## Prolux X8 Pro

# Prolux X8 Pro Backpack Canister Vacuum Instruction Manual

Model: X8 Pro

## Product Overview

---

The Prolux X8 Pro Backpack Canister Vacuum is designed for efficient and thorough cleaning in both commercial and home environments. This lightweight unit features a powerful motor, advanced 4-stage HEPA filtration, and a comprehensive set of tools to address various cleaning needs.

Key features include:

- **Lightweight Design:** Weighing approximately 10 lbs, it offers comfort and mobility during use.
- **Advanced 4-Stage HEPA Filtration:** Captures dust and allergens for improved air quality.
- **Extended Reach:** A 50-foot commercial-grade power cord and telescopic wand provide a wide cleaning radius.
- **High Suction Power:** Delivers 140 CFM suction for effective dirt and debris removal.
- **Versatile Tool Kit:** Includes a crevice tool, duster, upholstery attachment, and mini turbo head.

# TOOLS FOR EVERY JOB

Figure 2: Overview of the Prolux X8 Pro Backpack Vacuum and its labeled components, including the 50ft power cord, telescoping wand, tool kit, and HEPA bags.

## 2. FILTER AND BAG INSTALLATION

The Prolux X8 Pro utilizes a 4-stage HEPA filtration system. Ensure all filters and bags are correctly installed before operation.

1. Open the vacuum unit's filter compartment.
2. Install the HEPA filter, cloth bag, HEPA bags, and carbon post filter in their designated positions. Refer to the internal diagrams for precise placement.
3. Close the filter compartment securely.

# 4 stage HEPA filtration

- 1 HEPA filter
- 2 Cloth bag
- 3 HEPA bags
- 4 Carbon post filter

Figure 3: Components of the 4-stage HEPA filtration system: HEPA filter, cloth bag, HEPA bags, and carbon post filter.

### 3. HOSE AND WAND ASSEMBLY

1. Connect the flexible hose to the vacuum unit's intake port. Ensure a snug fit.
2. Attach the adjustable wand to the other end of the flexible hose.
3. Select the desired cleaning tool (e.g., dual-purpose floor tool, crevice tool) and attach it to the end of the wand.

### 4. WEARING THE BACKPACK UNIT

Adjust the padded shoulder straps and hip belt for a comfortable and secure fit. The unit is designed to distribute weight evenly for ease of use.

## Operating Instructions

### 1. POWER CONNECTION

Plug the 50-foot commercial-grade power cord into a suitable electrical outlet. Ensure the cord is untangled and positioned to avoid tripping hazards.

