## Bionik BNK-9099

# Bionik NeoGlow Wireless Controller User Manual

Model: BNK-9099

For Nintendo Switch, PC, and Android Devices

## 1. INTRODUCTION

Thank you for purchasing the Bionik NeoGlow Wireless Controller. This controller is designed to enhance your gaming experience across multiple platforms, including Nintendo Switch, PC, and Android devices. It features a transparent shell with customizable RGB lighting, motion controls, adjustable vibration, and programmable buttons. Please read this manual thoroughly to ensure proper setup and operation.

## 2. PACKAGE CONTENTS

- Bionik NeoGlow Wireless Controller
- USB-C to USB-A Charging Cable (10-foot)
- User Manual

## 3. CONTROLLER LAYOUT

**Figure 3.1: Front View.** This image displays the front of the Bionik NeoGlow controller, highlighting the transparent shell, joysticks, D-pad, face buttons (A, B, X, Y), and central function buttons.

**Figure 3.2: Back View with Mappable Buttons.** This image shows the rear of the controller, specifically pointing out the M1 and M2 programmable buttons located on the grips.

The NeoGlow controller features a standard layout with two analog sticks, a D-pad, A/B/X/Y face buttons, shoulder buttons (L/R), and triggers (ZL/ZR). Additionally, it includes two programmable M1 and M2 buttons on the underside for custom assignments.

## 4. SETUP

### 4.1. Charging the Controller

The controller comes with a built-in 900 mAh rechargeable battery. Before first use, fully charge the controller.

1. Connect the small end of the included 10-foot USB-C cable to the USB-C port on the top of the controller.
2. Connect the large end of the USB-A cable to a powered USB port (e.g., Nintendo Switch dock, PC, USB wall adapter).
3. The LED indicators on the controller will show charging status. A full charge provides over 40 hours of playtime.

### 4.2. Pairing with Nintendo Switch

To pair the NeoGlow controller with your Nintendo Switch:

1. From the HOME Menu, select **Controllers > Change Grip/Order**.
2. On the NeoGlow controller, press and hold the **Sync** button (located on the top edge) for 3 seconds until the player indicator lights begin to flash.
3. Once paired, the player indicator(s) on the controller will light up solid.

### 4.3. Pairing with PC (Windows)

The controller can be connected to a PC via Bluetooth or wired connection.

#### 4.3.1. Bluetooth Connection

1. Ensure your PC has Bluetooth enabled.
2. Go to **Settings > Devices > Bluetooth & other devices > Add Bluetooth or other device > Bluetooth**.
3. On the NeoGlow controller, press and hold the **Sync** button for 3 seconds.
4. Select "NeoGlow Controller" from the list of available devices on your PC.

#### 4.3.2. Wired Connection

Connect the controller directly to your PC using the included USB-C cable. The PC should automatically detect and install the necessary drivers.

