SIXWIN A7173A3013A4MI2

SIXWIN Car Stereo User Manual

Model: A7173A3013A4MI2
Brand: SIXWIN

Product Overview

This manual provides detailed instructions for the installation, operation, and maintenance of your SIXWIN Android 11 Car Stereo, designed specifically for Accord 7th Generation models (2003-2007).

Image: The SIXWIN Car Stereo head unit with its 10.1-inch touchscreen displaying various applications like Phone, Music, Maps, and Spotify. Below the unit, a wired microphone and a backup camera are shown, indicating included accessories.

Key Features:

- Android 11 Operating System
- 10.1-inch Touch Screen with 1024*600 Resolution
- Integrated Wireless CarPlay and Android Auto
- Built-in GPS Navigation (offline maps support)
- Bluetooth and WiFi Connectivity
- FM/RDS Radio Tuner
- Support for AHD/CVBS Reversing Input
- Split Screen Functionality

Setup and Installation

The SIXWIN Car Stereo is designed for plug-and-play installation in compatible Accord 7th Generation vehicles (2003-2007). While installation is generally straightforward, professional installation is recommended if you are unfamiliar with car audio systems.

Included Components:

- SIXWIN Android Car Stereo Head Unit
- AHD Backup Camera
- External Microphone
- Necessary Wiring Harnesses (vehicle-specific)

Installation Notes:

1. **Power Disconnection:** Before beginning any installation, disconnect the vehicle's negative battery terminal to prevent electrical shorts.
2. **Vehicle Compatibility:** Ensure your vehicle is an Accord 7th Generation (2003-2007). This unit is specifically designed for these models.
3. **Wiring Connections:** Connect the provided wiring harnesses to the corresponding ports on the car stereo and the vehicle's existing wiring. Ensure all connections are secure.
4. **AC Control Interface:** The AC control has a separate interface that requires connection. Refer to the wiring diagram for proper connection. Online help can be provided if needed.
5. **Backup Camera Installation:** Install the AHD backup camera at the rear of the vehicle, ensuring a clear view. Route the camera cable to the head unit and connect it to the AHD/CVBS reversing input.
6. **Microphone Placement:** Position the external microphone in a location that allows for clear voice pickup, such as near the rearview mirror or on the dashboard.
7. **Testing:** Before fully reassembling the dashboard, reconnect the battery and test all functions of the car stereo, including audio, touch screen, radio, Bluetooth, GPS, and backup camera.

Operating Instructions

Basic Operation:

- **Power On/Off:** The unit typically powers on with the vehicle's ignition. Use the physical power button or touch screen controls to turn the display on or off.
- **Touch Screen:** Navigate the system using the responsive 10.1-inch touch screen.
- **Physical Buttons:** Utilize the integrated physical buttons for quick access to functions like volume control, mode selection, and AC controls.

Key Functions:

- **CarPlay & Android Auto:** Connect your compatible smartphone via USB or wirelessly to access CarPlay or Android Auto for navigation, music, calls, and messages.
- **GPS Navigation:** The unit comes with built-in offline maps. For updated map data or online navigation features, an internet connection is required.
- **Bluetooth:** Pair your mobile phone via Bluetooth for hands-free calling and audio streaming.
    - Go to Bluetooth settings on the stereo.
    - Enable Bluetooth on your phone and search for the stereo's device name.
    - Pair the devices.

- **WiFi:** Connect the stereo to a WiFi hotspot (e.g., from your phone or a portable hotspot) to access online features, download apps, and update maps.
- **FM/RDS Radio:** Tune into your favorite radio stations. RDS (Radio Data System) provides additional information like station name and song title where available.
- **Media Playback:** The unit supports various audio (APE, FLAC, WAV, MP3, WMA) and video (MKV, RMVB, AVI, MP4, MDV) formats via USB or internal storage.
- **Split Screen:** Utilize the split screen feature to run two applications simultaneously, such as navigation and music playback.
- **Reversing Camera:** When the vehicle is put into reverse, the display will automatically switch to the view from the connected AHD backup camera.

Maintenance

Proper maintenance ensures the longevity and optimal performance of your SIXWIN Car Stereo.

- **Screen Cleaning:** Use a soft, lint-free cloth slightly dampened with water or a screen cleaner specifically designed for electronic displays. Avoid harsh chemicals or abrasive materials.
- **Temperature:** Avoid exposing the unit to extreme temperatures, both hot and cold, for extended periods.
- **Ventilation:** Ensure that the ventilation openings of the unit are not blocked to prevent overheating.
- **Software Updates:** Periodically check for software updates to ensure you have the latest features and bug fixes. Updates can typically be performed via WiFi.

Troubleshooting

If you encounter issues with your SIXWIN Car Stereo, refer to the following common troubleshooting steps:

Problem	Possible Cause	Solution
Unit does not power on.	Loose power connection, blown fuse.	Check all power wiring connections. Inspect vehicle's fuse box and the unit's inline fuse.
No sound from speakers.	Incorrect speaker wiring, volume too low, mute enabled.	Verify speaker connections. Increase volume. Check if mute function is active.
Touch screen unresponsive.	Software glitch, screen calibration issue.	Restart the unit (turn vehicle ignition off and on). If persistent, perform a factory reset (Factory setting keyword: 8888).
GPS not acquiring signal.	Antenna not connected, poor satellite visibility.	Ensure GPS antenna is properly connected and placed with a clear view of the sky.
Bluetooth connection issues.	Incorrect pairing, interference.	Delete previous pairings on both devices and re-pair. Ensure no other devices are interfering.
Backup camera not displaying.	Camera not connected, incorrect wiring for reverse trigger.	Check camera connections and ensure the reverse trigger wire is correctly connected to the vehicle's reverse light circuit.

For issues not covered here, please contact customer support.

Specifications

Feature	Detail
