Make It Real Heishi Bead Kit 1741 Instruction Manual

Brand: Make It Real | Model: 1741

1. INTRODUCTION

The Make It Real Heishi Bead Kit 1741 provides a comprehensive set of materials for creating custom beaded jewelry. This kit allows users to mix and match various Heishi beads and charms to design unique bracelets, necklaces, and other accessories. The included storage case helps keep all components organized.

This kit is recommended for ages 8 and up, encouraging creativity and fine motor skills development.

2. SAFETY INFORMATION

Please read and understand all safety warnings before using this product. Adult supervision is recommended, especially for younger users.

- **CHOKING HAZARD:** This kit contains small parts. Not suitable for children under 3 years of age.
Keep all small components away from infants and toddlers.
- **STRANGULATION HAZARD:** The elastic cord is a functional long cord. Adult supervision is required during use to prevent accidental strangulation.
- Do not put beads or other components in the mouth.
- Dispose of packaging materials properly and keep them away from children.

4. SETUP

Setting up your Heishi Bead Kit is simple:

1. Unpack all components from the product packaging.
2. Open the storage case and familiarize yourself with the different types and colors of beads and charms.
3. Ensure you have a clean, flat surface to work on to prevent losing small beads.

5. OPERATING INSTRUCTIONS: CREATING YOUR JEWELRY

Follow these steps to design and create your own unique beaded jewelry:

5.1. Planning Your Design

- Decide what type of jewelry you want to make (e.g., bracelet, necklace, earrings).
- Select your desired Heishi bead colors and patterns. Consider incorporating silver beads for accents

or charms for focal points.

- Lay out your chosen beads in the order you want to string them to visualize the final design.

5.2. Stringing Beads (Bracelets/Necklaces)

1. **Cut the Elastic Cord:** Measure and cut a length of elastic cord appropriate for your project. For a bracelet, allow extra length for tying knots (e.g., 20-25 cm). For a necklace, measure around the neck and add extra.
2. **Prepare the Cord:** To prevent beads from falling off one end while stringing, you can tie a temporary knot at one end of the cord or secure it with a piece of tape.
3. **String the Beads:** Carefully thread your chosen Heishi beads and silver beads onto the elastic cord according to your design.
4. **Add Charms:** If your design includes charms, use the open rings to attach them to a specific bead or directly onto the elastic cord before tying.
5. **Check Fit:** Once all beads are strung, wrap the cord around your wrist (for a bracelet) or neck (for a necklace) to ensure the desired length and fit.

Image: A close-up view of colorful Heishi beads and small charms being carefully threaded onto an elastic cord, illustrating the jewelry-making process.

5.3. Finishing Your Jewelry

1. **Tie the Knot:** Once satisfied with the length and design, remove the temporary knot/tape. Bring the two ends of the elastic cord together and tie a secure double knot. Pull tightly to ensure the knot is firm.
2. **Secure the Knot (Optional):** For added security, you can apply a tiny dab of clear craft glue to the knot. Allow it to dry completely before wearing.
3. **Trim Excess Cord:** Carefully trim any excess elastic cord close to the knot, leaving a small tail.

(about 1-2 mm) to prevent it from unraveling.

4. **For Earrings:** Use open rings to attach your beaded designs to the earring hooks. Close the open rings securely with pliers (not included).

6. MAINTENANCE

- **Cleaning:** The storage case can be wiped clean with a damp cloth. Avoid harsh chemicals. Beads generally do not require cleaning, but if necessary, a soft, dry cloth can be used.
- **Storage:** Always store beads and components in the provided storage case to keep them organized

and prevent loss. Keep the kit away from direct sunlight and extreme temperatures to preserve the quality of the elastic cord and bead colors.

- **Elastic Cord Care:** Over time, elastic cord can lose its stretch. If your jewelry becomes loose, you can re-string it with new elastic cord.

7. TROUBLESHOOTING

- **Beads not sliding easily:** Ensure the elastic cord is not frayed. If beads are stuck, gently push them through.
- **Knot unraveling:** Ensure you are tying a secure double knot and pulling it tight. A small dab of clear craft glue can help secure the knot permanently.
- **Elastic cord breaking:** This can happen with wear and tear. Simply re-string your beads onto a new piece of elastic cord.
- **Missing components:** If you believe any essential components are missing from your kit upon opening, please contact Make It Real customer support.

8. SPECIFICATIONS

Model Number: 1741

Product Dimensions (L x W x H): 24 x 3.61 x 23.01 cm (9.45 x 1.42 x 9.06 inches)

Item Weight: 300 Grams (0.66 lbs)

Recommended Age: 8 years and up

Main Materials: Plastic, Metal, Stainless Steel

Color: Multicolor