### 4.4. Pairing with Android Devices

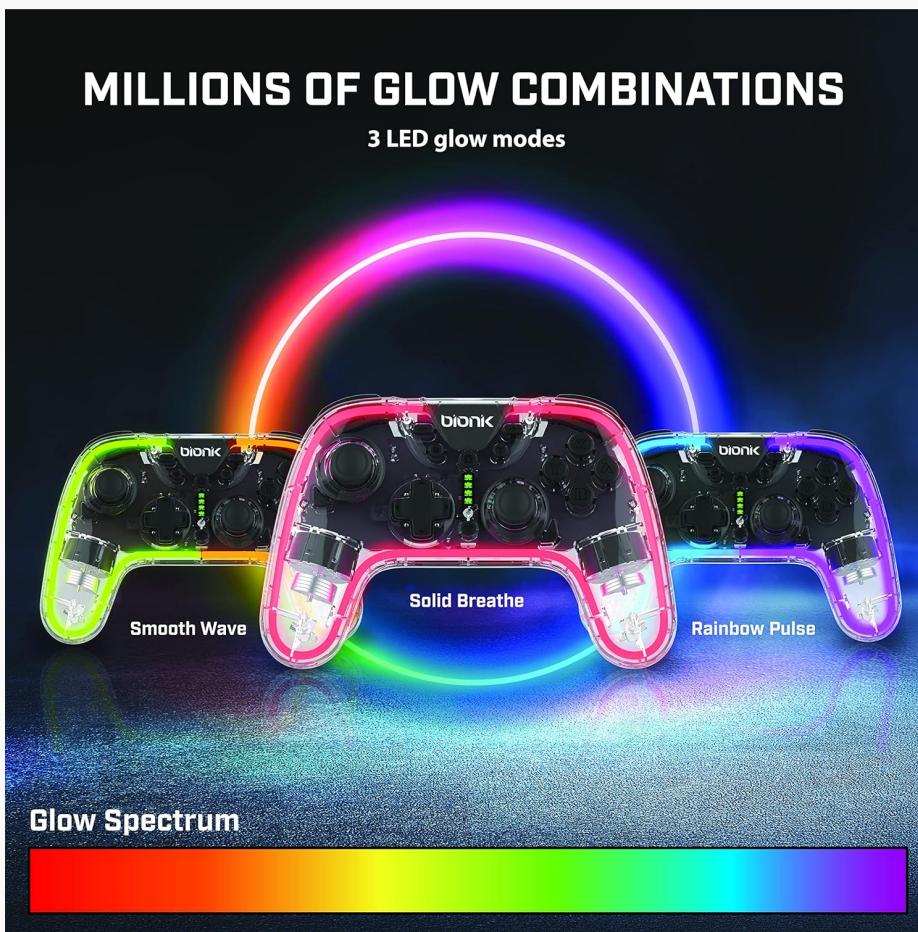

To pair with an Android device:

1. Enable Bluetooth on your Android device.
2. Go to Bluetooth settings and scan for new devices.
3. On the NeoGlow controller, press and hold the **Sync** button for 3 seconds.
4. Select "NeoGlow Controller" from the list of available devices.

## 5. OPERATING THE CONTROLLER

### 5.1. RGB Lighting Modes

The NeoGlow controller features a transparent shell with RGB tube lighting, offering millions of color combinations and three distinct LED glow modes: Smooth Wave, Solid Breathe, and Rainbow Pulse. Use the dedicated color change button to cycle through these modes.

**Figure 5.1: RGB Glow Combinations.** This image illustrates the three distinct LED glow modes: Smooth Wave, Solid Breathe, and Rainbow Pulse, showcasing the controller's customizable lighting.

