Nautica Home Cloud Supreme 20" Queen Air Mattress Instruction Manual

Model: MM10417QN

INTRODUCTION

The Nautica Home Cloud Supreme 20" Raised Queen Air Mattress is designed to provide a luxurious and comfortable sleeping experience. Featuring a premium quilted pillowtop cover made from innovative CoolTek fabric, this air mattress offers superior support with its unique offset coil design, built-in edge support, and a stable no-tip base. The integrated 120V pump allows for quick inflation and deflation, making it ideal for guests, travel, or camping. This manual provides essential information for the proper setup, operation, and maintenance of your air mattress.

SAFETY INFORMATION

Please read all safety instructions before using the air mattress to prevent injury or damage.

- Do not overinflate the mattress. Overinflation can cause bursting and potential injury.
- Keep the mattress away from sharp objects, heat sources, and open flames.
- Ensure the mattress is placed on a flat, clear surface free of debris.
- This air mattress is designed to support up to **800 pounds**. Do not exceed this weight limit.
- Do not allow children to jump on the mattress.
- Unplug the pump when not in use and before cleaning.

PACKAGE CONTENTS

Verify that all items are present in your package:

- Nautica Home Cloud Supreme 20" Queen Air Mattress with Built-in Pump
- Zip-Off Quilted Pillowtop Cover
- Carry Bag

SETUP

Follow these steps for initial setup and inflation:

1. Unroll the air mattress on a clean, flat surface. Ensure there are no sharp objects underneath.
2. Locate the built-in 120V pump on the side of the mattress.
3. Plug the pump into a standard electrical outlet.
4. Turn the pump dial to the "INFLATE" position. The mattress will begin to inflate automatically. Inflation typically takes approximately **2 minutes**.
5. Once the desired firmness is reached, turn the dial to the "OFF" position and unplug the pump.
6. *Note:* The vinyl material may stretch during the first few uses. It is normal to add more air during the first 1-2 days to maintain desired firmness.

OPERATING

Using your Nautica Home Cloud Supreme Air Mattress:

- **Adjusting Firmness:** If the mattress feels too soft, simply turn the pump dial to "INFLATE" for a few seconds until the desired firmness is achieved.
- **Deflation:** To deflate the mattress, plug in the pump and turn the dial to the "DEFLATE" position. The pump will rapidly remove air from the mattress. Once fully deflated, turn the dial to "OFF" and unplug.

MAINTENANCE

Proper care ensures the longevity of your air mattress:

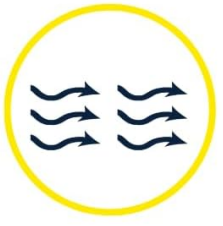

- **Cleaning the Mattress:** The mattress surface can be wiped clean with a damp cloth and mild soap. Do not submerge the mattress in water.
- **Cleaning the Pillowtop Cover:** The quilted pillowtop cover is **machine washable**. Zip off the cover and follow the care instructions on the label.
- **Storage:** Ensure the mattress is completely deflated and dry before folding. Fold the mattress neatly and place it into the included carry bag. Store in a cool, dry place away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

If you encounter issues with your air mattress, refer to the following common problems and solutions:

- **Mattress is losing air:**

- Ensure the pump dial is fully in the "OFF" position and the pump cap is securely closed.
- Check for punctures or small holes on the mattress surface. Small holes can sometimes be repaired with a vinyl repair kit (not included).
- Remember that initial stretching of the vinyl is normal and may require additional air during the first few uses.

- **Pump is not working:**

- Verify that the power cord is securely plugged into a working electrical outlet.
- Check your household circuit breaker if the outlet is not providing power.

SPECIFICATIONS

Feature	Detail
Brand	Nautica
Model Name	Cloud Supreme
Model Number	MM10417QN
