- **Camera:** For photo translation.

4. Setup

4.1 Charging the Device

Before first use, fully charge the X5 Pro Reader Pen. Connect the provided USB cable to the device's USB-C port and the other end to a compatible USB power adapter (not included) or a computer's USB port. The battery indicator on the screen will show charging status. A full charge typically takes a few hours.

4.2 Powering On/Off

- **To Power On:** Press and hold the Power button for approximately 3 seconds until the screen lights up.
- **To Power Off:** Press and hold the Power button for approximately 3 seconds, then select "Power Off" on the screen.
- **To Sleep/Wake:** Briefly press the Power button to put the device to sleep or wake it up.

4.3 Initial Language Settings

Upon first power-on, you will be prompted to select the device's system language. Follow the on-screen instructions to choose your preferred language.

4.4 Wi-Fi Connection

For most translation functions, including real-time voice translation and online dictionary access, a stable Wi-Fi connection is required.

1. From the main menu, navigate to "Settings".
2. Select "Wi-Fi" and turn it on.
3. Choose your desired Wi-Fi network from the list.
4. Enter the Wi-Fi password if prompted and confirm.
5. The device will connect to the network.

5. Operating Instructions

5.1 Scan Translation (Text-to-Speech)

The X5 Pro can scan and translate text from various printed materials and digital screens, then read it aloud.

1. From the main menu, select "Scan Translation".
2. Set the source language (the language you are scanning from) and the target language (the language you want to translate to).
3. Place the scan head flat against the text you wish to translate.
4. Slowly and steadily slide the pen across the line of text. Ensure the entire line is within the scanning area.
5. The scanned text and its translation will appear on the screen, and the device will read it aloud.

5.2 Two-Way Voice Translation

Engage in real-time conversations with the two-way voice translation feature, supporting 112 languages.

1. From the main menu, select "Phonetic Translation" (or similar voice translation option).
2. Choose the two languages for the conversation (e.g., English and Spanish).
3. Press and hold the microphone button corresponding to your language, speak clearly into the device.
4. Release the button, and the device will translate and speak the translation aloud. The translated text will also appear on the screen.
5. The other person can then press their language's microphone button and speak.

5.6 Electronic Dictionary

Access built-in dictionaries, such as the Chinese-English dictionary, for quick word lookups.

- From the main menu, select "Scanning Dictionary" or "Electronic Dictionary".
- You can either scan a word to look it up or manually type it using the on-screen keyboard.
- Definitions and pronunciations will be displayed.
- Words or sentences can be added to your "Favorites" for easy review.

5.7 Adjusting Settings

Customize your device experience through the settings menu.

- **Speech Speed:** Adjust the playback speed of translated audio.
- **Brightness:** Control screen brightness for optimal viewing in different lighting conditions.
- **Left-Handed Mode:** Enable this mode for more comfortable scanning and operation if you are left-handed.
- **Bluetooth:** Connect to Bluetooth headphones or speakers for private listening.

6. Maintenance

- **Cleaning:** Use a soft, dry, lint-free cloth to clean the device's screen and body. For stubborn smudges, slightly dampen the cloth with water. Do not use harsh chemicals or abrasive materials.
- **Scan Head:** Keep the scan head clean and free of dust or debris to ensure accurate scanning. Use a soft brush or compressed air if necessary.
- **Storage:** Store the device in a cool, dry place away from direct sunlight, extreme temperatures, and high humidity.
- **Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Charge the device regularly, even if not in use for extended periods.

7. Troubleshooting

If you encounter issues with your Vormor X5 Pro Reader Pen, refer to the following common problems and solutions:

- **Device not powering on:**
  - Ensure the battery is charged. Connect the device to a power source and try again.
  - Press and hold the Power button for 10-15 seconds to perform a forced restart.
- **Translation inaccuracy or poor recognition:**
  - Ensure the scan head is clean and free of obstructions.
  - Scan slowly and steadily, keeping the pen flat against the text.
  - Verify that the correct source and target languages are selected.
  - Ensure adequate lighting for scanning.
  - For voice translation, speak clearly and directly into the microphone.
- **Wi-Fi connectivity issues:**
  - Check if your Wi-Fi network is active and working correctly.
  - Re-enter the Wi-Fi password to ensure it is correct.
  - Restart the device and your Wi-Fi router.
  - Ensure the device is within range of the Wi-Fi signal.
- **Short battery life:**
  - Reduce screen brightness.
  - Turn off Wi-Fi and Bluetooth when not in use.
  - Ensure the device is fully charged before use.
  - Close unused applications running in the background.

If the problem persists after trying these solutions, please contact customer support.
