

Lawdiey LRF-2 Molds-US

Lawdiey Christmas Tree Silicone Molds User Manual

Model: **LRF-2 Molds-US**

Brand: **Lawdiey**

1. INTRODUCTION

Thank you for choosing the Lawdiey 2 Pack Christmas Tree Silicone Molds. These versatile molds, accompanied by two silicone gloves, are designed to bring festive cheer to your baking and crafting projects. Made from food-grade silicone, they are perfect for creating a variety of treats and crafts in a delightful Christmas tree shape.

2. PRODUCT FEATURES

- **Festive Design:** Each mold features 6 cavities in a classic Christmas tree shape, colored in vibrant red and green.
- **Versatile Use:** Ideal for making chocolates, candies, cookies, fondants, gummy treats, jelly, ice cubes, crayons, and even soap or other DIY crafts.
- **Food-Grade Silicone:** Constructed from high-quality, non-stick, and durable food-grade silicone material.
- **Temperature Resistant:** Safe for use across a wide temperature range, from -40°C to 230°C (-40°F to 446°F).
- **Easy to Clean:** Non-stick surface ensures easy release and simple cleanup.
- **Includes Silicone Gloves:** Comes with two mini silicone gloves for safe handling of hot or cold items.

3. PACKAGE CONTENTS

Your Lawdiey Christmas Tree Silicone Molds package includes:

- 1 x Green Christmas Tree Silicone Mold
- 1 x Red Christmas Tree Silicone Mold
- 2 x Red Silicone Gloves

4. SETUP & FIRST USE

1. **Initial Cleaning:** Before first use, thoroughly wash the silicone molds and gloves with warm soapy water. Rinse well and dry completely.
2. **Conditioning (Molds Only):** For the very first use, it is recommended to apply a thin layer of butter or cooking oil to the inside of the mold cavities. This step helps prolong the mold's lifespan and ensures optimal non-stick performance. This conditioning is generally not required for subsequent uses.
3. **Placement:** Place the silicone mold on a baking sheet or stable surface before filling to ensure easy transfer to the oven or refrigerator.

5. OPERATING INSTRUCTIONS

Using the Silicone Molds:

The molds are suitable for a variety of applications:

- **Baking:** Fill cavities with cake batter, cookie dough, or fondant. Bake according to your recipe's instructions, ensuring the baking temperature does not exceed 230°C (446°F).
- **Chocolates & Candies:** Pour melted chocolate or candy mixture into the cavities. Allow to cool and solidify completely before demolding.
- **Jelly & Gummy:** Fill with prepared jelly or gummy mixture. Refrigerate until firm.
- **Ice Cubes:** Fill with water or juice and freeze until solid.
- **Soap & Crafts:** Pour your soap base or craft material into the molds. Allow to set completely before removing.

Using the Silicone Gloves:

The included mini silicone gloves are designed for handling hot or cold items, such as removing small baking trays from the oven, gripping hot pot handles, or retrieving items from the microwave.

Image: Demonstrations of the silicone gloves in use for handling hot bakeware and dishes.

6. MAINTENANCE & CARE

- **Cleaning:** Wash the molds and gloves with warm soapy water after each use. They are also dishwasher safe.
- **Drying:** Ensure all items are completely dry before storing to prevent water spots or residue buildup.
- **Storage:** Store in a clean, dry place away from direct sunlight. Silicone is flexible, but avoid sharp objects that could puncture or tear the material.

7. SAFETY PRECAUTIONS

- **Temperature Limits:** Do not exceed the maximum temperature of 230°C (446°F) when baking.
- **Avoid Direct Heat:** Do not place the molds directly on gas burners, electric stovetops, heating trays, or under a barbecue grill. They are not suitable for direct fire contact.
- **No Empty Cavities:** Avoid baking with empty mold slots, as this can potentially damage the mold over time.
- **Thermal Shock:** To extend the lifespan of the molds, avoid rinsing them with cold water immediately after removing them from a hot oven. Allow them to cool slightly first.
- **Sharp Objects:** Do not use sharp utensils or abrasive cleaners on the silicone molds or gloves, as this can damage the surface.

8. SPECIFICATIONS

Attribute	Detail
-----------	--------

Attribute	Detail
Brand	Lawdiey
Model Number	LRF-2 Molds-US
Material	Food Grade Silicone
Color	Red & Green (Molds), Red (Gloves)
Mold Dimensions (each)	25 x 17.5 x 3 cm (9.8 x 6.8 x 1.2 inches)
Glove Dimensions (each)	8.5 x 11 cm (4.3 x 3.4 inches)
Temperature Safe Range	-40°C to 230°C (-40°F to 446°F)
Number of Pieces	2 Molds, 2 Gloves (Total 4 pieces)
Item Weight	8.8 ounces

9. TROUBLESHOOTING

- **Difficulty Demolding:** Ensure the item is fully cooled or frozen before attempting to remove it. For baked goods, allow to cool slightly before inverting. For frozen items, a quick rinse of the mold's exterior with warm water can help.
- **Odor Retention:** Silicone can sometimes absorb odors. To remove, soak the mold in a solution of white vinegar and water (1:1 ratio) for a few hours, then wash thoroughly.
- **Stains:** For stubborn stains, create a paste with baking soda and water, apply to the stain, let sit for 15-30 minutes, then scrub gently and rinse.

10. WARRANTY AND SUPPORT

For any questions, concerns, or support regarding your Lawdiey Christmas Tree Silicone Molds, please contact Lawdiey customer service through the platform where you purchased the product. Please have your order details and model number (LRF-2 Molds-US) ready for faster assistance.
