

## Orbegozo VT1230

# Orbegozo VT1230 12-Bottle Wine Cooler User Manual

Model: VT1230

## 1. INTRODUCTION

---

This manual provides essential information for the safe and efficient operation of your Orbegozo VT1230 12-Bottle Wine Cooler. Please read these instructions carefully before using the appliance and retain them for future reference.

The Orbegozo VT1230 wine cooler is designed to preserve wine at its optimal temperature. This appliance ensures ideal conditions for temperature, light, and humidity, contributing to the proper storage of your wine collection.

## 2. SAFETY INSTRUCTIONS

---

- Ensure the appliance is connected to a properly grounded electrical outlet (230V - 50Hz).
- Do not operate the appliance with a damaged power cord or plug.
- Keep ventilation openings clear of obstructions.
- Do not store explosive substances such as aerosol cans with a flammable propellant in this appliance.
- This appliance is intended for household use only.
- Do not allow children to play with the appliance.
- Unplug the appliance before cleaning or performing any maintenance.
- The refrigerant used is R600a. Handle with care and ensure proper disposal.

## 3. PRODUCT OVERVIEW

---

The Orbegozo VT1230 is a thermoelectric wine cooler with a 31-liter capacity, designed to hold up to 12

standard wine bottles. It features electronic temperature control and a quiet, vibration-free operation.

Image 1: Front view of the Orbegozo VT1230 wine cooler, showcasing its glass door and interior with wine bottles.

Key features include an LCD digital display with a touch control panel for easy temperature adjustment, and an interior LED light designed not to affect wine pigments or tannins. The unit also includes removable chrome shelves for flexible storage.

## 4. SETUP

### 4.1 Unpacking

Carefully remove all packaging materials. Inspect the appliance for any damage incurred during transit. Keep packaging materials out of reach of children.

### 4.2 Placement

Place the wine cooler on a flat, stable surface. Ensure there is adequate ventilation around the unit (at least 10 cm clearance on sides and back). The unit operates quietly and without vibrations, making it suitable for placement in living areas. The adjustable feet allow for leveling the appliance on uneven surfaces.

### 4.3 Initial Cleaning

Before first use, clean the interior and exterior of the wine cooler with a soft cloth and mild detergent. Rinse with clean water and dry thoroughly.

## 4.4 Power Connection

After placement and cleaning, plug the power cord into a grounded electrical outlet. Allow the unit to stand for at least 2 hours before loading bottles to stabilize the cooling system.

# 5. OPERATING INSTRUCTIONS

---

## 5.1 Temperature Control

The wine cooler features an electronic temperature control system with a range of 11°C to 18°C (52°F to 64°F). Use the touch control panel and LCD digital display to set your desired temperature.

- Press the **UP** or **DOWN** arrows on the control panel to adjust the temperature.
- The LCD display will show the current internal temperature.

## 5.2 Interior LED Light

The interior LED light can be turned on or off using the light button on the control panel. This light is designed to illuminate the interior without affecting the quality of your wine.

## 5.3 Temperature Unit Selection

You can switch the temperature display between Celsius (°C) and Fahrenheit (°F) using the dedicated button on the control panel.

## 5.4 Loading Bottles

Arrange bottles on the removable chrome shelves. Ensure bottles are placed securely and do not obstruct the door from closing properly. Avoid overloading the unit to allow for proper air circulation.

# 6. MAINTENANCE

---

## 6.1 Cleaning

Regularly clean the interior and exterior surfaces of the wine cooler with a soft cloth and a mild, non-abrasive cleaner. Do not use harsh chemicals or abrasive pads, as these can damage the surfaces. Ensure the appliance is unplugged before cleaning.

## 6.2 Auto-Defrost Function

The Orbeozo VT1230 is equipped with an auto-defrost function, which automatically manages frost buildup. No manual defrosting is typically required.

## 6.3 General Maintenance

This appliance is designed for minimal maintenance. Periodically check the power cord for any signs of damage and ensure ventilation openings are clear.

# 7. TROUBLESHOOTING

---

If you encounter issues with your wine cooler, please refer to the following common problems and solutions:

- **Appliance does not turn on:** Check if the power cord is securely plugged into a working electrical outlet.

Verify the circuit breaker.

- **Temperature is not maintained:** Ensure the door is closed properly and the seal is intact. Check if the ambient room temperature is within the recommended operating range for the appliance. Avoid placing the unit in direct sunlight or near heat sources. Ensure adequate ventilation around the unit.
- **Excessive noise or vibration:** Ensure the appliance is placed on a level surface and the adjustable feet are properly adjusted.
- **Interior light not working:** Check if the light function is activated via the control panel.

If problems persist after attempting these solutions, please contact customer support or a qualified technician.

## 8. SPECIFICATIONS
