4. DISC CARE AND HANDLING

Proper care ensures the longevity and optimal performance of your Blu-ray discs.

- **Handling:** Always hold discs by their edges or by placing a finger through the center hole. Avoid touching the playback surface.
- **Cleaning:** If a disc becomes dirty, gently wipe it with a soft, lint-free cloth (e.g., microfiber) from the center outwards. Do not use abrasive materials or harsh chemical cleaners. Distilled water or specialized disc cleaning solutions can be used sparingly if necessary.
- **Storage:** Store discs in their original cases, away from direct sunlight, extreme temperatures, and high humidity. Keep them in a vertical position to prevent warping.
- **Protection:** Avoid bending discs or placing heavy objects on them.
