OTTOCAST A2Air

OTTOCAST A2Air Wireless Android Auto Adapter User Manual

Model: A2Air

1. Introduction

The OTTOCAST A2Air Wireless Android Auto Adapter is designed to convert your car's factory-wired Android Auto system into a wireless one. Enjoy seamless connectivity, fast auto-connection in under 10 seconds, and access to all your favorite Android Auto features without the need for messy cables. This manual provides detailed instructions for setup, operation, and troubleshooting to ensure an optimal user experience.

The compact OTTOCAST A2Air Wireless Android Auto Adapter.

This adapter features a built-in 5G chip for stable and fast connections, automatically switches between day and night modes, and supports hands-free Google Assistant, navigation, calls, and music playback.

Product Overview Video

This video provides a comprehensive overview of the OTTOCAST A2Air Wireless Android Auto Adapter, highlighting its key features and benefits.

2. What's in the Box

Upon opening your OTTOCAST A2Air package, you will find the following items:

- A2Air Wireless Android Auto Adapter
- USB C to USB C Cable
- USB A to USB C Cable
- User Manual

All components included in the OTTOCAST A2Air package.

This video demonstrates the unboxing process and shows all items included with the A2Air adapter.

3. Setup Guide

Setting up your OTTOCAST A2Air adapter is a simple two-step process:

1. **Plug and Play:** Connect the A2Air adapter to your car's USB port that supports wired Android Auto. Use the provided USB-C to USB-C or USB-A to USB-C cable depending on your car's port type.
2. **Connect to Phone:** On your Android phone, turn on Bluetooth and Wi-Fi. Pair your phone with the A2Air adapter via Bluetooth. Once paired, the adapter will automatically connect to your phone via Wi-Fi for wireless Android Auto.

Connect the A2Air adapter to your car's USB port.

Visual guide for connecting your phone to the adapter.

After the initial pairing, the A2Air will automatically connect to your Android phone whenever you enter the car, typically in less than 10 seconds.

The adapter automatically connects after the first successful pairing.

4. Operating Instructions

The A2Air adapter enables a full wireless Android Auto experience, allowing you to use your car's display for navigation, music, communication, and more.

