## EAGLE PEAK Straight Leg Canopies

# EAGLE PEAK 8x8 Pop Up Canopy Tent Instruction Manual

Model: Straight Leg Canopies  
Brand: EAGLE PEAK

### PRODUCT OVERVIEW

The EAGLE PEAK 8x8 Pop Up Canopy Tent is designed for instant outdoor shelter, featuring an easy setup mechanism and a portable design. This straight leg folding shelter includes a wheeled bag for convenient transport, 8 stakes, and 4 ropes for secure anchoring.

Figure 1: EAGLE PEAK 8x8 Pop Up Canopy Tent, showing the fully assembled canopy, folded frame, and wheeled carrying bag.

Key features include the Peak Push system for single-person setup, a durable steel frame with powder coating, CPAI-84 flame resistant and water-resistant 150D oxford fabric with UPF 50+ UV protection, and a vented top for improved airflow. The canopy offers three height settings for versatile use.

## SETUP INSTRUCTIONS

Setting up your EAGLE PEAK canopy tent is designed to be quick and easy, often achievable by one person thanks to the patented Peak Push system.

1. **Unpack the Canopy:** Remove the canopy frame and top from the wheeled carrying bag.
2. **Partially Open the Frame:** With the frame on the ground, partially extend it to about half its full width.
3. **Attach the Canopy Top:** Place the canopy fabric over the partially opened frame. Ensure the corners of the fabric align with the frame's corners. Secure the canopy top to the frame using the integrated Velcro straps.
4. **Fully Extend the Frame:** From the center, push up on the Peak Push system until it locks into place. This will fully extend the canopy frame.
5. **Adjust Height:** Extend each leg to your desired height setting. The canopy offers three height options: high (8.47 ft), medium (8.14 ft), and low (7.81 ft). Use the pinch-free buttons on each leg to adjust and lock the height.

6. **Secure the Canopy:** For stability, especially in windy conditions, use the provided guy ropes and steel stakes to anchor the canopy to the ground. Attach ropes to the designated points on the canopy and stake them firmly into the ground.

## OPERATING YOUR CANOPY

The EAGLE PEAK canopy is designed for versatile outdoor use, providing shade and shelter. Its features enhance comfort and usability.

- **Height Adjustment:** Utilize the three available height settings (high, medium, low) to adapt the canopy to different environments or preferences. This allows for optimal head clearance and sun protection throughout the day.
- **Vented Top:** The integrated vent at the top of the canopy promotes airflow, reducing heat buildup underneath and enhancing stability by allowing wind to pass through.
- **UV Protection:** The 150D oxford fabric canopy top provides superior UPF 50+ UV sun protection, shielding

occupants from harmful ultraviolet rays.

- **Water Resistance:** The canopy fabric is water-resistant, offering protection from light rain or drizzles. For heavy rain, additional waterproofing measures or prompt takedown is recommended.

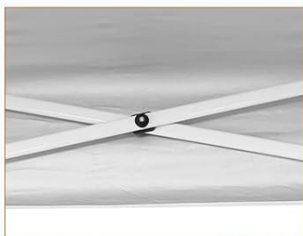

# PRODUCT FEATURES

Vented Peak for Ventilation

Easy Set up Peak Push Lock

Heavy-duty Eave Connection

Pinch Free Button

Strong Webbing

Figure 4: Key product features including the vented peak for ventilation, the easy setup Peak Push Lock mechanism, heavy-duty eave connections, pinch-free buttons for leg adjustment, and strong webbing for durability.

Figure 5: Illustration of the air vents on the canopy top, designed to allow good ventilation and improve stability by reducing wind resistance.

## MAINTENANCE AND CARE

Proper maintenance ensures the longevity and optimal performance of your EAGLE PEAK canopy tent.

- **Cleaning:** Clean the canopy fabric with mild soap and water. Do not use harsh detergents or abrasive cleaners, as they can damage the fabric's water-resistant and UV-protective coatings. Allow the fabric to air dry completely before folding and storing.
- **Frame Care:** Inspect the steel frame regularly for any signs of rust or damage. The powder coating helps prevent corrosion, but minor scratches should be touched up to maintain protection. Keep moving parts clean and lubricated if necessary.
- **Storage:** Always store the canopy in its wheeled carrying bag in a dry, cool place away from direct sunlight when not in use. Ensure the canopy fabric is completely dry to prevent mold and mildew growth.

- **Anchoring Accessories:** Check stakes and ropes for wear and tear. Replace any damaged components to ensure secure anchoring during future use.

## TROUBLESHOOTING AND SAFETY GUIDELINES

Adhering to safety guidelines and understanding common issues can enhance your experience with the canopy.

### Common Issues:

- **Difficulty Extending/Retracting Frame:** Ensure all leg locking mechanisms are disengaged before attempting to extend or retract the frame. Apply even pressure when pushing up on the center lock. If the frame is stiff, check for any obstructions or debris in the joints.

- **Canopy Instability in Wind:** Always use the provided stakes and guy ropes to secure the canopy, even in light breezes. For stronger winds, consider using additional weight bags (not included) on each leg. Never leave the canopy unattended in severe weather conditions.
- **Water Pooling on Top:** While water-resistant, prolonged heavy rain can cause water to pool. Ensure the canopy is properly tensioned and consider tilting one side slightly to allow water runoff if expecting heavy precipitation.

### Safety Warnings:

- Do not use the canopy in extreme weather conditions, including heavy winds, thunderstorms, or snow.
- Always properly anchor the canopy to the ground using stakes and ropes.
- Keep all flame and heat sources away from the canopy fabric. The fabric is flame-resistant but not fireproof.
- Ensure proper ventilation when using the canopy in enclosed spaces or with heat-generating appliances.
- Supervise children and pets around the canopy.

## PRODUCT SPECIFICATIONS

### EAGLE PEAK 8x8 Pop Up Canopy Tent Specifications

<b>Brand</b>	EAGLE PEAK
<b>Model Number</b>	Straight Leg Canopies
<b>Material</b>	Polyester, Alloy Steel
<b>Color</b>	White
<b>Item Weight</b>	26.9 Pounds
<b>Product Dimensions</b>	96"L x 96"W x 102"H (8'L x 8'W x 8.5'H)
<b>Coverage Area</b>	8x8 feet (64 sq ft)
<b>UV Protection</b>	UPF 50+
<b>Water Resistance Level</b>	Water Resistant
<b>Height Settings</b>	3 (High: 8.47 ft, Medium: 8.14 ft, Low: 7.81 ft)
<b>Assembly Required</b>	Yes
<b>Included Accessories</b>	Wheeled Bag, 8 Steel Stakes, 4 Guy Ropes
