VOPLLS N3

VOPLLS Mini Projector User Manual

Brand: VOPLLS | Model: N3

1. INTRODUCTION AND OVERVIEW

The VOPLLS Mini Projector (Model N3) is a compact and portable device designed to deliver a full HD 1080P viewing experience. Utilizing advanced LED and uniform illumination technology, it ensures bright and clear projections with vibrant colors. Its small form factor makes it ideal for both indoor and outdoor use, offering a versatile home theater solution.

Key features include:

- **1080P Full HD Support:** Experience clear, dynamic, and color-vibrant images.
- **Mini & Portable Design:** Weighing only 1.4lb and measuring 6.69x4.9x2.64 inches, it's easy to carry for travel or camping.
- **Hi-Fi Stereo Sound & Noise Reduction:** Built-in speakers provide clear audio, complemented by 80% reduced fan noise for an immersive experience.
- **Large Projection Size:** Enjoy screen sizes from 35" to 210" with projection distances between 3.7ft to 23.6ft.
- **Multiple Device Connectivity:** Easily connect to laptops, smartphones, tablets, USB drives, and gaming consoles (X-Box, PS4/5).

3. SETUP

Follow these steps to set up your VOPLLS Mini Projector:

1. **Power Connection:** Connect the power cord to the projector and plug it into a power outlet. The power indicator light will illuminate.
2. **Placement:** Place the projector on a stable, flat surface. The included mini tripod can be attached to the bottom of the projector for adjustable positioning. For ceiling installation, ensure proper mounting hardware (not included) is used.
3. **Connect Your Device:**
 - **HDMI:** Use the provided HDMI cable to connect your laptop, gaming console (PS4/5, X-Box), or TV stick to the projector's HDMI port.
 - **USB:** Insert a USB drive into the USB port to play media files directly.
 - **AV:** Use the provided AV cable to connect older devices.
 - **Smartphone/Tablet:** For connecting smartphones or tablets, an additional HDMI adapter (not included) is required.

Figure 2: The projector supports multiple device connections including HDMI, USB, and AV.

4. **Focus Adjustment:** Turn the **FOCUS** knob on the side of the projector until the projected image is clear and sharp.

5. **Keystone Correction:** Use the **KEYSTONE** dial (usually on the back or top) to adjust the image if it appears trapezoidal, ensuring a rectangular projection. The projector supports approximately $\pm 15^\circ$ keystone correction.

4. OPERATING INSTRUCTIONS

Once set up, operate your VOPLLS Mini Projector using the following guidelines:

- **Power On/Off:** Press the power button on the projector or the remote control to turn the unit on or off.
- **Source Selection:** Use the input source button on the remote or the projector's control panel to select the desired input (HDMI, AV, USB).
- **Navigation:** Use the arrow keys and OK button on the remote or projector to navigate menus and make selections.
- **Zoom Function:** The projector supports a 50% zoom function, allowing you to adjust the screen size without moving the projector. Refer to the on-screen menu for this setting.
- **Audio Output:** The built-in Hi-Fi stereo speakers provide clear sound. For enhanced audio, connect external

headsets or speakers to the audio output port.

Note on Streaming Services: Due to copyright restrictions, streaming applications like Netflix, Prime Video, and Hulu cannot be directly mirrored from a phone. These services can only be played via a TV Stick, Roku, or similar streaming devices connected to the projector's HDMI port.

5. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your projector:

- **Lens Cleaning:** Use the provided special dusting tool or a soft, lint-free cloth to gently clean the projector lens. Avoid abrasive materials or harsh chemicals.
- **Ventilation:** Ensure the projector's ventilation ports are clear of obstructions to prevent overheating. The projector features an effective cooling system with low noise.
- **Storage:** When not in use, store the projector in a cool, dry place, away from direct sunlight and excessive dust.

6. TROUBLESHOOTING

If you encounter issues with your VOPLLS Mini Projector, refer to the following common solutions:

- **No Signal:**
 - Ensure the input source selected on the projector matches the device connected (e.g., HDMI if using an HDMI cable).
 - Check all cable connections to ensure they are secure.
 - Verify the connected device (laptop, TV stick) is powered on and outputting a signal.
- **Blurry Image:**
 - Adjust the **FOCUS** knob until the image is sharp.
 - Use the **KEYSTONE** dial to correct any trapezoidal distortion.
 - Ensure the projection distance is within the recommended range (3.7ft to 23.6ft).
- **No Sound:**
 - Check the volume level on both the projector and the connected device.
 - If using external speakers or headphones, ensure they are properly connected to the audio output port.
- **Overheating/Fan Noise:**
 - Ensure the projector's ventilation ports are not blocked.
 - Operate the projector in a well-ventilated area.

7. SPECIFICATIONS

Feature	Detail
Brand Name	VOPLLS
Item Model Number	N3