### 5.2. Adjustable Vibration

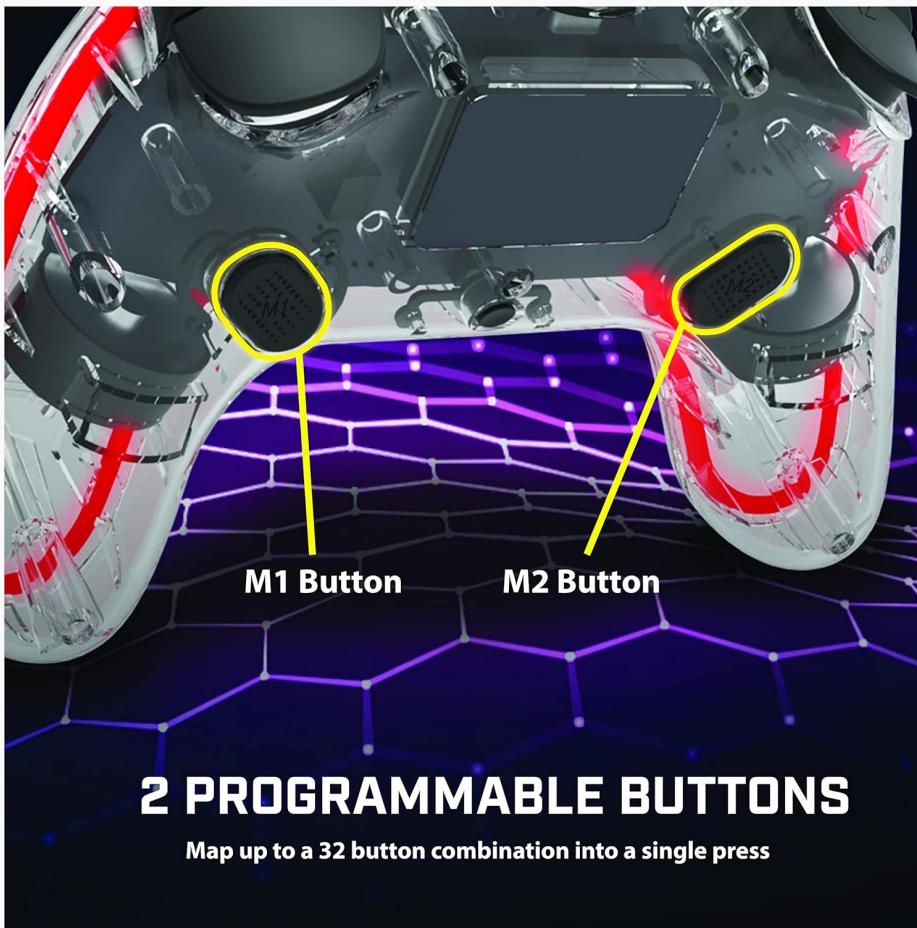

The controller offers three different levels of rumble intensity (Low, Medium, High) to fully immerse you in your game. Refer to the controller's specific button combinations or settings menu for adjustment.

### 5.3. Turbo Mode

Activate Turbo mode for continuous presses by simply holding down a button. The NeoGlow controller supports Turbo modes of 5, 12, or 20 presses per second. Consult the controller's instructions for assigning and adjusting Turbo functions.

#### 5.4. Programmable Buttons (M1/M2)

The two ergonomically placed mappable buttons (M1 and M2) on the underside of the controller can be programmed to perform a single action or a combination of up to 32 button presses using its macro feature. This allows for advanced customization and quick execution of complex commands.

**Figure 5.2: Programmable M1 and M2 Buttons.** This image provides a detailed view of the M1 and M2 buttons located on the controller's grips, which can be customized for various in-game actions.

#### 5.5. Gyroscope/Motion Control

The controller features a built-in gyroscope that provides 360 degrees of movement, enabling precise motion control in compatible games. This enhances gameplay for titles that utilize tilt and motion inputs.

## NINTENDO SWITCH® - OLED MODEL

**Figure 5.3: 360° Gyroscope.** This image demonstrates the controller's 6-axis motion sensors, allowing for full 360-degree movement and precise in-game control.

## 6. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the controller. Avoid using harsh chemicals or abrasive materials.
- **Storage:** Store the controller in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To prolong battery life, avoid fully discharging the controller frequently. Charge it regularly, even if not in use for extended periods.
- **Avoid Drops:** Protect the controller from drops and impacts, which can damage internal components or the transparent shell.

## 7. TROUBLESHOOTING

### 7.1. Controller Not Connecting/Pairing

- Ensure the controller is fully charged.
- Verify Bluetooth is enabled on your device (Switch, PC, Android).
- Try restarting the controller by holding the Sync button until it turns off, then attempt pairing again.
- If connecting to Switch, ensure you are in the "Change Grip/Order" menu.
- For PC, try a wired connection to rule out Bluetooth issues.

### 7.2. Input Lag or Unresponsive Buttons

- Ensure there are no obstructions or excessive distance between the controller and the device.
- Check for interference from other wireless devices.

- Ensure the controller's firmware is up to date (check Bionik's official website for updates).
- If using a wired connection, ensure the cable is securely connected.

### 7.3. RGB Lights Not Working

- Ensure the controller has sufficient battery charge.
- Press the dedicated color change button to cycle through modes and ensure it's not set to an 'off' state.

## 8. SPECIFICATIONS

Feature	Detail
Model Number	BNK-9099
Compatibility	Nintendo Switch, PC, Android
Connectivity	Wireless (Bluetooth), Wired (USB-C)
Battery	900 mAh Lithium Ion (Rechargeable)
Playtime	40+ hours (on a single charge)
Motion Control	6-axis Gyroscope
Vibration	Adjustable (3 levels)
Turbo Modes	5, 12, or 20 presses per second
Programmable Buttons	2 (M1, M2) with macro feature
Cable Length	10 feet (USB-C to USB-A)
Product Dimensions	1 x 1 x 1 inches
Item Weight	1.01 Pounds