### 2. STARTING THE VACUUM

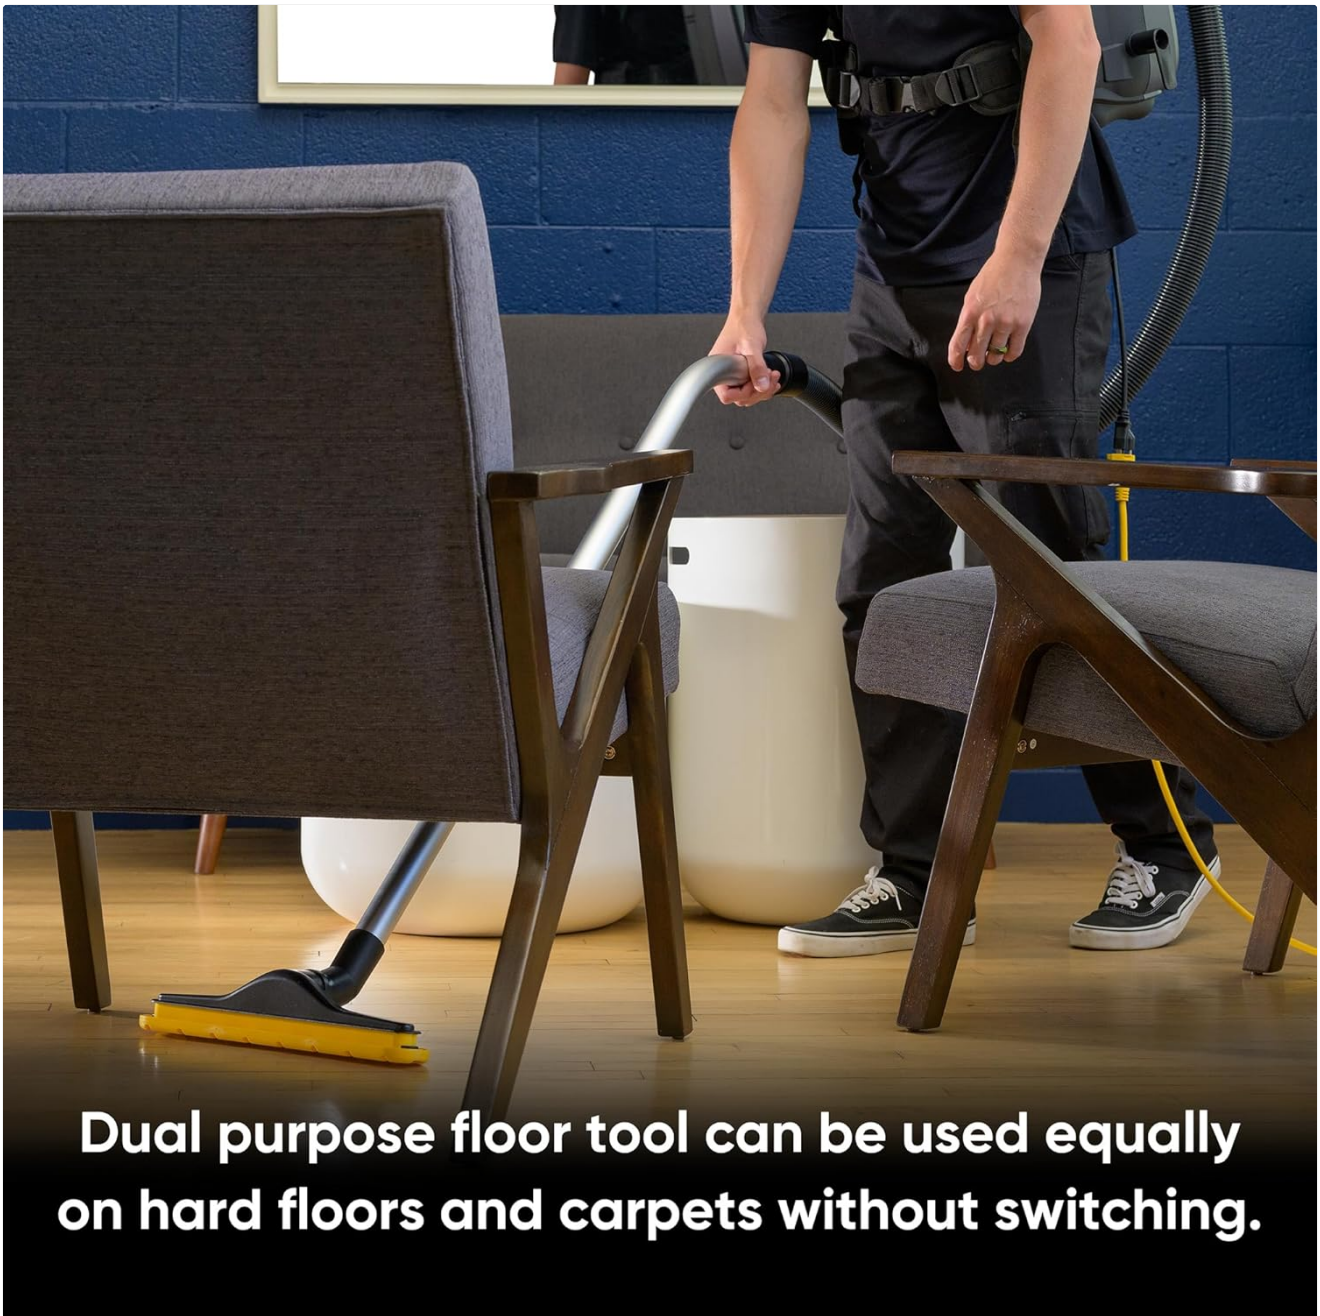

Locate the power switch on the vacuum unit and turn it to the "ON" position. The vacuum will start operating.

