tectake Hall Tree with Shoe Bench (Model 404533) - Instruction Manual

Comprehensive guide for assembly, use, and maintenance of your entryway furniture.

INTRODUCTION

This manual provides detailed instructions for the assembly, use, and maintenance of your tectake hall tree with shoe bench, model 404533. Designed to organize your entryway, this furniture combines functionality with an industrial style. Please read all instructions carefully before beginning assembly and using the product.

PACKAGE CONTENTS

Before you begin, please verify that all components are present in the package:

- Hall tree with shoe bench (main components)
- Assembly hardware (screws, Allen key, etc.)
- Assembly manual (this document)

ASSEMBLY INSTRUCTIONS

Follow these steps to assemble your entryway hall tree. It is recommended to perform assembly on a clean, soft surface to prevent scratches.

1. **Preparation:** Unpack all components and verify that no parts are missing. Identify each part according to the included assembly manual.
2. **Assemble the Base:** Connect the metal support bars to the lower wooden panels using the provided screws. Ensure screws are tightened securely.
3. **Attach Side Panels:** Attach the metal frame side panels to the assembled base. Use the appropriate screws to ensure a firm connection.
4. **Install Shelves:** Place the metal mesh shelves into their designated positions, ensuring they fit correctly into the frame.
5. **Mount the Upper Section:** Attach the upper hanging bar and the panel with hooks to the vertical frame. Ensure the hooks are oriented correctly.
6. **Adjust Feet:** Screw the adjustable feet into the bottom of the frame. These allow you to level the hall tree on uneven surfaces.
7. **Install Anti-Tip System:** For added safety, especially in homes with children or pets, attach the anti-tip system to the wall. Mark the wall position, drill if necessary, and install the anchor. Then, secure the hall tree to the wall using the provided strap and screws.

PRODUCT USAGE

The tectake hall tree is designed to maximize organization in your home:

- **Clothes Rail:** Use the upper bar to hang coats, jackets, scarves, and other items on hangers.
- **Hooks:** The nine hooks are ideal for hanging hats, bags, keys, or umbrellas.
- **Bench:** The wooden bench provides a comfortable seat for putting on or taking off shoes.
- **Shoe Shelves:** The two lower metal mesh shelves are perfect for storing shoes, boxes, or organizing baskets.

MAINTENANCE AND CARE

To ensure the durability and good appearance of your hall tree, follow these recommendations:

- **Cleaning:** Clean wooden and metal surfaces with a soft, slightly damp cloth. Avoid using abrasive chemical products that could damage the finish.
- **Regular Inspection:** Periodically check all screws and connections to ensure they are securely tightened. Tighten if necessary to maintain stability.
- **Avoid Moisture:** Although the steel has a powder coating, avoid prolonged exposure to moisture to prevent rust.

TROUBLESHOOTING

- **Instability:** If the hall tree appears unstable, ensure that the adjustable feet are properly leveled and that the anti-tip system is securely anchored to the wall. Verify that all screws are tightened.
- **Loose Hooks:** If the hooks become loose with use, it may be necessary to tighten the screws holding them to the wooden panel. If they persist, consider applying a mild adhesive for more permanent fixation.
- **Assembly Difficulty:** If you encounter difficulties during assembly, review the step-by-step assembly manual and ensure all parts are correctly oriented. Do not force parts.

TECHNICAL SPECIFICATIONS

Feature	Detail
Brand	tectake
Model	404533
Total Dimensions (Width x Depth x Height)	Approx. 73.5 x 36 x 184 cm
Material	Chipboard, powder-coated steel, polyethylene
Color	Dark Industrial Wood, Rustic
Bench Load Capacity	90 kg
Load Capacity per Metal Shelf	25 kg
Product Weight	Approx. 8.6 kg
Number of Hooks	9
Special Features	Height-adjustable feet, anti-tip system
