# Beghelli Dom-e Magnetic Key: User Manual

Model: 8002219873422

## 1. PRODUCT OVERVIEW

---

The Beghelli Dom-e Magnetic Key is a compact, wireless, and battery-free accessory designed to enhance the security of your smart home alarm system. It functions as an anti-theft protection device, providing a secure coding system for arming and disarming your Beghelli 60103 central unit. Its robust design ensures it is both waterproof and dustproof, making it suitable for everyday use as a keyring.

This magnetic key integrates seamlessly with the Dom-e application, allowing for advanced management of your security and home automation system, including individual or group device control and customized automations.

## 3. KEY FEATURES

---

- **Compact Design:** Easily attaches to a keyring for convenient portability.
- **Battery-Free Operation:** No batteries required, ensuring continuous functionality without maintenance.
- **Waterproof and Dustproof:** Designed to withstand exposure to water and dust, enhancing durability.
- **Secure Coding System:** Provides reliable and secure authentication for your alarm system.
- **Wireless Connectivity:** Communicates wirelessly with the Beghelli 60103 central unit.
- **Dom-e App Integration:** Allows management and automation through the Beghelli Dom-e smartphone application.

## 4. SETUP AND PAIRING

The Beghelli Dom-e Magnetic Key is designed to work exclusively with the Beghelli 60103 central system. Before using the magnetic key, it must be paired with your central unit.

### 4.1. Compatibility Check

Ensure your smart home alarm system is the Beghelli 60103 central unit. This magnetic key is not compatible with other central units.

### 4.2. Pairing with the Central Unit

1. Refer to the instruction manual of your Beghelli 60103 central unit for specific pairing procedures.
2. Typically, the central unit will have a "pairing mode" or "add device" function. Activate this mode on your central unit.
3. Once the central unit is in pairing mode, present the Beghelli Dom-e Magnetic Key to the designated sensor area on the central unit.
4. The central unit will provide an indication (e.g., a sound, light, or display message) when the key has been successfully paired.
5. Repeat the process for any additional magnetic keys you wish to pair.

### 4.3. Dom-e Application Integration

After pairing the magnetic key with your central unit, you can manage its functions and integrate it into your smart home automations via the Beghelli Dom-e application. Download the app from your smartphone's app store and follow the in-app instructions to link your central unit and connected devices.

Figure 4: Overview of the Beghelli Dom-e Smart Home System. This diagram illustrates how various Dom-e devices, including the magnetic key, integrate with the central unit and the smartphone application.

## 5. OPERATING INSTRUCTIONS

Once paired, the Beghelli Dom-e Magnetic Key provides a convenient way to interact with your Beghelli 60103 central unit.

### 5.1. Arming/Disarming the Alarm System

To arm or disarm your Beghelli 60103 central unit, simply present the magnetic key to the designated sensor area on the central unit. The central unit will recognize the secure coding of the key and perform the programmed action (e.g., arming the system when leaving, disarming when returning).

### 5.2. Using with the Dom-e Application

The Dom-e application provides extended control over your smart home system:

- **Device Management:** View the status of your magnetic key and other connected devices.
- **Group Control:** Manage multiple devices simultaneously by organizing them into groups.
- **Customized Automations:** Create rules and scenarios for your smart home, such as automatically disarming the alarm when the magnetic key is detected at a specific entry point.

## 6. MAINTENANCE

The Beghelli Dom-e Magnetic Key is designed for minimal maintenance.

- **Cleaning:** Wipe the key with a soft, damp cloth to remove dirt or dust. Avoid using harsh chemicals or

abrasive cleaners.

- **Battery-Free:** The device does not require batteries, eliminating the need for battery replacement.
- **Durability:** Its waterproof and dustproof construction protects internal components from environmental factors.

## 7. TROUBLESHOOTING

---

If you encounter issues with your Beghelli Dom-e Magnetic Key, consider the following:

- **Key Not Responding:**
  - Ensure the magnetic key is presented correctly to the sensor area of the Beghelli 60103 central unit.
  - Verify that the central unit is powered on and functioning correctly.
  - Confirm the key is properly paired with the central unit. If unsure, attempt to re-pair it according to the central unit's manual.
- **Dom-e App Issues:**
  - Check your smartphone's internet connection.
  - Ensure the Dom-e app is updated to the latest version.
  - Restart the Dom-e app or your smartphone.
  - Verify that your Beghelli 60103 central unit is connected to the internet and the Dom-e cloud service.

For persistent issues, consult the Beghelli 60103 central unit manual or contact Beghelli customer support.
