2. SETUP

To begin using your SecuLife GPS Tracker, follow these steps for activation and app setup.

Activation and Subscription

A monthly subscription is required to activate the SecuLife SAFETY App features and services. This includes a pre-installed 4G LTE SIM card, unlimited live tracking, alerts, hands-free assistive speakerphone, and more. Activation is easy upon arrival, with no complex installation needed.

Mobile App Download

Download the easy-to-use SecuLife SAFETY App for access to all essential features, including real-time tracking, historical GPS locations, and unlimited geofencing areas. The app is available on Google Play for Android devices

and the App Store for iOS devices, as well as a web app for PC & MAC.

The advertisement features a woman with short, curly grey hair, wearing a grey long-sleeved shirt with black polka dots and dark blue jeans, sitting on a grassy lawn. She is holding a colorful, multi-colored walking stick. In the top right corner, the SecuLife logo is displayed, consisting of a blue shield icon and the brand name. In the bottom right corner, there is a smartphone showing a map application with a blue dot indicating the 'Sr GPS Tracker Now' location. Next to the phone is a black rectangular device with a large orange 'SOS' button and a speaker grille. The background is a lush green lawn with trees in the distance.

3. FEATURES AND OPERATION

SOS Button and Two-Way Calling

The large SOS button on the device allows for instant voice contact with caregivers. With just a push, it automatically calls pre-set emergency contacts. The built-in speaker and microphone enable clear two-way communication, serving as an excellent alternative to a cell phone, especially in urgent situations.

Fall Detection

The device includes advanced fall detection capabilities. In the event of a fall, the system automatically activates, sending immediate alerts to emergency contacts via text, email, and in-app notifications. This ensures help is dispatched quickly, especially crucial for falls that occur within the home where immediate assistance might not be readily available.

Stay Connected with Real-Time Tracking

An elderly woman with white hair, wearing a light blue button-down shirt and white pants, stands on the left side of the image, smiling and pointing her right index finger towards a smartphone. The smartphone is held by a hand on the right side of the image. The phone's screen displays a blue shield icon with a white outline, and below it, the text "SecuLife" in a teal font. The background is a light gray gradient with a large, semi-transparent orange circle behind the smartphone. At the bottom of the image, there are three black rectangular buttons with white text and icons. The first button on the left features the Google Play logo and the text "GET IT ON Google Play". The middle button features the Apple logo and the text "Download on the App Store". The third button on the right features a laptop icon and the text "Web App for PC & MAC".

Geofencing and Custom Notifications

Set up custom geofence zones within the app to define safe areas. You will receive real-time alerts when your loved one enters or exits these specific locations. Notifications can be delivered to your mobile app, email, and SMS/text, providing immediate updates on their whereabouts.

7. TROUBLESHOOTING

If you encounter any issues with your SecuLife GPS Tracker, please refer to the following common troubleshooting tips:

- **Device Not Tracking:** Ensure the device is charged and within an area with cellular coverage. Verify your subscription is active.
- **SOS Button Not Calling:** Check that emergency contacts are correctly programmed in the app. Ensure the device has sufficient battery and cellular signal.
- **Fall Detection Issues:** Confirm the device is worn correctly and securely. Environmental factors or specific movements might affect detection accuracy.
- **App Connectivity Problems:** Ensure your smartphone has a stable internet connection. Try restarting the app or your phone.
- **Subscription Inquiries:** For questions regarding your monthly subscription or activation, please contact SecuLife customer support directly.
