### Pure Enrichment PEHUMGRY-WG

# Pure Enrichment PureBaby Ultrasonic Cool Mist Humidifier & Soft Glow Night Light Instruction Manual

**Brand:** Pure Enrichment

**Model:** PEHUMGRY-WG

## INTRODUCTION

---

The Pure Enrichment PureBaby Ultrasonic Cool Mist Humidifier & Soft Glow Night Light is designed to help create a comfortable and soothing environment, especially for baby nurseries and kids' bedrooms. This 2-in-1 device provides cool mist to alleviate dry air symptoms and features an optional soft glow night light for added comfort. Its whisper-quiet operation ensures minimal disturbance.

## KEY FEATURES

---

- **2-in-1 Functionality:** Combines a cool mist humidifier with a soft mist night light.
- **Whisper-Quiet Operation:** Designed for minimal noise, ideal for sleeping environments.
- **Large 1.5L Water Tank:** Provides up to 25 hours of continuous operation on low setting, or 12 hours on high.
- **Adjustable Mist Settings:** Offers two mist output levels (low and high) for customized humidity.
- **360° Mist Nozzle:** Allows for directional misting to target specific areas.
- **Optional Soft Blue Night Light:** Creates a calming ambiance for nurseries.
- **Automatic Shut-Off:** Unit automatically turns off when water level is low or the tank is removed, ensuring safety.
- **Coverage Area:** Effective in spaces up to 250 sq ft.

## SETUP GUIDE

1. **Unpack and Inspect:** Carefully remove all components from the packaging. Ensure all parts are present: humidifier base, water tank, water tank cap, 360° mist nozzle, AC power adapter, and disk cleaning brush. Inspect for any damage.
2. **Place the Humidifier:** Position the humidifier on a firm, flat, waterproof surface at least 12 inches (30 cm) away from walls and furniture. Ensure the surface is not susceptible to water damage.
3. **Identify Components:** Familiarize yourself with the main parts of the humidifier.

#### 4. Fill the Water Tank:

- Remove the water tank from the humidifier base.
- Unscrew the water tank cap from the bottom of the tank.
- Fill the water tank with clean, cool distilled water. Avoid using tap water to prevent mineral buildup.
- Securely screw the water tank cap back onto the tank.

5. **Assemble the Humidifier:** Place the filled water tank back onto the humidifier base, ensuring it is seated correctly.

6. **Connect Power:** Plug the AC power adapter into the humidifier's power port, then plug the adapter into a standard electrical outlet.

## OPERATING INSTRUCTIONS

---

### 1. Power On/Off and Mist Settings:

- Press the power button once to turn on the humidifier to the low mist setting.
- Press the power button a second time for the high mist setting.
- Press the power button a third time to turn the humidifier off.

### 2. Night Light Operation:

- To activate the soft blue night light, press and hold the power button for 2 seconds while the humidifier is running.
- To turn off the night light, press and hold the power button for 2 seconds again.

Figure 3: Humidifier operating with the optional soft blue night light.

- 3. Adjusting Mist Direction:** Rotate the 360° mist nozzle on top of the water tank to direct the mist in your desired direction.

Figure 4: Demonstrates rotating the 360° mist nozzle to direct humidity.

4. **Automatic Shut-Off:** The humidifier will automatically turn off when the water level in the tank is too low or when the water tank is removed from the base. This is a safety feature.

## MAINTENANCE AND CLEANING

Regular cleaning is essential to ensure optimal performance and prevent mineral buildup or mold growth. Always unplug the humidifier before cleaning.

### 1. Daily Maintenance:

- Empty any remaining water from the tank and base.
- Rinse the water tank and base thoroughly with clean water.
- Wipe down all surfaces with a soft, clean cloth.
- Allow all parts to air dry completely before reassembling or storing.

## 2. Weekly Cleaning (Mineral Buildup):

- Mix a solution of equal parts white vinegar and water.
- Pour the solution into the water tank and let it sit for at least 30 minutes to loosen mineral deposits.
- Use the provided disk cleaning brush to gently scrub the ultrasonic disk and other hard-to-reach areas in the base and tank.
- Rinse all components thoroughly with clean water until the vinegar smell is gone.

3. **Storage:** If storing the humidifier for an extended period, ensure all parts are clean and completely dry. Store in a cool, dry place.

## TROUBLESHOOTING

Problem	Possible Cause	Solution
No mist or low mist output	Low water level; Mineral buildup on ultrasonic disk; Water tank not properly seated.	Refill water tank; Clean ultrasonic disk with vinegar solution and brush; Re-seat water tank firmly on base.
Unusual odor from mist	Stagnant water; Mineral buildup or mold.	Empty and clean the water tank and base thoroughly; Use fresh distilled water daily.
Water leaking from base	Water tank cap not secured; Crack in water tank; Humidifier placed on uneven surface.	Ensure water tank cap is tightly screwed; Inspect tank for damage (replace if cracked); Place humidifier on a flat, stable surface.
Night light not working	Not activated correctly.	Press and hold the power button for 2 seconds to toggle the night light.
