plusOne Personal Stroker Model 6733 Instruction Manual

Brand: plusOne | Model: 6733

1. INTRODUCTION AND OVERVIEW

The plusOne Personal Stroker is designed for personal pleasure, offering a realistic and stimulating experience. Crafted from ultra-soft silicone, it features dual textures and a compact design for discreet use and travel.

Figure 1: The plusOne Personal Stroker and its packaging.

Key Features:

- **Realistic, Skin-Like Sensation:** Ultra-soft silicone mimics real flesh for lifelike touch.
- **Dual Texture Stimulation:** Features ribbed and beaded textures for varied sensations.
- **Enhanced Control & Grip:** Non-slip shell provides steady control; removable case allows for firmer grip.
- **Discreet and Compact Design:** Small and portable, ideal for travel or private storage.
- **Waterproof & Easy Cleaning:** Fully waterproof for shower use and quick rinsing. Includes a vented case for hygienic drying.

2. SETUP AND GETTING STARTED

Before first use, ensure the device is clean. The plusOne Personal Stroker consists of two main parts: an outer shell and an internal silicone sleeve.

Figure 2: The outer shell and internal sleeve can be separated for cleaning and customized use.

The internal sleeve features two distinct textures: ribbed and beaded, providing different sensations depending on the orientation.

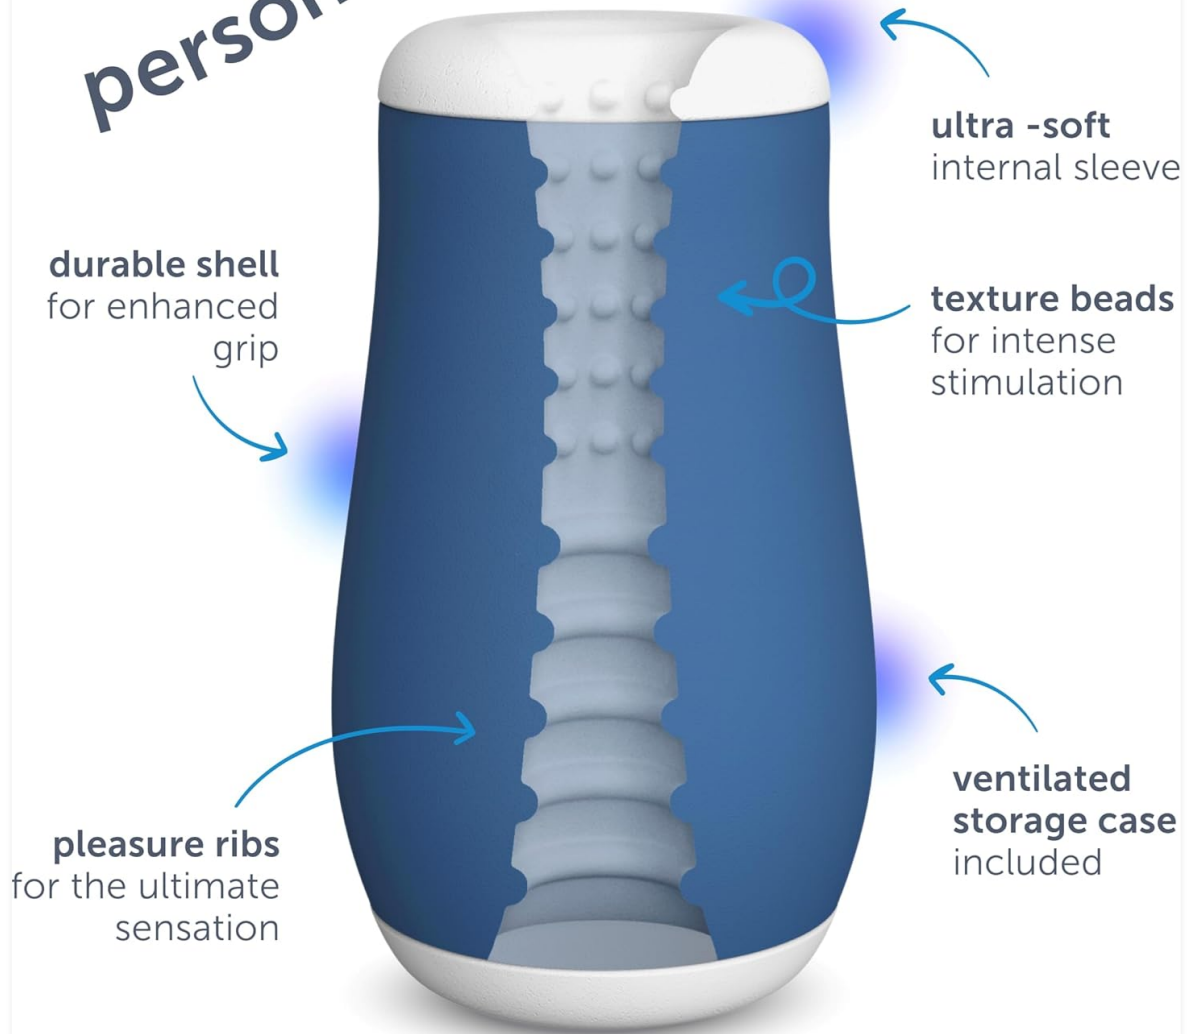

Figure 3: One of the internal textures of the silicone sleeve, featuring ribs for stimulation.

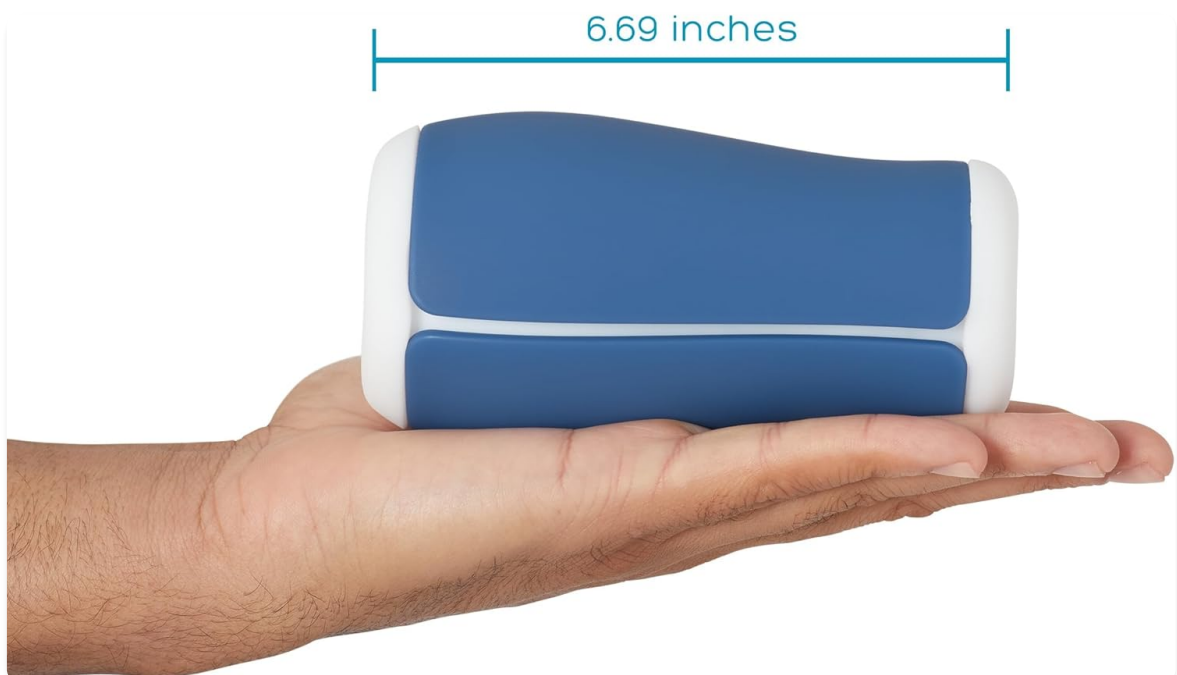

Figure 4: The other internal texture of the silicone sleeve, featuring beads for varied sensation.

3. OPERATING INSTRUCTIONS

1. **Apply Lubricant:** For optimal comfort and sensation, apply a generous amount of water-based lubricant to the opening of the stroker and to yourself.

Figure 5: Applying water-based lubricant to the stroker opening.

2. **Insert and Enjoy:** Gently insert into the stroker. The flexible silicone and internal textures are designed to provide a unique experience.
3. **Adjust Grip:** Use the non-slip outer shell for a comfortable grip. For a firmer sensation, the internal sleeve can be removed from the outer shell and used directly.

4. MAINTENANCE AND CLEANING

Proper cleaning and storage will ensure the longevity and hygiene of your plusOne Personal Stroker.

Cleaning Instructions:

1. **Disassemble:** Separate the internal silicone sleeve from the outer shell.

2. **Rinse:** Rinse both parts thoroughly with warm water. The device is fully waterproof and can be used in the shower.

Figure 6: The stroker is fully waterproof and can be cleaned under running water.

3. **Clean with Soap:** Apply a mild soap or a specialized toy cleaner to both parts and gently scrub to remove any residue.

Figure 7: Cleaning the flexible silicone sleeve with soap and water.

4. **Rinse Again:** Rinse thoroughly to remove all soap.
5. **Dry:** Allow both parts to air dry completely. The included vented case is designed for hygienic drying and storage.