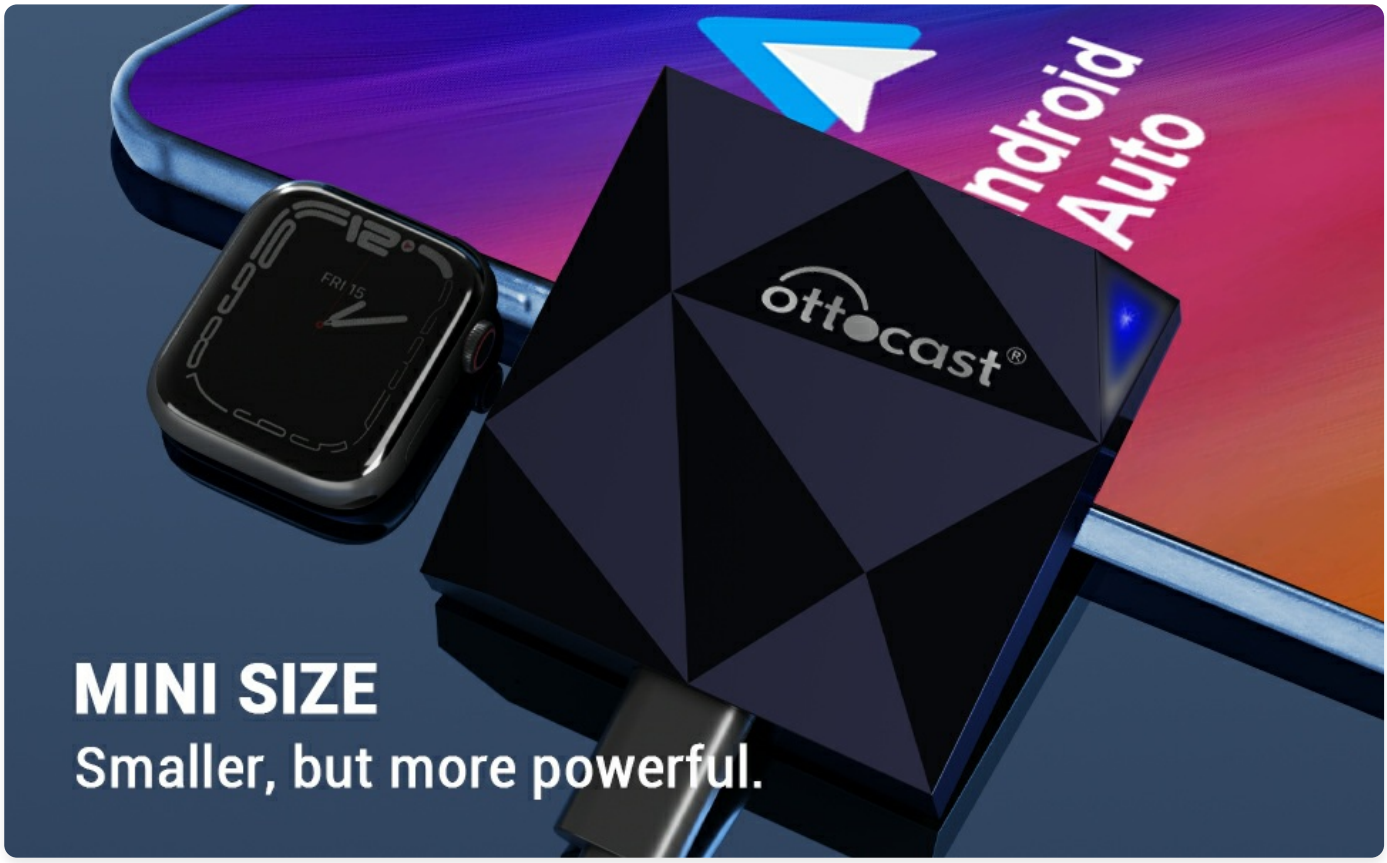

Key Features:

- **Google Assistant:** Use voice commands for hands-free operation.
- **Navigation:** Access Google Maps and other navigation apps directly on your car's screen.
- **Music & Media:** Stream music from Spotify, YouTube Music, and other apps with minimal lag.
- **Hands-free Calls:** Make and receive calls safely while driving.

- **Automatic Day/Night Mode:** The display automatically adjusts brightness and color based on your car's headlights.

Control your Android Auto interface using voice commands, touch screen, or car's physical knobs.

The A2Air supports all standard Android Auto functions including Google Assistant, Navigation, Communication, and Entertainment.

The display automatically switches between day and night modes for improved visibility and eye comfort.

Quality Assurance:

This video illustrates the individual testing process each adapter undergoes to ensure stability and reliability.

