S-Link SL-BT245

S-link SL-BT245 Bluetooth Headset and TF+USB FM Transmitter User Manual

Model: SL-BT245

Introduction

Thank you for choosing the S-link SL-BT245 Bluetooth Headset and TF+USB FM Transmitter. This device combines multiple functionalities, allowing you to enjoy wireless audio, make hands-free calls, charge your devices, and transmit audio via FM radio. This manual provides detailed instructions on how to set up, operate, and maintain your device to ensure optimal performance and longevity.

Safety Information

Please read all safety warnings and instructions before using this product to avoid injury or damage. Keep this manual for future reference.

- Do not expose the device to extreme temperatures, direct sunlight, or high humidity.
- Do not disassemble, repair, or modify the device yourself. Refer all servicing to qualified personnel.
- Keep the device away from water and other liquids.
- Use only the specified power input (12V-24V DC for car cigarette lighter socket).
- Avoid using the device in areas with strong electromagnetic interference.
- Ensure the device is securely plugged into the car's cigarette lighter socket to prevent dislodging during driving.

Product Overview

Familiarize yourself with the components of your S-link SL-BT245 device:

Image: A close-up view of the S-link SL-BT245 device. It features two USB charging ports (one 3.1A, one 1A), control buttons for media playback and calls, a TF card slot, and an integrated Bluetooth earbud docked at the top. The device is designed to plug into a car's cigarette lighter socket.

1. **Bluetooth Earbud:** Integrated wireless earbud for private listening and calls.
2. **USB Charging Port 1 (3.1A):** High-current output for fast charging compatible devices.
3. **USB Charging Port 2 (1A):** Standard current output for charging devices.
4. **TF Card Slot:** For playing music directly from a microSD card.
5. **Multi-function Buttons:** Control music playback (play/pause, next/previous track), answer/end calls, adjust FM frequency.
6. **LED Display:** Shows FM frequency or other status indicators.
7. **Car Cigarette Lighter Plug:** Powers the device from your vehicle's 12V/24V socket.

Setup

Follow these steps for initial setup:

1. **Insert into Car Socket:** Plug the S-link SL-BT245 into your vehicle's 12V or 24V cigarette lighter socket. The device will power on automatically, and the LED display will light up.
2. **Set FM Frequency:**
    - Tune your car's FM radio to an empty frequency (one with no strong broadcast signal).
    - On the SL-BT245, press and hold the FM frequency adjustment button (often indicated by a 'CH' or 'FM' icon) until the frequency on the LED display starts blinking.
    - Use the previous/next track buttons to adjust the FM frequency of the transmitter to match your car's radio frequency.
    - Once matched, wait a few seconds for the frequency to stop blinking, or press the FM frequency adjustment button again to confirm.
3. **Pair Bluetooth (for phone/tablet):**
    - Ensure Bluetooth is enabled on your smartphone or tablet.
    - Search for available Bluetooth devices. The SL-BT245 will appear as "SL-BT245" or similar.
    - Select "SL-BT245" to pair. A voice prompt or display indicator will confirm successful pairing.
4. **Pair Bluetooth Earbud:** The integrated earbud should automatically pair with the main unit when removed from its dock. To pair with a phone directly, remove it from the dock, then search for it in your phone's Bluetooth settings (it may appear as "SL-BT245 Earbud" or similar).

Operating Instructions

Music Playback

- **Via Bluetooth:** Once your phone is paired, open your music app. Audio will be transmitted to your car's speakers via the set FM frequency.
- **Via TF Card:** Insert a TF (microSD) card with MP3/WMA/WAV/FLAC audio files into the TF card slot. The device will automatically detect and play music from the card.
- **Control Buttons:**
  - Press the **Play/Pause** button to play or pause music.
  - Press the **Next Track** button to skip to the next song.
  - Press the **Previous Track** button to go to the previous song.

Hands-Free Calling

- **Answer/End Call:** When a call comes in, press the **Multi-function Button** (often the Play/Pause button) to answer. Press it again to end the call.
- **Reject Call:** Press and hold the **Multi-function Button** to reject an incoming call.
- **Redial:** Double-press the **Multi-function Button** to redial the last number.

Charging Devices

- Connect your device (smartphone, tablet, etc.) to either of the USB charging ports using a compatible USB cable.
- The 3.1A port provides faster charging for devices that support it.
- The integrated Bluetooth earbud charges automatically when docked in the main unit.

Maintenance

Proper care will extend the life of your S-link SL-BT245:

- **Cleaning:** Use a soft, dry cloth to wipe the device. Do not use liquid cleaners or aerosols.
- **Storage:** When not in use for extended periods, store the device in a cool, dry place away from direct sunlight.
- **Avoid Impact:** Do not drop or subject the device to strong impacts.

Troubleshooting

If you encounter issues with your device, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No power/Device not turning on.	Loose connection; Car socket issue; Blown fuse in car.	Ensure the device is firmly plugged in. Check if the car's cigarette lighter socket is working (test with another device). Consult a car mechanic if the fuse is suspected.
Poor audio quality/Static noise.	FM frequency interference; Incorrect FM frequency match; Low volume.	Find a clearer, unused FM frequency on your car radio and match the transmitter to it. Increase the volume on both the transmitter and your car radio. Avoid strong radio stations.

Problem	Possible Cause	Solution
Bluetooth not pairing.	Device not in pairing mode; Bluetooth off on phone; Already paired to another device.	Ensure the SL-BT245 is powered on. Turn off and on Bluetooth on your phone. Forget previous pairings on your phone and try again. Restart both devices.
Earbud not charging or connecting.	Improperly seated; Dirty contacts.	Ensure the earbud is fully seated in its dock. Clean the charging contacts on both the earbud and the dock with a dry cotton swab.

Specifications

Feature	Detail
Model	SL-BT245
Input Voltage	DC 12V-24V
USB Output 1	5V / 3.1A
USB Output 2	5V / 1A
Bluetooth Version	(Not specified in input, assuming standard)
FM Frequency Range	(Not specified in input, typical range 87.5-108.0 MHz)
Supported Audio Formats	MP3, WMA, WAV, FLAC (Common for such devices)