### 3. USING CLEANING TOOLS

The ProLux X8 Pro comes with a variety of tools for different cleaning tasks:

- **Dual-Purpose Floor Tool:** Suitable for both hard floors and carpets without needing to switch tools.

- **Crevice Tool:** Ideal for narrow spaces, corners, and edges.
- **Duster Tool:** For delicate surfaces, shelves, and vents.
- **Upholstery Attachment:** Designed for cleaning furniture and fabric surfaces.
- **Mini Turbo Head:** Effective for removing pet hair from upholstery and stairs.

**Dual purpose floor tool can be used equally on hard floors and carpets without switching.**

*Figure 6: The dual-purpose floor tool in action, effectively cleaning a hard floor surface.*

Figure 7: Demonstrates the versatility of the vacuum for cleaning multiple surfaces such as wood, tile, carpet, ceilings, and upholstery.

#### 4. ADJUSTING THE WAND

The telescopic wand can be adjusted to your preferred length for comfortable cleaning of floors, ceilings, and other elevated areas.

#### 5. FINISHING OPERATION

Once cleaning is complete, turn the power switch to the "OFF" position and unplug the power cord from the outlet. Wrap the power cord around the designated cord wraps on the vacuum unit for storage.

Figure 8: Side view of the Prolux X8 Pro Backpack Vacuum, illustrating the integrated cord wrap for convenient storage of the power cord.

## Maintenance

---

Regular maintenance ensures optimal performance and extends the lifespan of your Prolux X8 Pro vacuum.

### 1. EMPTYING AND REPLACING HEPA BAGS

The vacuum uses disposable HEPA bags. Monitor the bag fill indicator (if present) or check the bag periodically. Replace the bag when it is full to maintain suction power and filtration efficiency.

1. Turn off and unplug the vacuum.

2. Open the filter compartment.
3. Carefully remove the full HEPA bag and dispose of it according to local regulations.
4. Install a new Prolux HEPA bag, ensuring it is properly seated.
5. Close the filter compartment securely.

## 2. CLEANING AND REPLACING FILTERS

The 4-stage filtration system includes a HEPA filter, cloth bag, and carbon post filter, in addition to the disposable HEPA bags. These components require periodic cleaning or replacement.

- **HEPA Filter:** Inspect regularly. Tap out loose dust or replace if heavily soiled or damaged.
- **Cloth Bag:** This reusable bag should be emptied and shaken clean as needed. Wash if necessary and ensure it is completely dry before reinstallation.
- **Carbon Post Filter:** Replace periodically, typically every 6-12 months, depending on usage, to maintain odor filtration.

Refer to Figure 3 for a visual guide to the filtration components.

## 3. CLEANING THE EXTERIOR

Wipe the exterior of the vacuum unit and accessories with a damp cloth. Do not use harsh chemicals or abrasive cleaners.

# Troubleshooting

---

This section addresses common issues you might encounter with your Prolux X8 Pro vacuum.

## 1. No POWER

- **Check Power Cord:** Ensure the power cord is securely plugged into a working electrical outlet.
- **Check Circuit Breaker:** Verify that the circuit breaker has not tripped.
- **Inspect Cord for Damage:** Examine the power cord for any visible damage. If damaged, discontinue use and contact support.

## 2. LOSS OF SUCTION

- **Check Dust Bag:** The HEPA bag may be full. Replace it with a new one.
- **Inspect Filters:** The HEPA filter, cloth bag, or carbon post filter may be clogged. Clean or replace as necessary (refer to Maintenance section).
- **Clear Blockages:** Check the hose, wand, and cleaning tools for any obstructions. Carefully remove any blockages.
- **Ensure Connections are Secure:** Verify that the hose and wand connections are tight and properly sealed.

## 3. UNUSUAL NOISE

- **Check for Obstructions:** A foreign object might be caught in the hose or motor area. Turn off and unplug the vacuum before inspecting.
- **Inspect Filters:** Improperly seated or damaged filters can cause unusual noises.

If these troubleshooting steps do not resolve the issue, please contact Prolux customer support.

# Specifications

Feature	Specification
Brand	Prolux
Model Name	X8 Pro
Form Factor	Backpack
Item Weight	10 pounds
Product Dimensions	12"L x 9"W x 20"H
