Riworal RG03/RG04

Riworal Gaming Microphone Kit USB - RG03/RG04 Instruction Manual

Model Numbers: RG03, RG04

Introduction

This manual provides detailed instructions for the setup, operation, and maintenance of your Riworal Gaming Microphone Kit USB. Designed for high-quality audio capture, this microphone is ideal for gaming, streaming, podcasting, and various recording applications on PC, Mac, smartphones, and gaming consoles like PS4/PS5.

What's in the Box

- 1 Condenser Microphone with Shock Absorber
- 1 Metal Microphone Boom Arm
- 1 Metal Pop Filter
- 1 Desktop Mount Clip
- 1 1.5m USB Cable
- 1 Type-C Adapter
- 4 Cable Ties
- 1 Instruction Manual

Image: All components included in the Riworal Gaming Microphone Kit, neatly arranged.

Product Overview and Features

- **Plug and Play:** No complicated settings or additional drivers required. Compatible with PC, Mac, PS4/5, and smartphones via USB.
- **Gain Control Knob:** Easily adjust the input volume of the microphone for optimal sound.
- **One-Button Mute:** Conveniently mute or unmute with a single tap. An LED indicator shows the mute status.
- **RGB Lighting:** Features a two-color automatic gradient RGB effect. Long press the mute button for 3 seconds to turn off the RGB lighting.
- **Real-Time Monitoring:** A 3.5mm headphone jack allows for direct, real-time audio monitoring.
- **High-Fidelity Sound:** 192kHz/24-Bit high sampling rate ensures clear and professional audio quality.

- **Cardioid Pickup Pattern:** Captures clear sound directly from the source, reducing unwanted background noise.
- **Sturdy Boom Arm:** Flexible and adjustable metal boom arm with 270° metal adapter, 180° arm shaft, and 360° sturdy base for precise positioning.
- **Desktop Mount Clip:** C-shaped clamp with an anti-scratch pad protects your desk surface.
- **Cable Management:** Includes cable ties to keep your USB cable neat and organized.

Setup Instructions

1. **Assemble the Boom Arm:** Attach the desktop mount clip to the edge of your desk. Insert the boom arm into the clip and tighten securely.
2. **Mount the Microphone:** Screw the condenser microphone onto the boom arm's connector. Ensure it is firmly attached.
3. **Attach Pop Filter:** Position the metal pop filter in front of the microphone and secure it to the boom arm.
4. **Connect USB Cable:** Plug the USB-C end of the provided cable into the microphone. Connect the USB-A end to an available USB port on your computer, PS4/PS5, or smartphone (using the Type-C adapter if necessary).
5. **System Configuration:** Your device should automatically recognize the microphone. If not, navigate to your system's sound settings and select the Riworal microphone as your default input device.

Operating Instructions

1. **Power On/Off:** The microphone powers on automatically when connected via USB. Disconnect the USB cable to power off.
2. **Mute Function:** Tap the button on the top of the microphone to toggle mute on or off. The LED indicator will change color to show the mute status.
3. **Adjust Gain:** Rotate the gain control knob located on the bottom of the microphone to increase or decrease the input sensitivity.
4. **RGB Lighting Control:** Long press the mute button on top for 3 seconds to turn the RGB lighting effect on or off.
5. **Real-Time Monitoring:** Plug your headphones into the 3.5mm jack on the microphone to monitor your audio input in real-time.

Maintenance

- **Cleaning:** Use a soft, dry cloth to clean the microphone and boom arm. Avoid liquid cleaners or abrasive materials.
- **Storage:** Store the microphone in a cool, dry place away from direct sunlight and extreme temperatures.
- **Handling:** Handle the microphone and boom arm gently. Avoid dropping or subjecting them to strong impacts.
- **Cable Care:** Ensure the USB cable is not kinked, pinched, or excessively bent to prevent damage. Use the provided cable ties for neat organization.

Troubleshooting

- **No Sound / Microphone Not Recognized:**
  - Ensure the USB cable is securely connected to both the microphone and your device.
  - Verify that the microphone is selected as the default input device in your operating system's sound settings.

- Check the gain control knob on the microphone to ensure it is not set to minimum.
- Confirm that the mute function is not active (check LED indicator).

- **Poor Sound Quality / Distortion:**
  - Adjust the gain control knob to an appropriate level. Too high can cause distortion, too low can result in weak audio.
  - Ensure the pop filter is correctly positioned between your mouth and the microphone to reduce plosive sounds.
  - Minimize environmental background noise.
  - Ensure you are speaking directly into the front of the microphone, utilizing its cardioid pickup pattern.

Specifications

Feature	Detail
Brand	Riworal
Model Name	usb microphone
