

DIFEINI 88056B

DIFEINI Bathtub and Shower Faucet Set Model 88056B Instruction Manual

Model: 88056B | Brand: DIFEINI

INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your DIFEINI Bathtub and Shower Faucet Set, Model 88056B. Please read thoroughly before installation and use to ensure proper function and longevity of the product. This 2-in-1 shower faucet set offers 49 spray settings, allowing separate or combined use of the fixed and handheld shower heads. It features a 3-way diverter, an adjustable angle bracket, and a quick-fill bathtub spout. Constructed from high-quality brass with a matte black finish, it is designed for durability and style. The integrated pressure balance valve helps prevent water hammer and scalding. It uses a standard 1/2 inch NPT connection.

SAFETY INFORMATION

Observe the following safety precautions during installation and use:

- Always turn off the main water supply before beginning any plumbing work.
- Wear appropriate personal protective equipment, such as safety glasses and gloves, during installation.
- If you are unsure about any installation steps, consult a qualified plumber.
- Ensure all connections are secure and leak-free before restoring water supply.
- Do not use abrasive cleaners or harsh chemicals on the product's finish, as this may cause damage.

PACKAGE CONTENTS

Verify that all the following components are included in your package before starting the installation:

- Shower Hose
- Shower Arm
- Dual Shower Head and Diverter
- Shower Valve with Trim
- Bathtub Faucet

General Installation Steps

The following are general steps. Refer to the detailed diagram and consult a professional if needed.

1. **Prepare the Installation Area:** Turn off the main water supply. Clear the work area and ensure you have all necessary tools.
2. **Install the Shower Valve:** Mount the main shower valve body into the wall, ensuring it is level and securely fastened. Connect the hot and cold water lines to the appropriate inlets (standard 1/2 inch NPT connections).
3. **Connect Bathtub Spout:** Connect the tub spout line to the designated outlet on the valve.
4. **Install Shower Arm:** Thread the shower arm into the wall connection.
5. **Attach Shower Heads:** Connect the fixed shower head to the shower arm and the handheld shower head to its hose. Attach the hose to the diverter.
6. **Install Trim and Handle:** Secure the decorative trim plate and install the control handle onto the valve.
7. **Test for Leaks:** Slowly turn on the main water supply and check all connections for leaks. Operate the faucet to ensure

proper water flow and temperature control.

OPERATING INSTRUCTIONS

Dual Shower Head System with 3-Way Diverter

Your DIFEINI shower system features a versatile 2-in-1 design, allowing you to use the fixed shower head and the handheld shower head independently or simultaneously. This provides up to 49 different water flow patterns for a customized showering experience.

3-WAY DIVERTER

Image: The 3-way diverter allows easy switching between the fixed shower head, handheld shower, or both. The handheld shower holder is angle-adjustable.

The upper shower head includes a three-way water diverter. Rotate the diverter to select your desired water output: fixed shower head only, handheld shower only, or both combined. The upper bracket for the handheld shower is angle-adjustable, allowing you to flexibly position the handheld shower for comfort, suitable for both children and adults.

Handheld Shower Head Functions

The handheld shower head offers 7 distinct spray functions. Rotate the spray face to cycle through the different patterns and find your preferred setting.

BATHTUB SPOUT

One-diverter knob switch, very easy operate

Image: The handheld shower head features 7 different spray functions, selectable by rotating the head.

Bathtub Spout Operation

The bathtub spout is designed for quick and efficient tub filling. It features a single diverter knob for easy control.

- To **open** the bathtub spout and fill the tub, press the diverter knob down.
- To **close** the bathtub spout and divert water to the shower heads, lift the diverter knob up.

Image: Operation of the bathtub spout. Lift the knob to close and press down to open.

Pressure Balance Valve

The integrated pressure balance valve is a safety feature that protects you from sudden temperature changes. It maintains a consistent water temperature by compensating for fluctuations in hot or cold water pressure, thereby preventing scalding and reducing water hammer noise.

MAINTENANCE

Regular cleaning and maintenance will help preserve the finish and functionality of your DIFEINI shower faucet set.

- **Cleaning the Finish:** Use a soft, damp cloth and mild soap to clean the matte black finish. Rinse thoroughly with water and dry with a soft cloth to prevent water spots. Avoid abrasive cleaners, harsh chemicals, or scouring pads, as these can damage the finish.
- **Cleaning Shower Nozzles:** If mineral deposits build up on the shower head nozzles, gently rub them with your finger or a soft brush to dislodge the deposits. For stubborn buildup, a solution of equal parts white vinegar and water can be used.

- **Check for Leaks:** Periodically inspect all connections for any signs of leaks. Tighten connections as needed, but do not overtighten.

TROUBLESHOOTING

If you encounter any issues with your shower faucet set, refer to the table below for common problems and solutions.

Problem	Possible Cause	Solution
Low Water Pressure	Clogged shower head nozzles; partially closed shut-off valve; low household water pressure.	Clean shower head nozzles. Ensure shut-off valves are fully open. Consult a plumber if household pressure is consistently low.
Leaks from Connections	Loose connections; worn washers/O-rings; improper installation.	Tighten connections (do not overtighten). Replace worn washers/O-rings. Re-install according to instructions if necessary.
Water Temperature Fluctuations	Pressure balance valve issue; inconsistent hot/cold water supply.	Ensure the pressure balance valve is functioning correctly. Check household water heater settings. If problem persists, contact customer support.
Bathtub Spout Not Diverting	Diverter mechanism stuck or damaged.	Ensure the diverter knob is fully lifted or pressed. If stuck, gently try to free it. If damaged, contact customer support for replacement parts.

SPECIFICATIONS

Feature	Detail
Brand	DIFEINI
Model Number	88056B
Product Dimensions	25.65 x 13.46 x 43.18 cm
Item Weight	3.02 kilograms
Color	Matte Black
Finish Type	Matte Black
Material	Brass, Stainless Steel, Plastic
Number of Handles	1
