

Gackoko HY9

Gackoko HY9 Blackhead Remover Pore Vacuum

Model: HY9

1. IMPORTANT SAFETY INFORMATION

Please read all instructions carefully before using the Gackoko HY9 Blackhead Remover Pore Vacuum. Improper use may result in skin irritation or injury.

- **Do not stay on one area for more than 3 seconds.** Continuous suction in one spot can cause redness, bruising, or skin damage.
- Move the device gently and continuously across the skin.
- Do not use on broken, irritated, or inflamed skin.
- Avoid using the device on areas with acne cysts, open wounds, or severe skin conditions.
- Do not exfoliate your skin immediately before or after using the device.
- Keep out of reach of children.
- This device is not waterproof. Do not wash the main unit with water.

Consult a dermatologist if you have sensitive skin or pre-existing skin conditions before use.

2. PRODUCT OVERVIEW

The Gackoko HY9 Blackhead Remover is an electric facial pore cleaner designed to help remove blackheads, whiteheads, dead skin, and excess oil. It features adjustable suction power and multiple interchangeable probes for various skin needs.

Package Contents:

- Gackoko HY9 Blackhead Remover Device

Figure 2.2: Replaceable Suction Heads and Their Recommended Uses

- **Small Round Head:** For thin, tender, and easily allergic skin.
- **Micro Crystal Head:** Mainly used on oily skin for exfoliation.
- **Oval Hole Head:** Mainly used to smooth fine lines and wrinkles.
- **Middle Round Head:** Strong suction, suitable for dry skin.
- **Large Round Head:** Strongest suction, mainly used on forehead and cheeks.

3. SETUP

Charging the Device:

1. Connect the USB charging cable to the device's charging port.
2. Plug the other end of the USB cable into a compatible USB power adapter (not included) or a computer USB port.
3. The LED display will indicate charging status. A full charge typically takes a few hours.

Attaching a Suction Head:

1. Select the desired suction head based on your skin type and target area (refer to Figure 2.2).

2. Gently twist and push the chosen head onto the device's nozzle until it is securely in place.
3. Ensure a filter sponge is inserted into the suction head to prevent debris from entering the device.

4. OPERATING INSTRUCTIONS

Follow these steps for effective and safe use of your Gackoko HY9 Blackhead Remover:

1. **Prepare Your Skin:** Before using the vacuum pore cleaner, open your pores with a hot towel or facial steamer for 5-10 minutes. This softens the skin and helps loosen blackheads.
2. **Select Suction Level:** Press the power button to turn on the device. Short press the power button to cycle through the 5 suction power levels. Start with the lowest intensity (Level 1) and gradually increase if needed, based on your skin's tolerance.
3. **Apply to Skin:** Place the selected suction head flat against your skin. Gently slide the pore vacuum in a single, continuous horizontal direction.
4. **Avoid Prolonged Suction:** **Do not keep the device in one spot for more than 3 seconds.** This is crucial to prevent redness or bruising. Keep the device moving.
5. **Recommended Usage Frequency:** For dry skin, use once a week. For oily and mixed skin, use up to twice a week. Do not exceed 5 minutes of total use per session.
6. **Post-Treatment:** After use, apply an ice towel, cold water, or a facial mask to help shrink pores and soothe the skin.

5. MAINTENANCE AND CLEANING

- **Cleaning Suction Heads:** After each use, remove the suction head and filter sponge. Rinse the

suction head with warm water and mild soap. Allow it to air dry completely before reattaching.

- **Replacing Filter Sponges:** Replace the filter sponge regularly (after every 1-2 uses or when visibly dirty) to maintain optimal suction and hygiene.
- **Cleaning Device Body:** Wipe the main device body with a clean, damp cloth. **Do not wash the machine with water** or immerse it in any liquid.
- **Storage:** Store the device and its accessories in a cool, dry place, away from direct sunlight.

6. TROUBLESHOOTING

If you encounter any issues with your Gackoko HY9 Blackhead Remover, please refer to the following common solutions:

Problem	Possible Cause	Solution
No suction or weak suction	Suction head not properly attached; filter sponge clogged; low battery.	Ensure suction head is securely attached; replace filter sponge; charge the device fully.
Device does not turn on	Low battery; device malfunction.	Charge the device for at least 2 hours; if still not working, contact customer support.
Redness or bruising after use	Device held in one spot too long; suction level too high for skin type.	Ensure continuous movement of the device; reduce suction level; apply a cold compress to affected area.

If the problem persists after trying these solutions, please contact Gackoko customer support.
