3. SETUP

3.1 Initial Charging

Before first use, fully charge the clipper for approximately 3 hours. Use the provided USB charging cable to connect the clipper to a compatible USB power source (e.g., computer, wall adapter). The LED display will indicate the charging status.

Image 3.1: The USB charging port located at the base of the clipper.

3.2 Attaching Guide Combs

Select the desired guide comb (3mm, 6mm, 9mm, or 12mm) for your preferred cutting length. Align the comb with the clipper blade and push it firmly until it clicks into place. Ensure the comb is securely attached before operating the clipper.

4. OPERATING INSTRUCTIONS

4.1 Powering On/Off

Press the power button to turn the clipper on. Press it again to turn it off. The LED display will illuminate when the clipper is active, showing battery status and RPM.

4.2 Adjusting Cutting Length

In addition to the guide combs, the VGR V-692 features an adjustable taper lever on the side of the clipper. This lever allows for fine-tuning of the cutting length between 0.8mm, 1.2mm, 1.6mm, and 2.0mm, providing precise control for fades and blending.

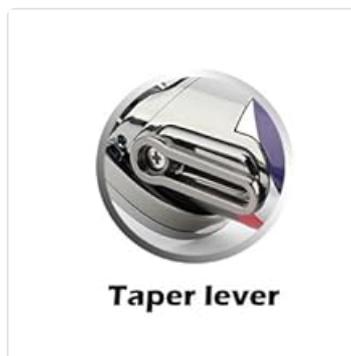

Image 4.2: The adjustable taper lever for precise cutting length adjustments.

4.3 General Usage Tips

- Ensure hair is clean and dry before trimming.
- Always start with a longer guide comb and gradually reduce the length if desired.
- Move the clipper against the direction of hair growth for an even cut.
- For beard trimming, use shorter strokes and follow the contours of your face.
- The clipper features a 2-speed motor with RPM options of 6000 and 7000 for different hair types and cutting needs.

5. MAINTENANCE

5.1 Cleaning the Blades

After each use, turn off the clipper and remove any attached guide comb. Use the provided cleaning brush to remove loose hairs from the blades. For a more thorough cleaning, the blades can be carefully detached and rinsed under running water. Ensure blades are completely dry before reattaching.

Image 5.1: Close-up view of the ceramic blade for cleaning and maintenance.

5.2 Oiling the Blades

Regularly apply a few drops of the provided lubricating oil to the blades to ensure smooth operation and prolong their lifespan. Apply oil after cleaning or if the blades feel sluggish.

5.3 Storage

Store the clipper in a cool, dry place, away from direct sunlight and moisture. Keep it out of reach of children.

6. TROUBLESHOOTING

- **Clipper not turning on:** Ensure the clipper is fully charged. Check the USB charging cable and power source.
- **Poor cutting performance:** Clean the blades thoroughly and apply lubricating oil. Ensure the guide comb is correctly attached. The blades may need sharpening or replacement if performance does not improve.
- **Battery not charging:** Verify the USB cable and adapter are functioning correctly. Ensure the charging port on the clipper is clean and free of debris.
- **Excessive noise or vibration:** This may indicate a need for cleaning and oiling the blades. If the issue persists, contact customer support.

7. SPECIFICATIONS

Feature	Detail
Model Number	V-692
Brand	VGR
Blade Material	Stainless Steel
Power Source	Battery Powered (Cordless)
Battery Type	1 Lithium Ion (included)
Battery Capacity	2000 mAh

Runtime	Up to 200 minutes
Charging Time	Approx. 3 hours