5. Compatibility

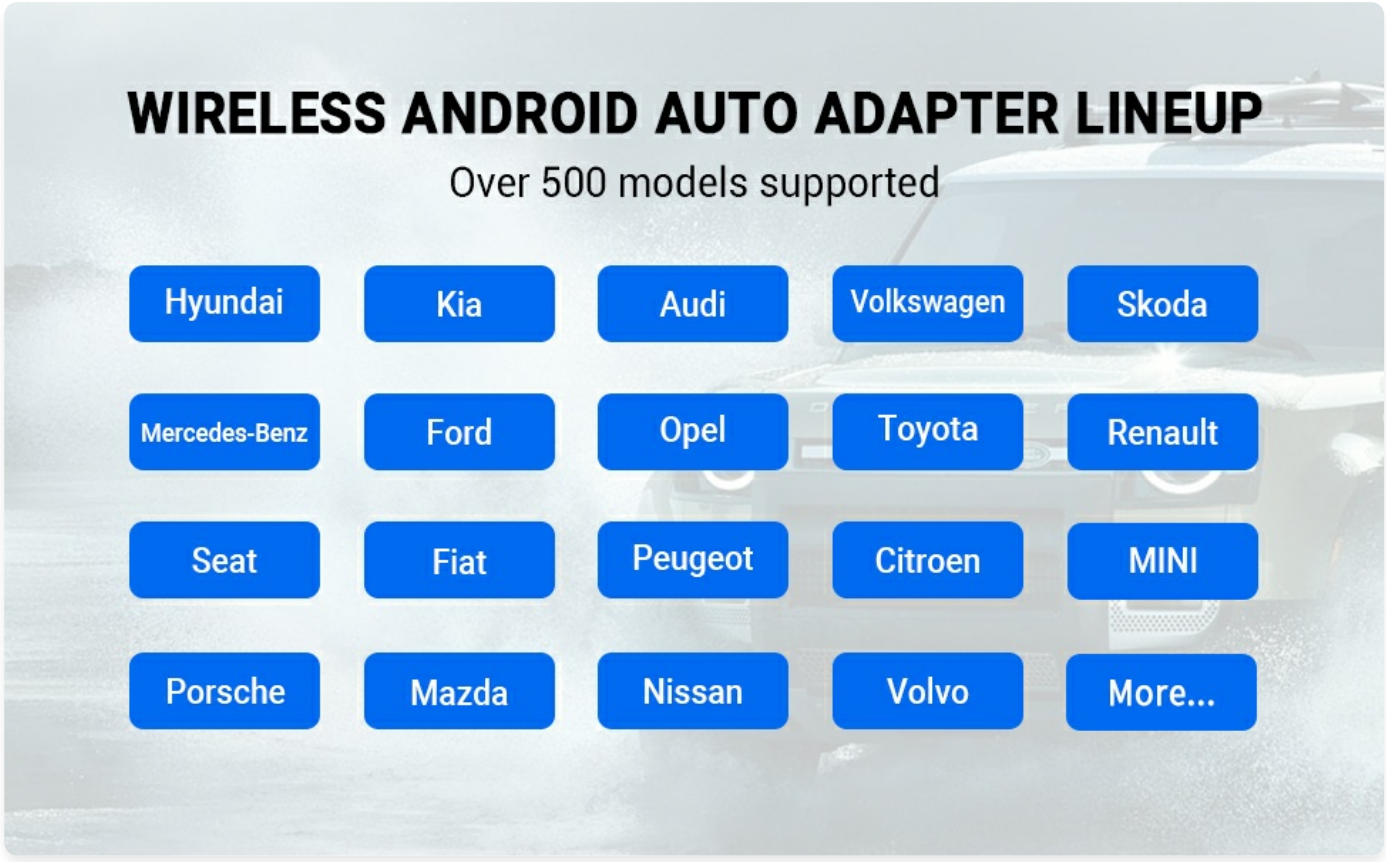

The A2Air adapter is designed for high compatibility, working with approximately 98% of cars that have factory-wired

Android Auto and any phone running Android 10 or above.

Compatible Car Brands:

- Ford, Chevrolet, Mercedes, Toyota, Subaru, Jeep, Honda, Nissan, Cadillac, Peugeot, Lincoln, Volkswagen, Volvo, Mazda, Porsche, Audi, Lexus, and many more.

Important: Your car's Android Auto must be factory-wired and enabled for the A2Air to function.

6. Specifications

Product Dimensions	2.28 x 2.28 x 0.63 inches
Item Weight	1.6 ounces
Model Number	A2Air
Connectivity Technology	Wireless (5Ghz Wi-Fi module)
Power Source	Corded Electric (USB)
Special Feature	Auto re-connection

The A2Air adapter is designed to be compact and lightweight for easy integration.

7. Troubleshooting

If you encounter issues with your A2Air adapter, please refer to the following common solutions:

Issue 1: Bluetooth shows connected but Android Auto won't connect.

This issue often arises when your phone's Bluetooth is connected to the car directly, preventing the adapter from establishing the Android Auto connection.

1. **Clear Cache:** Go to your phone's Settings > Apps > Android Auto > Storage & Cache, then select 'Clear Cache'. This can resolve temporary data conflicts.

2. **Forget Bluetooth Device:** In your phone's Bluetooth settings, find your car's Bluetooth profile and select 'Forget' or 'Unpair'. Then, reconnect only to the A2Air adapter's Bluetooth.
3. **Update Adapter Software:** Ensure your A2Air adapter's software is updated to the latest version. This can be done via the adapter's web interface (usually accessed by connecting to the adapter's Wi-Fi and navigating to 192.168.1.101 in a web browser).

This video provides steps to resolve Bluetooth connectivity issues preventing Android Auto access.

Issue 2: Adapter needs to be unplugged/replugged to access Android Auto.

If you frequently need to unplug and replug the adapter, consider these solutions:

1. **Replace Data Cable:** Try using a different USB cable, preferably the one provided in the box. If your car doesn't have a USB-C port, ensure you're using a high-quality Android-compatible cable.
2. **Change USB Port:** If your car has multiple USB ports, try connecting the adapter to a different port. Some ports may provide more stable power or data transfer. Avoid using ports that are already occupied by other high-power devices.
3. **Adjust 'Delay Start' Mode:** Access the adapter's web interface (192.168.1.101) and navigate to the 'Settings' section. Look for 'Delayed Start' and try setting it to Mode 1 or Mode 2. This adjusts the adapter's startup timing to better synchronize with your car's system.
4. **Update Adapter Software:** As with other issues, ensuring the adapter's software is up-to-date can resolve underlying compatibility or performance problems.

This video explains solutions for when the adapter requires frequent unplugging and replugging to function correctly.

8. Warranty and Support

OTTOCAST is committed to providing high-quality products and excellent customer service.

Warranty Information:

The OTTOCAST A2Air Wireless Android Auto Adapter comes with a one-year global warranty.

Technical Support:

We offer lifetime product technical service support. If you have any questions or encounter problems while using your A2Air adapter, please do not hesitate to contact us.

- **Email Support:** You can reach our technical support team via Amazon email at any time.
- **Online Resources:** Refer to the troubleshooting section of this manual or visit our website for additional support resources.

We are always working for you!

About OTTOCAST:
