OPERATING INSTRUCTIONS

Using the Storage Drawers

The Allewie bed frame includes four under-bed storage drawers. These drawers are designed with smooth wheels for easy access and built-in latches to securely fix them in place when closed.

- To open a drawer: Gently pull the drawer front outwards. The wheels will allow it to glide smoothly.
- To close a drawer: Push the drawer inwards until it aligns with the bed frame. Ensure the built-in latch engages to keep the drawer securely closed.
- The wingback headboard design ensures sufficient space for nightstands without obstructing the drawer's operation.

Thoughtful Design

16" wingback leave enough space for nightstands,
no effect pulling out drawers.

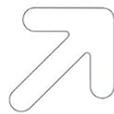

Image: This image illustrates the thoughtful design of the bed frame, showing a 16-inch space between the wingback and the drawer, allowing for nightstand placement without hindering drawer access.

MAINTENANCE

To maintain the appearance and longevity of your bed frame, wipe it with a dry cloth as needed. Avoid using harsh chemicals or abrasive cleaners.

TROUBLESHOOTING

- **Squeaking Noises:** If you notice any squeaking, check all assembly bolts and screws and tighten them securely. Ensure the wooden slats are properly seated in their holders.
- **Drawer Sticking:** If a drawer is difficult to open or close, check for any obstructions underneath or around the wheels. Ensure the wheels are clean and free of debris.
- **Stability Issues:** If the bed frame feels unstable, re-check all connections and ensure they are fully tightened according to the assembly instructions.
