Loftie LAMP_WHITE

Loftie Smart Lamp User Manual

Model: LAMP_WHITE

Introduction

The Loftie Smart Lamp is designed to enhance your sleep and wake routines through natural light and customizable settings. It features a sunrise alarm to gently wake you, a sunset wind-down mode for evening relaxation, and red light options to support melatonin production. This lamp is engineered to help regulate your body's circadian rhythm, promoting overall well-being.

Setup

1. **Unpack the Lamp:** Carefully remove the Loftie Smart Lamp from its packaging. Ensure all components, including the bulb, are present.
2. **Plug In:** Connect the power cord to the lamp and then plug it into a standard electrical outlet.
3. **Download the App:** Download the free Loftie companion app from the Apple App Store (for iOS devices) or Google Play Store (for Android devices).
4. **Connect to Wi-Fi:** Follow the in-app instructions to connect your Loftie Smart Lamp to your home Wi-Fi network. This step is essential for accessing all smart features and customization options.

Operating Instructions

Sunrise Alarm

The sunrise alarm feature gradually increases light intensity, mimicking a natural sunrise. This gentle illumination helps to naturally suppress melatonin production and prepare your body for waking. Set your desired wake-up time and light duration through the Loftie app.

Sunset Wind-Down

Activate the sunset wind-down mode to gradually dim the light, easing you into your evening routine. This feature supports a smooth transition from day to night, promoting relaxation before sleep. Customize the duration and light intensity via the Loftie app.

Red Light for Sleep

The Loftie Smart Lamp includes a red light setting designed to increase natural melatonin production, which is beneficial for sleep. Access this mode through the app or preset controls.

Custom Color Modes

The lamp offers various preset modes (e.g., day, night, reading) and allows for custom color creation. Use the Loftie app to select or design light colors that match your preferences and mood.

App Control

The free Loftie companion app provides comprehensive control over your lamp. Use it to set alarms, pre-program light settings, adjust brightness, and manage all smart features. The app is available for both iOS and Android devices.

Maintenance

- **Cleaning:** Disconnect the lamp from power before cleaning. Use a soft, dry cloth to wipe the exterior surfaces. Avoid abrasive cleaners or solvents.
- **Bulb Replacement:** The Loftie Smart Lamp uses an LED bulb. If replacement is ever needed, ensure the lamp is unplugged and refer to the app or Loftie support for compatible bulb types and replacement instructions.
- **Software Updates:** Keep your Loftie app updated to ensure optimal performance and access to new features. The lamp's firmware may also receive updates via the app.

Troubleshooting

- **Lamp Not Turning On:** Ensure the power cord is securely plugged into both the lamp and a working electrical outlet. Check if the outlet is receiving power.
- **App Connectivity Issues:** Verify that your Wi-Fi network is active and the lamp is within range. Restart both the lamp and your mobile device, then attempt to reconnect via the app.
- **Light Not Changing Colors:** Confirm that the app is connected to the lamp and that you have selected a valid color mode or custom setting.
- **Alarm Not Sounding/Lighting:** Double-check alarm settings within the Loftie app, ensuring the alarm is enabled and set for the correct time.

For further assistance, please refer to the Loftie app's help section or contact customer support.

Specifications

Brand	Loftie
Model Number	LAMP_WHITE
Product Dimensions	9"D x 11.5"W x 16"H
Color	Penny
Material Type	Alloy Steel
Light Source Type	LED
Power Source	Corded Electric
Included Components	Bulb
UPC	850070873673
