

IMEX ANG005

IMEX Wall-Mounted Rectangular PVC Soap Dish - Model ANG005

Instruction Manual

INTRODUCTION

Thank you for choosing the IMEX Wall-Mounted Rectangular PVC Soap Dish, Model ANG005. This manual provides essential information for the safe and correct installation, operation, and maintenance of your new soap dish. Please read these instructions carefully before installation and retain them for future reference.

SAFETY INFORMATION

- Always ensure the mounting surface is suitable and can support the weight of the soap dish and its contents.
- Use appropriate tools for installation.
- Wear safety glasses during drilling to protect your eyes.
- Keep small parts and packaging materials away from children.
- Do not overload the soap dish beyond its intended capacity.

PACKAGE CONTENTS

Please check that all components are present before beginning installation:

- 1 x IMEX Wall-Mounted Rectangular PVC Soap Dish (Model ANG005)
- Mounting hardware (screws, wall anchors)
- Instruction Manual

SETUP AND INSTALLATION

This soap dish is designed for wall-mounted installation using screws. Ensure you have the necessary tools:

- Drill
- Drill bit appropriate for wall anchors
- Screwdriver

- Pencil
- Measuring tape
- Level

Installation Steps:

1. **Choose Location:** Select a suitable location on your bathroom or kitchen wall. Ensure there are no hidden pipes or electrical wires behind the drilling area.
2. **Mark Drilling Points:** Hold the soap dish against the wall at the desired height and use a pencil to mark the positions for the mounting holes. Use a level to ensure the marks are perfectly horizontal.
3. **Drill Holes:** Using the appropriate drill bit, carefully drill holes at the marked points. The depth and diameter of the holes should match the provided wall anchors.
4. **Insert Wall Anchors:** Gently tap the wall anchors into the drilled holes until they are flush with the wall surface.
5. **Mount Soap Dish:** Align the mounting holes of the soap dish with the wall anchors. Insert the screws through the soap dish and into the wall anchors. Tighten the screws firmly until the soap dish is securely fixed to the wall. Do not overtighten.
6. **Verify Stability:** Gently tug on the installed soap dish to ensure it is stable and securely attached before placing items on it.

Note: This product is designed for screw-based wall mounting. Adhesive methods are not recommended for secure installation.

OPERATING INSTRUCTIONS

The IMEX Rectangular PVC Soap Dish is designed to hold soap bars, small bottles, or other bathroom/kitchen essentials. Simply place your items onto the dish. The slatted design allows for water drainage, keeping your items dry and clean.

Figure 1: The IMEX Rectangular PVC Soap Dish in use, holding various bathroom items. The matte black finish complements modern decor, and the open design promotes drainage.

CARE AND MAINTENANCE

To ensure the longevity and appearance of your IMEX soap dish, follow these simple care instructions:

- **Cleaning:** Wipe regularly with a soft, damp cloth. For stubborn stains, use a mild soap solution and rinse thoroughly.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, scouring pads, or strong chemical detergents, as these can damage the PVC material and matte finish.
- **Drying:** Dry with a soft cloth to prevent water spots, especially in hard water areas.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Soap dish feels loose after installation.	Screws not tightened sufficiently, or wall anchors not properly seated.	Ensure screws are tightened firmly. If still loose, remove, check wall anchors, and re-install. If wall anchors are damaged, replace them.
Water pooling in the dish.	Drainage slots are blocked.	Clean the drainage slots to remove any soap residue or debris.

Problem	Possible Cause	Solution
Scratches or damage to the finish.	Use of abrasive cleaners or sharp objects.	Avoid using abrasive materials for cleaning. Handle with care to prevent scratches. Damage to the finish is typically not repairable.

SPECIFICATIONS
