

## Linkind A19

# Linkind A19 LED Light Bulb User Manual

Model: A19 | Brand: Linkind

## 1. INTRODUCTION

Thank you for choosing Linkind A19 LED Light Bulbs. These energy-efficient, non-dimmable bulbs are designed to provide reliable and high-quality illumination for your indoor spaces. This manual provides essential information for safe installation, operation, and maintenance of your new LED bulbs.

Image 1.1: A pack of six Linkind A19 LED light bulbs.

## 2. SAFETY INFORMATION

- **Non-Dimmable:** These bulbs are **NOT DIMMABLE**. Do not use them with dimmer switches, as this may cause damage to the bulb or the dimmer.
- **Indoor Use Only:** These bulbs are designed for indoor use in dry locations. Do not expose to water or use in wet environments.
- **Voltage:** Ensure the power supply voltage is 120 Volts, 60 Hertz, which is standard for residential use in North America.
- **Installation:** Always turn off the power to the fixture before installing or removing the bulb.
- **UL Listed:** These bulbs are UL Listed, ensuring they meet high safety and quality standards.
- **Disposal:** Dispose of used bulbs according to local regulations.

# Non-Dimmable

The LED bulbs are **NOT DIMMABLE**.  
Please don't use them with  
dimmer switches.

## 3. PRODUCT FEATURES

The Linkind A19 LED Light Bulbs offer several advantages for your lighting needs:

- **Energy Efficiency:** Replaces traditional 60W incandescent bulbs with only 9W of power consumption, saving up to 85% on electricity costs.
- **Long Lifespan:** Designed to last up to 15,000 hours, significantly reducing the frequency of bulb replacement.
- **Warm White Light:** Emits 800 lumens of 3000K warm white light, creating a comfortable and inviting atmosphere.
- **High Color Rendering Index (CRI):** With a CRI of 80+, these bulbs render colors vividly and naturally.
- **Flicker-Free & Eye Protection:** Provides stable, non-flickering light with zero harsh glares to prevent eye fatigue.
- **Instant On:** Achieves full brightness immediately without any delay.
- **Standard Base:** Features an E26 standard medium screw base for easy installation in most fixtures.

## 4. SETUP AND INSTALLATION

Installing your Linkind A19 LED Light Bulb is a simple process:

1. **Turn Off Power:** Before replacing any bulb, ensure the power to the light fixture is turned off at the switch and, if necessary, at the circuit breaker.
2. **Remove Old Bulb:** Carefully unscrew the existing bulb from the fixture. Allow it to cool if it has been recently in use.
3. **Install New Bulb:** Screw the Linkind A19 LED bulb into the E26 standard base socket until it is snug. Do not overtighten.
4. **Restore Power:** Turn the power back on at the switch or circuit breaker.
5. **Test:** Turn on the light switch to confirm the bulb is working correctly.

## 5. OPERATION

Operating your Linkind A19 LED Light Bulb is straightforward:

- Simply use your existing light switch to turn the bulb on or off.
- The bulb will illuminate instantly to full brightness without any warm-up period.
- As these bulbs are non-dimmable, they are not compatible with dimmer switches. Using them with a dimmer may result in flickering, buzzing, or damage to the bulb.

## 6. MAINTENANCE

Linkind A19 LED Light Bulbs require minimal maintenance due to their long lifespan and durable construction:

- **Cleaning:** To clean the bulb, ensure the power is off and the bulb is cool. Wipe gently with a soft, dry cloth. Do not use liquid cleaners or abrasive materials.
- **Replacement:** With a lifespan of 15,000 hours, frequent replacement is not necessary. Replace the bulb only when it reaches the end of its operational life.

## 7. TROUBLESHOOTING

If you encounter issues with your Linkind A19 LED Light Bulb, refer to the following common solutions:

| Problem                 | Possible Cause   | Solution  |
|-------------------------|--|---|
| Bulb does not light up  | No power to the fixture; Bulb not screwed in properly; Defective bulb. | Check power switch and circuit breaker. Ensure bulb is securely screwed into the socket. Test bulb in a known working fixture.                                |
| Bulb flickers or buzzes | Used with a dimmer switch; Loose connection; Incompatible fixture.     | <b>These bulbs are non-dimmable. Do not use with dimmer switches.</b> Ensure the bulb is tightly screwed in. Verify the fixture is compatible with LED bulbs. |

| Problem                 | Possible Cause                              | Solution   |
|-------------------------|---|--|
| Light output is too low | Incorrect bulb type for desired brightness. | Confirm the bulb's lumen output (800 lumens) meets your lighting requirements. |
