7. TROUBLESHOOTING

If you encounter any issues with your HOOBRO EWT60MW01 Cat Litter Cabinet, refer to the following common problems and solutions:

- Problem: Odor buildup inside the cabinet.**
Solution: Ensure the litter box is cleaned regularly. The cabinet's shutter doors and paw-print cutouts provide ventilation; ensure these are not obstructed. Consider using odor-absorbing litter or a litter box deodorizer.
- Problem: Cat is hesitant to use the cabinet.**
Solution: Cats may need time to adjust to new environments. Place a familiar item (like a favorite toy) inside. Ensure the litter box is clean. You can temporarily remove the doors or leave them open to help your cat get used to the space.
- Problem: Cabinet feels unstable.**
Solution: Check that all screws are securely tightened. Ensure the cabinet is placed on a level surface. If instability persists, consider using wall anchors for added security.
- Problem: Doors do not close properly.**
Solution: Check the hinge alignment and ensure no debris is obstructing the door's path. Adjust hinges if necessary.
