Ariete 927

Ariete 927 Pizzeria Double Pizza Oven User Manual

Model: 927 | Brand: Ariete

1. Introduction

Thank you for choosing the Ariete 927 Pizzeria Double Pizza Oven. This innovative appliance is designed to bring the authentic taste of Neapolitan pizza to your home, allowing you to cook two pizzas simultaneously with its dual refractory stones and independent thermostats. Please read this manual carefully before using the appliance to ensure safe and optimal performance.

2. Important Safety Instructions

When using electrical appliances, basic safety precautions should always be followed to reduce the risk of fire, electric shock, and/or injury to persons, including the following:

- Read all instructions before using the appliance.
- Do not touch hot surfaces. Use handles or knobs.
- To protect against electrical shock, do not immerse cord, plugs, or appliance in water or other liquid.

- Close supervision is necessary when any appliance is used by or near children.
- Unplug from outlet when not in use and before cleaning. Allow to cool before putting on or taking off parts.
- Do not operate any appliance with a damaged cord or plug, or after the appliance malfunctions or has been damaged in any manner.
- The use of accessory attachments not recommended by the appliance manufacturer may cause injuries.
- Do not use outdoors.
- Do not let cord hang over edge of table or counter, or touch hot surfaces.
- Do not place on or near a hot gas or electric burner, or in a heated oven.
- Extreme caution must be used when moving an appliance containing hot oil or other hot liquids.
- Always attach plug to appliance first, then plug cord into the wall outlet. To disconnect, turn any control to "off", then remove plug from wall outlet.
- Do not use appliance for other than intended use.

3. Components Included

Your Ariete 927 Pizzeria Double Pizza Oven package includes:

- 1 x Ariete 927 Pizzeria Double Pizza Oven unit
- 2 x Refractory Stones (pre-installed)
- 2 x Stainless Steel Paddles
- 1 x Instruction Manual (this document)

4. Setup

Follow these steps to set up your pizza oven for the first time:

1. **Unpack the Oven:** Carefully remove all packaging materials from the oven. Retain packaging for future storage or transport if needed.
2. **Placement:** Place the oven on a stable, flat, and heat-resistant surface. Ensure there is adequate clearance around the oven for ventilation and to prevent heat damage to surrounding surfaces.
3. **Initial Cleaning:** Wipe the exterior of the oven with a damp cloth. Do not use abrasive cleaners. The refractory stones should not be washed with water or detergents.
4. **First Use (Burn-off):** Before cooking food, operate the oven empty for approximately 10-15 minutes at the highest temperature setting (level 5) to burn off any manufacturing residues and odors. A small amount of smoke or odor is normal during this initial process. Ensure the area is well-ventilated.
5. **Power Connection:** Ensure the oven is switched off, then plug the power cord into a suitable 220V electrical outlet.

5. Operating Instructions

This section details how to use your Ariete 927 Pizzeria Double Pizza Oven for cooking.

5.1 Preheating

1. Close both oven lids.
2. Turn the desired thermostat knobs (one for the upper stone, one for the lower stone) to the maximum setting (level 5) for pizza. The indicator lights will illuminate.
3. Allow the oven to preheat for approximately 10 minutes until the indicator lights turn off, signaling that the desired temperature (up to 400°C) has been reached.

5.2 Cooking Pizza

1. Prepare your pizza dough and toppings. Ensure toppings are not excessively wet to prevent soggy results.
2. Lightly flour the stainless steel paddles provided.

3. Carefully transfer one pizza onto each paddle.
4. Open the upper and lower oven lids.
5. Slide each pizza from its paddle directly onto the preheated refractory stone. Close the lids immediately.
6. Cook fresh pizzas for approximately 4 minutes. For frozen pizzas, cooking time is typically 2-3 minutes. Cooking times may vary based on dough thickness and topping moisture.
7. Monitor cooking progress through the oven's design. For even browning, you may carefully rotate the pizza halfway through cooking using the paddles.
8. Once cooked, use the stainless steel paddles to carefully remove the pizzas from the oven.

Image 3: A top-down view of the Ariete 927 Pizzeria Double Pizza Oven, showing the two independent thermostat control knobs and indicator lights for precise temperature management.

5.3 Using the 5 Cooking Levels

The adjustable thermostats offer 5 cooking levels, allowing versatility beyond just pizza:

- **Level 1-2:** Ideal for reheating food, keeping items warm, or gently toasting.
- **Level 3-4:** Suitable for baking savory cakes, panzerotti, or preparing various toasts.
- **Level 5:** Maximum temperature for achieving crispy, perfectly cooked pizzas.

6. Maintenance and Cleaning

Proper maintenance ensures the longevity and performance of your pizza oven.

1. **Cool Down:** Always allow the oven to cool completely before attempting any cleaning or maintenance.
2. **Refractory Stones:** The refractory stones are porous and should **not** be washed with water or detergents. After the oven has cooled, gently scrape off any burnt-on food residues using a plastic scraper or a stiff brush. Any discoloration on the stones is normal and will not affect performance.

3. **Exterior:** Wipe the exterior surfaces of the oven with a soft, damp cloth. For stubborn stains, a mild, non-abrasive cleaner can be used sparingly. Ensure no liquid enters the electrical components.
4. **Stainless Steel Paddles:** The paddles can be washed with warm, soapy water and dried thoroughly.
5. **Storage:** Store the oven in a dry, cool place when not in use.

7. Troubleshooting

If you encounter issues with your Ariete 927 Pizzeria Double Pizza Oven, refer to the following common problems and solutions:

- **Appliance does not turn on:**
  - Check if the power cord is securely plugged into a working electrical outlet.
  - Ensure the thermostat knobs are turned to a setting above '0'.
  - Check your household's circuit breaker or fuse box.
- **Pizzas not cooking evenly:**
  - Ensure the oven was fully preheated until the indicator lights turned off.
  - Rotate the pizzas halfway through cooking for more uniform browning.
  - Verify that the thermostat settings for both upper and lower stones are appropriate for your desired cooking.
- **Excessive smoke or odor during first use:**
  - This is normal during the initial burn-off process. Ensure adequate ventilation. If it persists after the first use, contact customer support.
- **Pizzas sticking to the stone:**
  - Ensure the paddles are adequately floured before transferring the pizza.
  - Do not overload the pizza with too many wet toppings.

If the problem persists after trying these solutions, please contact Ariete customer support.

8. Specifications

Feature	Specification
Brand	Ariete
Model Number	00C092700AR0 (927)
Power	2300 Watts
Voltage	220 Volts
Capacity	3 Kilograms (approximate)
Product Dimensions (L x W x H)	43 x 42 x 32.5 cm
Item Weight	11 Kilograms
Material	Stainless Steel

Feature	Specification
Special Features	Practical and portable, 2 refractory stones, 2 stainless steel paddles, 2 independent thermostats, 5 cooking levels
Control Type	Knob
Color	Red

9. Warranty and Support

For information regarding warranty coverage, terms, and conditions, please refer to the warranty card included with your purchase or visit the official Ariete website. For technical support, spare parts, or service inquiries, please contact Ariete customer service directly. Contact details can typically be found on the manufacturer's website or in the product packaging.
