keyless entry, a motorized locking mechanism, and SmartKey re-key technology. Please read this manual thoroughly before installation and use to ensure proper function and longevity of your product.

PACKAGE CONTENTS

Before beginning installation, verify that all components are present in the package:

- Exterior Handle
- Interior Lever
- SmartCode Electronic Deadbolt
- Latches
- Strikes
- Screws
- Bolts
- 2 Keys
- SmartKey Tool
- User Manual (this document)

SETUP AND INSTALLATION

The Weiser SmartCode lock is designed for straightforward installation. It is compatible with standard doors ranging from 1-3/8 inches to 1-3/4 inches thick, featuring an adjustable backset (2-3/8 inches or 2-3/4 inches).

For detailed, step-by-step interactive 3D instructions, it is highly recommended to use the free BILT app. This app provides voice and video guidance to facilitate a stress-free installation process.

OPERATING INSTRUCTIONS

Keyless Entry

To gain entry, simply enter your personalized code on the keypad. The motorized deadbolt will quickly and quietly unlock. This feature makes coming and going secure and convenient.

KEYLESS ENTRY

Makes coming and going
secure and convenient.

Locking the Door

Locking the door is as easy as touching a button. The motorized deadbolt provides single-touch locking, eliminating the need for additional turning or twisting.

Auto-Lock Feature

For added peace of mind, the auto-lock feature can be enabled. When activated, the lock will automatically engage after a set period, ensuring your door is always secured.

Managing User Access Codes

The SmartCode lock supports up to 50 user access codes, along with a master code option for enhanced control. Refer to the BILT app or the included quick start guide for instructions on programming and managing these codes.

MAINTENANCE

SmartKey Re-key Technology

The SmartKey re-key technology allows you to re-key your lock in seconds. This is useful for situations such as moving to a new home, losing keys, or consolidating multiple locks to a single key. This feature helps you maintain control over who has access to your property and protects against unauthorized key duplication.

Battery Replacement

The SmartCode lock operates on 4 AA batteries (not included). When the batteries are low, the lock will provide an indicator. Replace all four batteries simultaneously with new, high-quality alkaline batteries to ensure optimal performance.

TROUBLESHOOTING

If you encounter issues with your Weiser SmartCode lock, consider the following common solutions:

- **Lock Not Responding:** Check battery levels and replace if necessary. Ensure batteries are inserted with correct polarity.
- **Keypad Not Working:** Verify that the lock is receiving power. If batteries are new, try a factory reset (refer to the BILT app or quick start guide for specific steps).
- **Difficulty Locking/Unlocking:** Ensure the door frame and strike plate are properly aligned. Obstructions in the door jamb can prevent the deadbolt from extending fully.

- **Code Not Accepted:** Double-check the entered code. Ensure the master code is correctly set. If issues persist, try deleting and re-programming the user code.

For more complex issues or persistent problems, refer to the comprehensive troubleshooting section within the BILT app or contact Weiser customer support.

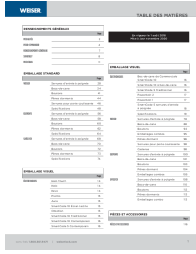

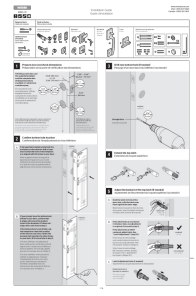

SPECIFICATIONS

Feature	Detail
Model Number	9GLA92600-003
Brand	Weiser
Colour	Satin Nickel
