› UpBright 5V AC/DC Adapter Instruction Manual for Arcade1Up PAC-C-01334 Super PAC-Man Counter-Cade

## UPBRIGHT PAC-C-01334 5V Power Supply

# UpBright 5V AC/DC Adapter Instruction Manual

Compatible with Arcade1Up PAC-C-01334 Super PAC-Man Counter-Cade

## 1. INTRODUCTION

This manual provides essential instructions for the safe and effective use of your UpBright 5V AC/DC Adapter. This power supply is specifically designed for compatibility with Arcade1Up PAC-C-01334 Super PAC-Man Counter-Cade and similar 5V devices requiring a barrel round plug tip. Please read this manual thoroughly before use and retain it for future reference.

## 2. IMPORTANT SAFETY INFORMATION

To ensure safe operation and prevent damage, observe the following precautions:

- **Compatibility Check:** This adapter features a barrel round plug tip and provides 5V output. It is **NOT** compatible with Micro USB connectors or 12V versions of devices. Verify your device's power requirements and connector type before use.
- **Protection Features:** The adapter includes Over Voltage Protection (OVP), Over Current Protection (OCP), and Short Circuit Protection (SCP) to safeguard your device and the adapter itself.
- **Indoor Use Only:** Use this adapter in dry, indoor environments. Avoid exposure to moisture or extreme temperatures.
- **Proper Handling:** Do not attempt to open, modify, or repair the adapter. Discontinue use if the adapter or cable appears damaged.

## 3. SETUP

Follow these steps to connect your UpBright AC/DC Adapter to your Arcade1Up Counter-Cade:

1. **Inspect the Adapter:** Ensure the adapter and its cable are free from any visible damage.
2. **Verify Device Compatibility:** Confirm that your Arcade1Up PAC-C-01334 Super PAC-Man Counter-Cade requires a 5V power input and has a barrel round plug port.
3. **Connect to Device:** Insert the barrel round plug tip of the adapter cable firmly into the power input port of your Arcade1Up Counter-Cade.
4. **Connect to Power Outlet:** Plug the AC prongs of the adapter into a standard 100-240VAC 50/60Hz wall outlet.

5. **Power On:** Once connected, your Arcade1Up Counter-Cade should receive power.

## 4. OPERATING INSTRUCTIONS

The UpBright 5V AC/DC Adapter is designed for straightforward operation. Once properly connected to your compatible device and a power outlet, it will supply the necessary power. No additional user interaction is typically required for its basic function.

- Ensure the adapter is plugged into a functional wall outlet.
- The adapter is designed for continuous use within its specified voltage and current limits.
- Disconnect the adapter from the power outlet when not in use for extended periods.

## 5. MAINTENANCE

Proper care and maintenance will extend the life of your UpBright AC/DC Adapter:

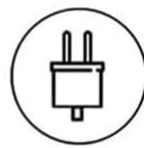

- **Cleaning:** Disconnect the adapter from power before cleaning. Use a soft, dry cloth to wipe the exterior. Do not use liquid cleaners or solvents.
- **Storage:** Store the adapter in a cool, dry place when not in use. Avoid wrapping the cable too tightly around the adapter to prevent damage.
- **Protection Features:** The adapter incorporates multiple protection mechanisms including Over Current, Over Charge, Temperature, Short Circuit, Over Load, and Over Voltage Protection to ensure safe and reliable operation.

## 6. TROUBLESHOOTING

If you encounter issues with your UpBright AC/DC Adapter, consider the following:

- **No Power to Device:**
  - Ensure the adapter is securely plugged into both the device and the wall outlet.
  - Test the wall outlet with another device to confirm it is functional.
  - Verify that your device's power input matches the adapter's 5V output and barrel round plug type.
- **Adapter Overheating:** While the adapter has temperature protection, excessive heat can indicate an issue. Ensure adequate ventilation around the adapter and that it is not covered. If overheating persists, discontinue use.
- **Device Not Charging/Operating Correctly:** Double-check all connections. If the issue persists, the problem may lie with the device itself rather than the adapter.

## 7. SPECIFICATIONS

| Feature            | Specification                                                        |
|--------------------|----------------------------------------------------------------------|
| Input Voltage      | 100-240VAC, 50/60Hz (World Wide Input)                               |
| Output Voltage     | 5V DC                                                                |
| Output Current     | 2 Amps (2000mA)                                                      |
| Wattage            | 10 Watts                                                             |
| Connector Type     | Barrel Round Plug Tip                                                |
| Protection         | OVP, OCP, SCP (Over Voltage, Over Current, Short Circuit Protection) |
| Product Dimensions | 4 x 3 x 2 inches                                                     |
| Item Weight        | 4 ounces                                                             |
