4. SETUP AND CHARGING

4.1 Initial Charge

Before first use, fully charge the Kitchen Wand base. Place the wand base onto the charging dock and connect the power cord to an electrical outlet. The battery state-of-charge indicator lights on the wand base will illuminate to show charging progress. A full charge provides up to 30 minutes of continuous runtime.

4.2 Attaching Accessories

To attach any accessory, align the accessory with the wand base and twist until it locks securely into place. Ensure the attachment is firmly connected before operation.

5. OPERATING INSTRUCTIONS

5.1 General Operation

The wand base features an adjustable speed dial for precise control over power. Rotate the dial to select your desired speed setting. Press and hold the power button to operate the appliance. Release the button to stop.

5.2 Immersion Blender Attachment

Attach the immersion blender to the wand base. Insert the blender into liquids or soft foods in a pot or container. Use a gentle up-and-down motion to blend ingredients until desired consistency is achieved. The immersion blender guard (Figure 4) should be used to protect the blades and prevent splashing.

6. MAINTENANCE AND CLEANING

Proper maintenance ensures the longevity and performance of your Kitchen Wand.

- **Wand Base:** Wipe the wand base with a damp cloth. Do not immerse in water.
- **Attachments:** Most attachments (immersion blender shaft, whisk, milk frother, measuring cup, storage cases)

are dishwasher safe or can be washed by hand with warm, soapy water. Refer to individual attachment instructions for specific cleaning guidelines.

- **Can Opener, Wine Opener, Spice Grinder:** These attachments may have specific cleaning requirements. Generally, wipe clean with a damp cloth. Avoid immersing electrical components.
- **Storage:** Use the provided storage cases with tray inserts (Figure 10) to keep all components organized and protected when not in use.

7. TROUBLESHOOTING

If you encounter issues with your BLACK+DECKER Kitchen Wand, refer to the following common solutions:

- **Appliance does not turn on:** Ensure the wand base is fully charged. Check that the attachment is securely connected to the wand base.
- **Attachments not working effectively:** Verify that the attachment is correctly assembled and locked into place. Ensure the speed dial is set to an appropriate level for the task.

- **Battery not charging:** Confirm the charging dock is properly connected to a working electrical outlet and the wand base is correctly seated on the dock.
- **Excessive vibration or noise:** Discontinue use immediately. Check for any obstructions in the attachment or damage to components.

For issues not resolved by these steps, please contact customer support.
