## Controller Layout

Familiarize yourself with the buttons and features of your controller to optimize your gaming experience.

**Image:** Front view of the Harry Potter Wireless Control 4 Houses controller. It features two analog sticks (yellow and green), a red D-pad, blue A/B/X/Y action buttons, and the Hogwarts house crests (Gryffindor, Hufflepuff, Ravenclaw, Slytherin) prominently displayed on the

grips and faceplate.

- **Left Analog Stick:** Features a yellow cap, primarily used for character movement or navigation.
- **Right Analog Stick:** Features a green cap, typically used for camera control, aiming, or specific in-game actions.
- **D-Pad:** A red directional pad for precise digital input.
- **Action Buttons (A, B, X, Y):** Blue buttons used for primary in-game actions such as jumping, attacking, or confirming selections.
- **Shoulder Buttons (L, R) and Triggers (ZL, ZR):** Located on the top edge of the controller, used for various in-game functions like blocking, aiming, or secondary actions.
- **Home Button:** Provides access to the system's main menu or dashboard.
- **Screenshot/Share Button:** Used to capture screenshots or record video clips during gameplay.
- **Plus (+) and Minus (-) Buttons:** Typically used for menu navigation, pausing games, or accessing options.

**Image:** Side view of the Harry Potter Wireless Control 4 Houses controller, highlighting the USB-C charging port located on the front edge between the shoulder buttons. This port is used for charging the controller's internal battery.

## Setup

### Charging the Controller

Before initial use, ensure the controller is fully charged.

1. Connect the small end of the provided USB charging cable to the USB-C port on the front of the controller.
2. Connect the large end of the USB charging cable to a compatible USB power source (e.g., gaming console, computer USB port, or a USB wall adapter).
3. The LED indicators on the controller will illuminate to show the charging status. Refer to the controller's specific LED behavior for full charge indication (e.g., solid light, lights turning off, or a specific color change).
4. A complete charge typically requires approximately 2-3 hours.

### Pairing with Your Device (e.g., Nintendo Switch)

The controller is designed for wireless connectivity. Follow these steps to pair it with your compatible device:

1. Ensure your gaming device (e.g., Nintendo Switch) is powered on and updated to its latest system software version.
2. On your device, navigate to the

## Ask a question about this manual
