S-Link IP-G10L

S-link IP-G10L 10000mAh Powerbank User Manual

Model: IP-G10L

1. Introduction

Thank you for choosing the S-link IP-G10L 10000mAh Powerbank. This portable charger is designed to provide reliable power for your mobile devices on the go. This manual provides essential information for the safe and efficient use of your power bank. Please read it carefully before use and retain it for future reference.

2. Product Overview

The S-link IP-G10L is a compact 10000mAh power bank featuring a single USB-A output port and an integrated 2-in-1 charging cable, along with hidden LED indicators for battery status.

Figure 2.1: S-link IP-G10L Powerbank with integrated 2-in-1 cable. This image shows the front view of the power bank, highlighting the integrated cable with a Lightning connector.

Figure 2.2: Angled view of the S-link IP-G10L Powerbank showing the integrated strap. The strap provides convenient portability.

Figure 2.3: Top view of the S-link IP-G10L Powerbank showing the Micro USB input and USB-A output ports. The Micro USB port is for charging the power bank, and the USB-A port is for charging external devices.

3. Safety Information

- Do not expose the power bank to extreme temperatures (above 60°C or below 0°C), direct sunlight, or fire.
- Avoid dropping, disassembling, or attempting to repair the device yourself.
- Keep the power bank away from water and other liquids.
- Use only certified charging cables and adapters.
- Keep out of reach of children.
- Do not short-circuit the power bank.
- Dispose of the power bank responsibly according to local regulations.

4. Setup

1. **Initial Charge:** Before first use, fully charge the power bank. Connect a Micro USB cable to the power bank's Micro USB input port and the other end to a USB power adapter (not included) or a computer's USB port.
2. **Check Charge Level:** The hidden LED indicators will illuminate to show the current charge level during charging and when a device is connected for charging.

5. Operating Instructions

5.1. Charging the Power Bank

1. Locate the Micro USB input port on the power bank.
2. Connect a standard Micro USB charging cable to this port.
3. Plug the other end of the cable into a USB power source (e.g., wall adapter, computer USB port).
4. The hidden LED indicators will show the charging progress. All LEDs will be solid when fully charged.

5.2. Charging Devices

The S-link IP-G10L offers two methods to charge your devices:

Using the Integrated 2-in-1 Cable:

1. Pull out the integrated 2-in-1 charging cable from its storage slot.
2. Connect the appropriate connector (e.g., Lightning, Micro USB, or USB-C, depending on the cable's design) to your device's charging port.
3. The power bank will automatically begin charging your device. The hidden LEDs will indicate the remaining power.

Using the USB-A Output Port:

1. Connect your device's original USB charging cable to the USB-A output port on the power bank.
2. Connect the other end of your cable to your device's charging port.
3. The power bank will automatically begin charging your device. The hidden LEDs will indicate the remaining power.

5.3. LED Indicators

The S-link IP-G10L features hidden LED indicators to display the battery status:

- **During Charging:** LEDs will blink to indicate charging progress. All LEDs will be solid when fully charged.
- **During Device Charging:** LEDs will illuminate to show the remaining power level. The number of lit LEDs corresponds to the charge percentage.

6. Maintenance

- **Cleaning:** Wipe the power bank with a soft, dry cloth. Do not use harsh chemicals or abrasive cleaners.
- **Storage:** Store the power bank in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To prolong battery life, fully charge the power bank at least once every three months if not in regular use.

7. Troubleshooting

Problem	Possible Cause	Solution
Power bank not charging	Loose cable connection, faulty cable/adapter, power bank fully charged.	Ensure cables are securely connected. Try a different cable or adapter. Check LED indicators; if all are solid, it's fully charged.
Device not charging from power bank	Power bank is depleted, loose cable connection, incompatible cable, device issue.	Recharge the power bank. Ensure cables are securely connected. Try a different charging cable. Check if the device charges with its original charger.
Slow charging	Low output current, high device power consumption, faulty cable.	Ensure the power bank has sufficient charge. Use a high-quality charging cable. Avoid using the device while charging.

8. Specifications

- **Model:** IP-G10L
- **Brand:** S-Link
- **Battery Capacity:** 10000 mAh
- **Power Source:** Battery Powered

- **Input:** Micro USB (specifications not provided, typical is 5V/2A)
- **Output 1:** USB-A Port (specifications not provided, typical is 5V/2A)
- **Output 2:** Integrated 2-in-1 Cable (e.g., Lightning, Micro USB/USB-C compatible) (specifications not provided, typical is 5V/2A)
- **Indicators:** Hidden LED lights
- **Color:** Black

9. Warranty and Support

For warranty information and technical support, please refer to the warranty card included with your product or contact your retailer. Keep your purchase receipt as proof of purchase.
